Hon. Board of County Commissioners Missoula County, Mont.

### Gentlemen:

In view of constantly and rapidly increasing cost of living expenses and general trend of advance in prive for everything we have to buy we find it necessary to ask for a moderate increase in salary beginning July first next.

It is our belief that an increase of twelve and one half dollars per month is not out of line with other salary and wage increases which are general at this time.

Very Sincerely,

D. O. Merriman

### COMMUNICATION FROM WESTERN MONTANA FAIR AND RODEO:

The Board examined, approved and ordered filed the following communication from the Western Montana Fair and Rodeo:

Missoula, Montana July 11, 1941

The Board of County Commissioners Missoula County Missoula, Montana

Gentlemen:

ATTENTION MR. LOU FELTON, CHAIRMAN

The Fair Board wishes to thenk you for your cooperation in helping to keep all carnivals and circuses out of Missoula County between July 4 and the close of the Western Montana Fair.

We realize that sometimes an unprecedented situation may arise and require stern action such as was necessitated during the past two days. However, we believe that everything has been straightened out and all organizations will cooperate with the Fair in keeping such carnivals and circuses out during the restricted time.

At a meeting the evening of July tenth the Fair Board went on record as supporting the resolution previously passed by the Chamber of Commerce keeping all carnivals and circuses out of Missoula.

The Fair Board feels that it has quite a large businessinvestment at stake and that it should be protected through a resolution to keep all circuses and carnivals out of Missoula beginning July Fourth until after the Fair.

We sould like to have you go on record passing such a resolution; also that no license be issued to them; that all carnivals and circuses regardless of by whom sponsored should be required to pay a license fee; that the County Treasurer's office be notified of such a resolution; and that such resolution be made public through the newspapers and radio.

Cordially yours,

WESTERN MONTANA FAIR AND RODEO

The following Resolution was presented

RESOLUTION CONSTITUTING AGREEMENT WITH THE UNITED STATES RELATIVE TO OPERATION AND MAINTENANCE OF THE MISSOULA COUNTY AIRPORT

WHEREAS, the Administrator of Civil Aeronautics of the United States Department of Commerce (hereinafter referred to as "Administrator"), acting pursuant to the terms of the Department of Commerce Appropriation Act, 1942 (Public Law 135, 77th Congress, Title II), has designated as necessary for national defense a project (herein called the "Project") for development of the Missoula County Airport (Herein called the "Airport"), which project is identified as S-904-24-5; and

WHEREAS, as a condition precedent to release and operation of the Project, the Administrator requires that the County of Missoula (herein called the "County") have title in fee simple to the landing area of the Airport and the lands to be improved under the project and enter into an agreement with the United States (herein called the "Government"), in the manner and form hereof; and

WHEREAS, the County is legally, affinancially, and otherwise able to enter into such an agreement and desires to avail itself of the benefits of prosecution of the Project;

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of the County of Missoula, State of Montana;

Section 1. That for and in consideration of development of the Airport by the Government as contemplated by the Project, the County of Missoula does hereby covenant and agree with the Government as follows:

- (a) The Government shall have the right to develop the Airport as it sees fit, including the right to determine the exact nature of the improvements to be made under the Project, the manner in which the Project is to be conducted, the amount of Federal funds to be expended, and all other matters relating to the Project. The County will cooperate with the Government to ensure prosecution of the Project without interference or hindrance, and agrees to permit the agents and employees of the Government, and all persons authorized by the Administrator, to enter upon, use, and occupy the Airport as the Administrator may deem necessary or desirable in connection with the conduct of the Project.
- (b) The County agrees to indemnify and save harmless the Government against and from any and all claims and damages which may arise from or in connection with the carrying out of the Project, excepting claims for materials furnished or work performed pursuant to authority given by officers, employees, or agents of the Government.
- (c) It is understood and agreed that all improvements made under the Project shall be the sole and absolute property of the County, except where specifically agreed otherwise, in writing, prior to the undertaking of the inprovement or installation in question.
  - (d) The County agrees that, continuously during the term of this agreement, the

Airport will be operated as such, and for no other purpose, and that unless utilized exclusively for military purposes, it will at all times be operated for the use and benefit of the public, on reasonable terms and without unjust discrimination, and without grant or exercise of any exclusive right for use of the Airport within the meaning of Section 303 of the Civil Aeronautics Act of 1938.

- (e) The County agrees that it will at all times during the term of this agreement maintain in good and servicable condition and repair the entire landing area of the Airport and all improvements, facilities, and equipment which have been or may be made, constructed, or installed with Federal aid, including all improvements made under Project, other than facilities and equipment owned by the Government.
- (f) Insofar as is within its powers and reasonably possible, the County will prevent any use of land either within or outside the boundaries of the Airport, including the construction, erection, alteration, or growth, of any structure or other object thereon, which would be a hazard to the landing, taking off, or maneuvering of aircraft at the Airport, or otherwise limit its usefulness as an Airport.
- (g) In order to protect the rights and interests of the Government under this resolution, the County agrees that it will not enter into any transaction which would operate to deprive it of any of the rights and powers necessary to perform any or all of the covenants made herein, unless by such transaction the obligation to perform all such covenants is assumed by another public agency.

Section 2. That the County does hereby warrant and represent to the Government, as follows:

- (a) That the County has title in fee simple to all the lands comprising the landing area of the Airport and to all lands to be improved under the Project, which lands are shown on the sketch attached hereto as part of Exhibit A, and that said lands are held free from any lien or encumbrance;
- (b) That the County has the power and authority to adopt this resolution and to perform all of the covenants contained therein;
- (c) That the County is financially and practically able to perform all of the covenants contained in this resolution;
- (d) That there is no pending or threatened litigation or other legal proceedins, and no material and relevant fact, which might adversely affect the prosecution of the Project, the operation of the Airport, or the performance of any of the covenants contained in this resolution, which has not been brought to the attention of the Administrator;
- (e) That the Board of County Commissioners of the County has complied with all requirements of law in adopting this resolution;
- (f) That such of the above representations and warranties as involve questions of law are made upon the advice of the County Attorney of the County, whose certificate as to such matters has been previously delivered to the Board of County Commissioners and is annexed hereto and made a part hereof, as Exhibit A.

Section 3. That the County Clerk and the County Attorney be, and they are authorized to furnish the Administrator such legal and factual information relative to the Airport, the Project, and this resolution as he may reasonably request.

Section 4. That Sections 1 and 2 of this resolution shall become effective upon the award of any construction contract for any portion of the Project or the inauguration in full force and effect of any portion of the Project under force account, and shall continue/during the useful life of the improvements made under the Project.

Section 5. That two certified copies of this resolution be sent forthwith to the Administrator, through the Regional Manager of Civil Aeronautics, R. D. Bedinger, Seattle, Washington.

### EXAMINER'S NOTES

Total Expenditures

The cash balances to the credit of the various fundraccounts as shown by the Treasurer's books were verified by direct correspondence with the depository banks at close of business May 16, 1941, while the cash and cash items were verified by count. The difference due the County as shown in the Treasurer's reconcilement was accounted for during the examination. The three items not accounted for as shown in Treasurer's reconcilement schedules were taken into account by the issuance of the following receipts: 1939 Delinquent Receipts Nos. 1127, 1128 and 1129 amounting to \$146.64.

\$ 49,583.27

The funds on deposit with the depository banks were amply protected by legal securities and Federal Deposit Insurance, but proper resolutions of the directors of the First National Bank and the Western Montana National Bank were not on file. When collateral securities are required above the amount of the Federal Deposit Insurance, the county should be furnished with an authenticated copy of a resolution by the Board of directors of the Depository Banks authorizing the officers of the bank to pledge securities covering the county funds. It is equally as important to have these resolutions as it is to have the proper amount of legal securities.

We found that our recommendation relative to the installation of the combination "Ten-year Delinquent Real Estate Record" including 1939 and all yearsprior was completed during the examination. We noted that the records were exceptionally good and the Board of County Commissioners are entitled to commendation for having these records completed. The "Treasurer's Register of Land Acquired by Tax Deed" has been partly made up of Tax Deeds that had been taken during the year 1939, and we were informed provisions would be made to complete this said record and also for the installation of the "County Clerk's Tax Deed and Land Sale Journal." The advantages of the above said records over the procedure now followed

were gone into in detail with the Board of County Commissioners and other officers of your County during the course of this examination. We shall expect that these records be properly installed, to the end that tax deed matters and tax deed land sales can be handled legally, more efficiently and economically.

We found that the Treasurer's daily cash was not in agreement with the records at the close of this examination, and the records also showed this to be the case on numerous other occasions. In connection with the many duties of the Treasurer we noted he cashes many checks at the window or, in other words, is carrying on a general exchange banking. The law does not provide that the Treasurer's office should carry on a banking exchange at the expense of the County, but instead the office should confine itself only to taking care of the County's business. We do not approve of this practice and trust it will be discontinued. This Department requires, as a part of the system of accounts, that checks be deposited in banks and an itemized record kept of their disposition on the deposit Slips which should be filed and preserved for future reference. We require a full record of all transactions as they flow through the Treasurer's office. The daily cash balance sheet must show the status of transactions in full and also be filed away for reference. Instructions on how to handle these matters and also show identification on all receipts issued and checks received for proof purposes, if needed, was gone into in detail with the Treasurer's office.

We noted the licenses collected by the Treasurer's office did not include any payments from manufacturers of non-intoxicating beverages according to Section 2436, Revised Codes of Montana, 1935, and manufacturers according to Section 2441, Revised Codes of Montana, 1935. Some additional revenue could be collected by strict enforcement of the license laws. The collecting of all the various licenses required by law should be given special attention so that all who are required to pay, do pay their part into the County Treasury.

We notice a large amount of Personal Taxes not a lien on real estate as delinquent in the County Clerk's accounts. His ledger accounts showed Personal Taxes delinquent as of April 30, 1941, as follows:

| <u>Year</u>                                                                  | <u>Amount</u>                                                                                                                       |

In former reports we have called attention to the laxity in collecting Personal Taxes. It is the duty of County Treasurers to collect Personal Property Taxes not a lien on real estate, immediately or by seizure and sale. It is apparent from the law that the intent of the legislature was that the County Treasurer, in his collection of Personal Taxes, is not to wait until November 30th, to collect said taxes, but is directed to do so immediately. The records show a large amount of delinquent Personal Taxes on the Tax Rolls that should have been collected before the date of delinquency. There are business establishments and citizens who are delinquent and have been so for several years. Under date of March 31, 1941, the Attorney General rendered an opinion that the statutes do not contemplate the delinquency of any personal tax and the County Treasurer is held personally liable for failure of collection of same. The non-collection of Personal Taxes simply throws that much more of a taxation burden on the Real Estate Taxpayers. Immediate collections would also stop the loss in many cases of personal property taxes through transfer, loss, consumption, con-

cealment or destruction of personal property during the additional time unnecessarily given for the payment thereof. We believe it is the duty of the County Commissioners to see that the Treasurer properly collects Personal Taxes and with that thought in mind, the Examiner met with the Board during the time of the examination and they immediately took action to start enforcement of the collection of said taxes.

The decision as to whether or not the Treasurer and his sureties are liable on his official bond for all taxes on personal property remaining uncollected by reason of the wilful failure or neglect to levy upon and sell such personal property, this Department must leave to the judgment of the proper county officers. The following is a list of Personal Property Delinquents of Assessments of \$10.00 and over for the years 1938, 1939 and 1940:

In our report under date of February 23, 1939, attention was called to erroneous distribution of Tax Deed Sales by the County Treasumed's office, and we again found that Tax Deed Sales proceeds had not been legally apportioned and that there had been large sums of money misapplied. In three schedules hereinafter set up, we show the operation of Tax Deed transactions as distributed by the County Treasurer's office, the legal distributions and different amounts of funds that were erroneously apportioned.

The illegal distribution of the proceeds of the above said \$300.00 payment deprived the City of Missoula Special Assessment of the amount of \$221.70, and High School Sinking Fund of 60¢ of their legal equities, and credited instead all other funds having an equity in the apportionment, an excess of \$222.30 as detailed in the above schedule.

Reference and setting up of the above schedule was done for the purpose of calling attention to the irregularities as set out, and also for the reason that the Treasurer's office can adjust these misapplications of funds by applying the proceeds of the next payment due on this Tax Deed Sale amounting to \$673.27 due on or before August 11, 1942.

The illegal distribution of the proceeds of the above said \$800.00 payment, deprived the County General Fund of \$453.31, the Special Poor Fund of \$7.00, the High School Bond Sinking Fund of 82¢, City of Missoula Special Assessments of \$29.20, and the City of Missoula Special Road Tax of \$3.00 of their legal equities, and credited instead all other funds having an equity in the apportionment an excess of \$493.33 as detailed in the above schedule No. 3.

The examination revealed as it also did to the Examiner in the 1939 examination, that distribution of Tax Deed Sales in addition to the above examples had not been made according to the percentage amounts of money due the several funds on the basis of the equity they have according to law. Unless proper records are compiled, it is difficult, slow and unsatisfactory to distribute Tax Deed Sales in accordance with the statutory requirements. The misapplications of funds derived from Tax Deed Fund Sales were so flagrant and the amount of money quite large and of great importance, that during the examination the County Treasurer and County Clerk were instructed to set aside Tax Deed Property Sales proceeds in a Suspense Account until proper records are set up by each office which will enable each of said officers to make legal distributions of the proceeds from Tax Deed Transactions and have complete records of each deal from the taking of the Tax Deed and thefinal deed issued to the purchaser. Refunds and transfers of excess payments should be obtained and the adjustments and proper dredits given to the funds deprived of their legal shares. We would recommend expecially, that all Tax Deed Transactions that had City of Missoula Special Assessments involved, be refigured and proper adjustments made.

The examination revealed a balance of \$1,320.12 in your "Protested Tax Fund", a greater portion of which apparently should be released and distributed. The Treasurer should ascertain whether or not the protests have been settled, either by court or failure on the part of the payors to bring action to recover, and if is found that some cases of long standing are still pending, the County Attorney should see that they are settled.

The records of the County Treasurer's office show a balance in the Redemption Fund in the amount of \$25:75 with no outstanding claims or warrants. This balance may be erroneous, but we did not attempt to reconcile the account for the reason that this excess balance had accumulated many years ago. This account should be reconciled and the detail of the cash balance should be set up in the "Redemption Ledger". A Redemption Ledger form was furnished and prescribed to take the place of the present accounting forms of Redemption transactions. Special attention should be given this account and all future details of cash redemption transactions shown in the Redemption Ledger.

The audit of the 1940 Tax Roll revealed that the taxes receivable accounts were incomplete. At the time the taxes are spread by the Clerk, the Treasurer is charged with the amount of the tax roll and he is credited as he collects the amounts. However, the Treasurer's office has from time to time made various corrections in the roll, in effect cancellations, so the amount of delinquent taxes as shown by the tax rolls accounts of the Treasurer's office would not reconcile with the amounts of the County Clerk's Taxes Receivable Accounts. This is a very serious matter and if handled in this arbitrary manner, can only result in upsetting the system outlined by our Department, which requires that the subsidiary records, like the tax roll, agree with the Clerk's ledger. In order to correct this matter, and also to be of assistance in reconciling tax rolls, it is the requirement of this Department that in the future all tax cancellations or corrections, of whatever kind, must be made/upon application in writing and approved by the County Commissioners, and the authorized abatements taken into account in the Taxes Receivable Accounts. The delinquent Taxes Receivable Accounts have not been set up and kept by the County Treasurer. These accounts designated by years of levy as well as by class must be maintained in the County Treasurer's general ledger until all items have been collected or finally disposed of by sale, and, each year, as the list of such taxes is made up, the total of each account should be compared and agree with the aggregate items on such list pertaining to the year and class represented by that account.

We noted many instances the Treasurer's office had not collected penalty and interest on 1940 delinquent taxes. It should be remembered that any action the Treasurer's office may take, such as non-collection of penalty and interest on delinquent taxes not covered by the Tax Moratorium Law, will not remove the cloud on the title to the property. This paragraph was written not alone as a criticism of the County Treasurer's office, but as a warning to some taxpayers who seem to insist on delaying the payment of their taxes until delinquent and then persuading the Treasurer to illegally accept payment without including the proper amount of penalty and interest as required by law.

In our report dated February 23, 1939, we criticized the Treasurer's office for not complying with the law providing for the keeping of School Budget operations. We found that the budgets had been kept without requiring duplicate warrants being filed before payment, and such duplicate warrants immediately entered on the school accounts, but instead the records only showed the total amounts of payments, and not warrants issued and were written up in the said Budget Records long after the transaction had been made. This kind of accounting is of no value, being useless as a Budget Control and the record does not comply with the duties as prescribed by law. The County Treasurer's office should fully comply by keeping complete records and maintain control of budgets of the district schools and high schools. These matters were again gone into in detail with the Treasurer's office. We trust that the proper officers will see that said budget laws are enforced and full accounting requirements complied with, so that expenditures can be ascertained and thereby limited to the appropriations.

In some instances the Treasurer's office did not deliver to the County Clerk. original and duplicate voided receipts and also had issued delinquent tax receipts and held same without taking same into account for one or two months before running same through the books. These practices are irregular and cause more work and incomvenience for the County Clerk in keeping Financial Stationary Controls, and we trust that all receipts will be accounted for as of the date the receipt is issued and in numerical sequence, and that all voided receipts be surrendered properly.

The Treasurer's office erroneously credited AlOl Receipt No. 8400 to the Joe Long

Estate instead of the County Poor Fund. A transfer of this amount must be made by the County Treasurer from the Joe Long Estate to the County Poor Fund.

The examination of the Justices of the Peace revealed that court costs and fees of Highway Patrol cases for the past year has been credited by the County Treasurer's office to the General School Fund in the amount of \$406.50 instead of to the County General Fund. This amount erroneously allocated should be corrected.

Fines collected by the Clerk of the Court in March, 1941, amounted to \$465.00 and the AlOl Receipts issued by the Treasurer's office for the same and credited to the General School Fund were issued for \$400.00 and the balance of \$65.00 was credited to the County General Fund. The amount of \$65.00 should be authorized transferred from the General Fund to the General School Fund.

Instructions of importance were made to the County Treasurer's office relative to accounting procedures of District Schools, High Schools, Irrigation Districts and County Fair Funds, and the reporting of said accounts to their respective Clerks and Secretaries. The manner in which school reports are now completed requires duplication of work. The system prescribed and outlined will do away with a large amount of unnecessary work. We found in connection with the above funds, that the Treasurer did not make monthly reports to the Fair Secretary and Irrigation District Secretaries of the payments made and moneys received. These requirements must be adhered to.

The matter of keeping the accounts of County Bond Sinking Funds and Bond Interest Fund in separate accounts for each issue was duscussed during the examination. Each subject for which bonds are issued must be independent of the other to avoid mingling of the moneys belonging to one purpose with that of another. Separate accounts were determined and they should be set up and levies should be made by the Board for each issue.

The examination of the Public Administrator's records disclosed that a few instances all moneys received had not been deposited with the County Treasurer, and such moneys drawn upon the order of the Public Administrator, countersigned by a District Judge, as provided for by Section 10001, Revised Codes of Montana, 1935.

We also noted several old estates that have balances to their credit whosh have been in process of administration for a number of years. It appears that six of these estates set up under the Public Administrator's reconcilement on Pages 9 and 10 of this report, and designated with the character "#" after the balance, have been closed - some of them several years ago, and orders of escheating the balances to the State of Montana are on file but said orders have not been carried out. The examination also reveals twelve summary estates designated with the characters "##" which have balances that should be ordered escheated. The County Attorney should take whatever action is necessary to have these estates properly disposed of and cleared from the records.

County Treasurer, County Clerk and Recorder, and the Fair Secretary, as it was impossible to make an audit from the Secretary's records only. The accounting records of the County Fair were incomplete and as kept, were not of as much value to the Fair Commission as they should have been. The Secretary should keep complete records of all transactions in a competent manner and reconcile his accounts with accounts of the County Clerk and Treasurer pertaining to Fair Accounts at the end of each month's business. We found expenditures had been made by cash direct and not deposited and paid upon warrants through the County Treasurer's office. Wim found that a great many of the claims submitted to the Fair Commission and paid by them, had not been acknowledged as required by law, nor did the vouchers show the approval signature of the President. Claims properly itemized, acknowledged and approved prior to payment should be required before issuing warrants. The legal and proper accounting procedure of handling

County Fair matters was gone into in detail and proper accounting forms were prescribed.

The claims were found to be exceptionally well itemized, acknowledged and approved prior to payment. However, we noted in some claims, for mileage charges, complete itemization was lacking. Full itemization giving points of travel is necessary to permit a satisfactory audit by the Board of County Commissioners and they should insist on complete itemization before approving the claim for payment.

It is naturally assumed by an Examiner that payments ordered made for services, mileage and supplies, and those substantiated by regular sworn claims, are just payments and that such supplies have been actually furnished and such mileage and services rendered. We mention this since our attantion has been called to a certain claim and vouchers for mileage allowances and allowances for use of car to S. K. Skoblin and G. A. Sutherland, incurred in performing their duties on Airport construction. Their wages were not on any County payroll. We were informed their salaries were paid by the W.P.A. and that the legality of paying from County funds, mileage or allowances for car was questionable. The burden of proof does not rest with this Department as to whether the Board of County Commissioners had authority to make these payments, but with the officer or officers having actual knowledge of the conditions surrounding the transactions. This matter was discussed with the County Attorney, and we recommend that the matter be fully investigated by him and such action taken as may be justified. Some of the claims referred to are - Nos. 3122, 3520, 3945, 4308, 4624, 508, 980, 1400, 1882, 2288, 1911, 2289, 2741, 2775, 3511, 3515, 3946 and 4319.

Claim No. 2377, J. F. Shoblom, Sheriff, for mileage, includes charges of \$70.02 for returning a prisoner from Salt Lake City, Utah, paid from the General Fund. It is our opinion that this case should have been handled as an agent of the State and the expenses collected from the State as provided by Section 12428, Revised Codes of Montana, 1935. A Sheriff is without authority, as such, beyond the confimes of the State. In a very recent opinion of the Attorney General held. """ that an officer returning a prisoner who has waived extradition, is not entitled to mileage or expense incurred outside of the territorial limits of the State." The only expense that may be allowed is for conveying the prisoner from the State line before the magistrate issuing the warrant. The expense thereof is a proper charge against the County.

This report includes many criticisms of omissions and commissions that result in reports and administrative information to be erroneous and lacking in correctness. Therefore, it is of the first importance that your government should be governed wisely, economically and efficiently. Wisdom is the knowledge of conditions which good accounting and reporting alone can furnish. Economy and efficiency are impossible without the controls which sound financial procedures supply. There is a great need for improved accounting, and we trust that full cooperation will result for necessary improvements in your accounting and administrative procedures.

Respectfully submitted.

A. M. JOHNSON, Deputy State Examiner.

### RESOLUTION FOR SPECIAL ASSESSMENT, DISTRICT #3:

WHEREAS, the plat of the six (6) lots located in the West half  $(W_2)$  of Block Sixty-seven (67), Hammond Addition No. 6 to the City of Missoula, Montana, has been amended and changed, and

WHEREAS, three (3) lots have a frontage on Woodworth Avenue and three (3) lots have a frontage on North Avenue, and

WHEREAS, it was the intent of the Original resolutions in the creation of said Special Improvement District that each owner pay a proportionate share of the expense for the construction of new sidewalk and curbing, and

. WHEREAS, by reason of the amended plat above referred to it has been necessary to make out a revised assessment on said amended plat for the remaining nine (9) years of the term of said Special Improvement District,

NOW, THEREFORE, BE IT RESOLVED That a revised assessment be, and is hereby made for said amended lots, and that a copy of said revised assessment, together with a copy of the supplemental plat, be attached and made a part of the original assessments creating said Special Improvement District.

Moved by Commissioner Flynn and seconded by Acting Chairman Finefrock that the resolution be passed and adopted. On Roll Call, Acting Chairman Finefrock voted "yes" and Commissioner Flynn voted "yes", whereupon the motion was declared carried and said Resolution passed and adopted.

Here is the amended assessment schedule for amended Block 67, Hammond Addition #6.

Each owner will pay for the new construction on an actual frontage basis, conforming with the original set-up. \$0.8697 per lin. ft. sidewalk times frontage gives assessment.
