ISLAND PARK PROJECT:

It was brought to the attention of the Board that some work had been performed on the island under the Higgins Avenue Bridge under the authority of the Missoula Park Board and the City of Missoula under what is generally known as "Island Park Project." Chairman Glasscock reported that he had made an investigation in company with the County Surveyor and the County Attorney of the excavation and leveling work that had been performed on the island, and especially that part of the work that had been done near Piers

No. 3 and 4 of the Higgins Avenue Bridge. Surveyor Dimmick was of the opinion that the removal of the stones, gravel and dirt along these piers would divert the normal course of the Missoula River undeneath the bridge and would undoubtedly endanger the piers above-mentioned. Chairman Glasscock and County Attorney Edward T. Dussault were of the same opinion.

It was deemed at advisable that the Missoula Park Board and the Missoula City Council should be advised and notified of the work that has been done under their guidance and that they will be held responsible by the County of Missoula for any damage sustained to the piers or to the Higgins Avenue Bridge.

After a thorough discussion it was moved, seconded and unanimously carried that the following Resolutions be adopted:

> RESOLVED, that certain excavation and leveling work has been performed on the Island in the Missoula River under the Higgins Avenue Bridge by the Missoula Park Board and the City of Missoula under a Works Progress Administration Project styled "The Island Park Project" and

RESOLVED, that after inspection by officials of Missoula County it definitely appears that said work will change the natural channels of said Missoula River as it flows under said Higgins Avenue Bridge; and

RESOLVED, that said excavation and leveling work has been performed near and at the piers under said Higgins Avenue Bridge and has endangered the usefulness thereof; and

RESOLVED, that the County of Missoula will hold responsible the Missoula Park Board and the City of Missoula for any damages that may in the future occur to the Higgins Avenue Bridge as a result of said work performed on said Island Project; and

RESOLVED, that notice of these resolutions be given to the Missoula Park Board and the Council of the City of Missoula.

The Board attended to General Business.

At 5:00 o'clock P. M. moved by Commissioner Felton and seconded by Commissioner Finefrock that the Board adjourn to meet in Special Session at 10:00 o'clock A. M. November 28th, 1939. Motion carried.

WELFARE MATTERS:

The Board attended to Welfare Matters as recorded in the Welfare Journal.

BURIAL OF THE POOR:

Chairman Glasscock brought up the matter of the increased fees for burial of deceased persons requested by the Board of Trustees of Missoula Cemetery Association. A general discussion ensued relative to the feasibility of the County creating and owning its own cemetery. It was the opinion of the Board that the County could not continue to pay the increased fees for burial purposes in the Missoula Cemetery or in the St. Mary's Cemetery of pauper persons. It was pointed out that the County owns land in the School Addition near the present Missoula Cemetery and that it would be a saving to the taxpayers if the County created and established a County Cemetery and conducted the same exclusively for the burial of pauper persons or those receiving aid from the county.

Upon motion duly made, seconded and unanimously carried the following resolutions were adopted:

RESOLUTION CREATING MISSOULA COUNTY CEMETERY

In accordance with the intention of the Board of County Commissioners of Missoula County, Montana, BE IT RESOLVED by the Board of County Commissioners of Missoula County, Montana:

Section 1. That the Board of County Commissioners of the County of Missoula State of Montana, do hereby establish and create a county cemetery for cemetery and burial purposes in the district and territory hereinafter described.

Section 2. Said Cemetery shall be known and designated as the Missoula County Cemetery.

Section 3. The boundaries of said cemetery are hereby fixed and described as follows: All of Tract Thirty-five (35) of the supplemental plat of School Addition to the City of Missoula, Missoula County, Montana, in Section Sixteen (16), Township Thirteen (13), North, Range Nineteen (19) West, Montana Principal Meridian, Montana.

Section 4. That in accordance with the request of this Board, Charles S. Dimmick, County Surveyor of Missoula County, Montana, has surveyed and platted said above described tract and has made and prepared a plat and blue print thereof.

Section 5. That the said land herein described is hereby dedicated to the public for cemetery/purposes of those persons who die paupers.

Section 6. It is expressly intended that the County of Massoula will undertake the sponsorship of a Works Progress Administration Project for this newly created cemetery for the purpose of leveling and grading the ground included in the description hereof, and for the further purpose of installing a water system, planting trees and grass and generally improving said lands herein dedicated for cemetery purposes.

Section 7. The Board of County Commissioners of Missoula County shall have jurisdiction and control over said cemetery and may make general rules and regulations therefor and appoint sextons and other officers to enforce obedience to the same, and may make all necessary regulations in managing same, including right of taxation to raise money for the purpose of conducting and operating same.

<u>Section</u> 8. The County Clerk is hereby directed to file and record in his office the plat which includes the survey and description thereof, together with a certified copy of this order constituting the same a cemetery;

Passed and adopted this 1st day of December, 1939.

#4. Montana Powder Co., 732 Gerald Ave., Missoula, Mont, by Walker J. Wells.

One TELSMITH secondary crushing plant composed of 1 - 30" x 18" Telsmith roll crusher driven by heavy duty roller chain, rolls mounted on dead shafts with Timken roller bearings mounted within the rolls, and with spring release. One roll to be plain, or smooth, and the other to be corrugated:

1 - Telsmith 36" x 10' single deck vibrating screen, mounted on roller bearings, and with counter balancing fly wheels, equipped with either 3/4 inch round hole screen, or 5/8 square mesh wire screen. We would suggest the wire screen, as it will _____ 20 per cent more material than the round holes.

1 - Telsmith finished material conveyor with 18" wide, 4 ply 1/8" top belt. Conveyor to be 54 feet long at centers. Rollers to be of the three piece type mounted on frictionless bearings.

The above equipment to be mounted on a truck equipped with dual pneumatic 9 inch, 10 ply tires. Wheels with Timken bearings. All equipment to be furnished complete with drives requiring power input thru one pulley from an engine not included.

This plant is offered with the understanding that the finished product conveyor from the present No. 10 Pioneer plant will discharge a minus 12 "product to the screen of this plant, where the minus 3/4" will be removed, and the oversize fed to the roll crusher, the product will be returned to the screen. This bid does not include the repair parts for the Pioneer plant, or engine drive belt, or the section of conveyor asked for in the invitation, but does

include a complete plant for recrushing as explained above. The plant proposed is shown on page 8 and 9 of the enclosed Portable Crushing Plant catalog, except that the roll crusher is mounted instead of the gyratory, and no power furnished.

and no power furnished.

We are also quoting on the back geared roll crusher, instead of the regular direct drive. In this back gear, the pivotal position of the gear housing may be adjusted by the means of the adjusting bolt, so as to shorten, or lengthen the centers of the chain drive to the rolls. This allows adjustment without shifting the countershaft. The roller bearings in these rolls run in a bath of oil.

#5. Petrie Machinery Company, Ballings, Montana, by D. R. Petrie, President:

In response to your call for bids on crushing equipment to be opened today we have the following to submit for your consideration:-

On the auxiliary roll crusher mounted on pneumatic tired trucks as an auxiliary to your present No. 10 Russell or Pioneer Portable Plant, which is equipped with 836 Universal crusher we submit an outfit as follows:

Truck complete in accordance with your specifications with pneumatic tires of heavy duty; 30 x 18 roller bearing rolls of standard manufacture as produced by Universal Crusher Co., of Cedar Rapids, Iowa, as per specifications attached hereto of either the finger gear or chain driven construction according to your choice, 3' x 8' single deck SIMPLICITY Gyrating Screen with screen frame and hopper; (catalog page describing screen in detail also attached hereto) 18" x 10' feed conveyor from your No. 10 Plant and 18"x 10' return conveyor to No. 10 Plant; all necessary drives, etc., chute from bucket elevator on No. 10 plant to auxiliary roll screen; extension on No. 10 bucket elevator; 45 extra 16" x 5½" bucket elevator buckets for No. 10 Plant; 12" 75' 6-ply drive belt and 18" 11' extension for No. 10 conveyor. Delivery can be made on above equipment is two to three weeks The approximate weight of this equipment is 23,000 lbs.

The Price f.o.b. Missoula, Mont., or any railroad point in this County is \$7,035.00.

A photograph of a similar plant on steel wheels is attached hereto.

The way we understand this set up is that it will set parallel to your No. 10 plant and the material from the bucket elevator will be chuted to the screen on the auxiliary roll plant we are bidding to furnish. The material passing the screen will go into the hopper underneath and by conveyor to the hopper under the screen on the No. 10 plant. The material retained on the screen will go to the rolls to be crushed and then be carried on a 10' 18" conveyor to the boot on the bucket elevator of the No. 10 plant. This is exactly the way the plant which we have enclosed photograph 16-34 of operates.

With reference to the quotation for a complete Universal tandem crushing, screening and loading plant, we are quoting on our Universal 27-G Plant. This Universal Plant is identical to the Universal 880 Plant except there is no charging hopper on the main plant. The feeder conveyor on this Universal 27-G Plant is lattice frame, and feeds up over the front end of the plant.

The attached blue print shows this Universal 27-G Plant set up with the following main items:

1024 Universal Roller Bearing Jaw Crusher

400.00

Kindly note the method employed by Universal in their Roller Bearing/Crushers of holding their shells on the cores as this is a great deal more positive than the taper segment type as used by others.

The conveyors and all the drive shafts as well as the rolls and crusher have antifriction bearings. The plant is a 1940 type and would be a credit to your County.

We are also enclosing bulletins on rolls, roller bearing crushers, conveyors, screens and bins.

Referring to the trade-in of your No. 10 Plant, we would allow \$4,000, you to handle the loading if shipped from Missoula on flat car.

This plant is well balanced with a 1024 crusher and 24" rolls and the 3' x 8' screen is plenty large capacity to take care of even the 30" roll outfit.

The 18" feeder conveyor is standard but if you prefer a 24" we can furnish this as shown. With regard to the 30" 60' lattice frame conveyor which you ask for, this is all out of proportion to the size of this plant, unless you have some special reason for it, as usually even on our Senior Plants we use only an 18" delivery conveyor, hence our quotation on three widths .

Shipment could be made on either the auxiliary rolls or the plant in approximately two to three weeks from receipt of order.

## EXAMINERS'S NOTES

All receipts, disbursements, fees, bank balances, cash and depository securities were verified during the examination.

The Cash balances of the County Treasurer were in agreement with similar accounts as kept by the County Clerk and Recorder.

We find that the County Treasurer has been exceedingly lax in collecting personal taxes. Several mercantile establishments have closed out their business and left the county without paying their taxes, while several other stores within sight of the Court House have failed to pay their taxes for the last year. There is no reason why these should not be collected, and it is very unfair to the people who do pay their taxes to allow a certain select few to evade their part in the financing of governmental affairs. Under liable the law, the Treasurer can be held personally/for any personal property tax which is not collected on account of his negligence.

The Airport fund has been overdrawn in the amount of \$585.33. There is no law which allows the overdrawing of any fund. If there is not sufficient cash in the fund to pay the warrants as presented, such warrants must be registered as provided by law.

The original and the duplicate of Motor Vehicle Receipt No. 340 were destroyed by the Treasurer. No receipt should ever be destroyed. If cancelled or made void for any reason, all copies must be preserved for proper accounting.

In some instances the Treasurer has issued delinquent tax receipts and held same without taking to account for as long as two months before running same through the books. This is highly irregular and all receipts must be accounted for as of the date the receipt is issued.

The County Treasurer failed to collect interest or penalty on 1939 delinquent tax receipts as follows:

No.	74,	\$ .83
No.	75,	2.58
No.	99,	12.42
No.	100,	.87
No.	101,	6.39
No.	102,	7.28
No.	103	4.92
No.	104,	.95
No.	105,	5.46
	Total Due,	\$ 41.70

These amounts must be collected from the taxpayers as required by law, or the County Treasurer will have to account for same personally.

There is a cash shortage in the amount of \$24.73 as previously noted, which must be paid by the Treasurer.

Funds collected for the Jocko Irrigation District should be transmitted to the Lake County Treasurer at the end of each month, as the larger part of the district is in that County. No remittance has been made for several years and \$3,920.47 has accumulated to the credit of the district in Missoula County Treasury.

We attempted to make an examination of the Missoula County Fair but a satisfactory check could not be made as all of the books and records have disappeared. The matter was called to the attention of the County Attorney and the Board of County Commissioners but still none of the books or records of the previous fair board could be found. The information as set forth above was taken from the records of the County Treasurer and the County Clerk and the figures carried over from our last examination. It would seem that the County Attorney and the Sheriff should be able to locate these records which are very essential as it is a felony to conceal, steal or destroy public records.

At the time of our last examination, there were illegally issued warrants amounting to \$1,675.01, all having been issued in excess of the budget and claims which were unpaid on account of being in excess of the budget in the aggregate amount of \$6,942.62. All of these illegal claims and warrants have since been paid or at least they have disappeared along with other records. A little law enforcement might be advisable and might tend to bring about some little regard for the law in the future.

On January 1, 1940, the Fair Fund had a net balance of \$6,686.52 available for the year 1940 in addition to what taxes may be collected. If the 1940 fair is to be held, without again bringing on a large deficit or overdraft, every possible economy must be practiced, and unnecessary travelling expenses and other similar items must be avoided.

The Public Administrator has, in some instances, deposited estate funds in the bank and paid some out on checks. This procedure must be discontinued and all funds must be deposited with the County Treasurer and disbursed by warrant in the prescribed manner.

The claims for the period were in very good form, with few exceptions, being properly dated, itemized and approved.

All claims for mileage, such as No. 4003, should be fully and completely itemized by showing the points between which travelled, the number of miles and the basic rate per mile. Claim No. 4003 and a few others do not show this information.

Claim No. 4598 in the amount of \$53.51 of the Superintendent of Schools for expense while attending a meeting of the Inland Empire Educational Association at Spokane is not a legal charge against the county as there is no law authorizing a trip of this kind at the expense of the county.

Respectfully submitted,

A. E. WILLIAMSON, First Assistant State Examiner.

E. J. BECKETT, Deputy State Examiner.

Enc.

We are enclosing you herewith a copy of a letter from E. A. McCrary, Tax Commissioner of Northern Pacific Railway Company to W. H. Marion, Treasurer of Missoula County, withdrawing the protest of that Railway Company to 1939 taxes paid under protest.

We have taken steps to dismiss the Northern Pacific Railway Company's action against the County Treasurer of Missoula County which was pending for the purpose of collecting from the County the taxes paid under protest.

This case is being dismissed and the protests withdrawn on the understanding that the money involved will be considered as available cash for preparing the budget for the ensuing fiscal year. We believe this arrangement was made between your Board and Mr. Cheney, the Secretary of the Missoula Chamber of Commerce.

Thanking you, we are

Very truly yours,

Dear Perc:

Would the County Commissioners be kind enough to endorse the enclosed resolution and notify the County Treasurer's office that it is in effect from henceforth now and on?

Resolved: That the Board of County Commissioners and the County Treasurer will not issue a license to carnivals, circuses, thrill shows, or any other type of outdoor amusement which would conflict with the type of entertainment to be shown at the Western Montana day

Fair, thirty days prior to the opening of the fair.

The Fair Board will certainly appreciate this cooperation.

As you understand, it is necessary to protect the carnivals that come in to the Fair on this agreement so that the Western Montana Fair can demand larger percentages from the Fair carnival.

Very truly yours,
