#### DEPARTMENT OF COMMERCE

#### Civil Aeronautics Administration

RESOLUTION ACCEPTING AN OFFER OF AID IN THE DEVELOPMENT OF THE MISSOULA AIRPORT, MADE BY THE UNITED STATES OF AMERICA THROUGH THE ADMINISTRATOR OF CIVIL AERONAUTICS OF THE DEPARTMENT OF COMMERCE AND PROVIDING CERTAIN ASSURANCES AND COVENANTS IN CONSIDERATION THEREOF.

WHEREAS, the Administrator of Civil Aeronautics of the United States Department of Commerce, through the Regional Manager of Civil Aeronautics, Seattle, Washington, advises that the development of the Missoula Airport in the approximate amount of \$236,000.00 has been approved by the Board composed of the Secretaries of War, Navy and Commerce as necessary to national defense for inclusion in the construction program authorized by Public No. 812, 76th Congress, approved October 9, 1940.

WHEREAS, the undertaking of this development is contingent on the fulfillment of certain conditions, to-wit:

- 1. That the Missoula County through its properly constituded officials provide evidence that it has title or will obtain title prior to construction being placed underway to the requisite land for the project.
- 2. That the Missoula County agrees to accept full responsibility for the maintenance of the improved airport.
- 3. That the Missoula County agree to accept full responsibility for the operation of the improved airport as a public airport in the public interest.
- 4. That the Missoula County agree to protect the aerial approaches to the airport to the full extent of its legal ability.
- 5. That the Missoula County agree to cooperate with the Civil Aeronautics Administration in the orderly prosecution of the proposed work.
- 6. That the Missoula County agree to hold the United States harmless from all claims and damages which may arise from the construction operations but are not a definite part thereof.

WHEREAS, the proposed development would be to the advantage and benefit of the Missoula County,

NOW THEREFORE, BE IT RESOLVED BY THE Board of County Commissioners of the Missoula County,

SECTION I. That the Missoula County, hereby agrees, subject to the United States undertaking the development of the Missoula airport at an approximate cost of \$236,000.00, as follows:

## REPRESENTATIONS AND WARRANTIES:

(a) That the Missoula County owns and possesses title in fee simple to the lands comprising the landing area of the Missoula Airport, together with all other lands to be improved under the project or will acquire title in fee simple to these lands without delay, which lands are more particularly des_ribed herewith by metes or bounds (which lands are shown herewith on Exhibit "A"):

Beginning at point 1096 feet south NW corner Sec 35 Tl4N R2OW thence south 9506 feet to SW corner Sec 2 T 14N R2OW, thence east 6582 feet, thence north 2652 feet, thence east 1286 feet, thence north 204 feet, thence in a northwesterly direction along right-of-way of the U. S. Highway #10 7598.3 feet to place of beginning; enclosing a total acreage of 1037.3 acres more or less. (Lu 2012 17, page 429, fair duranteen and Livery along)

(b) That the Missoula County has the power and authority under the laws of the State of Montana to perform all of its obligations hereunder.

SECTION II. That the Missoula County agrees to permit the agents of the Government and all contractors or sub-contractors engaged directly or indirectly in carrying out the project, including their agents and employees to enter upon, use and occupy the airport as may be deemed by the Government to be necessary or desirable in the conduct of the project.

## SECTION III. OWNERSHIP OF IMPROVEMENTS

That all improvements made under the project shall be sole and absolute property of Missoula County, except where specifically agreed otherwise prior to the undertaking of the improvement or installation.

#### SECTION IV. MAINTENANCE OF AIRPORT FACILITIES

That the Missoula County agrees to accept full responsibility for the maintenance of the Missoula Airport, to include all work undertaken under this project by the United States of Americal.

### SECTION V. THE OPERATION OF THE AIRPORT

That the Missoula County agrees to accept full responsibility for the operation of the Missoula Airport for the use and benefit of the public on reasonable terms and without unjust discrimination and to grant no exclusive right therein contrary to the provisions of Section 303 of the Civil Aeronautics Act of 1938.

### SECTION VI. PREVENTION OF HAZARDS

That the Missoula County agrees, insofar as is reasonably possible and within its legal ability, to protect the aerial approaches to the airport from the erection of structures or from growth tending to render the use of the airport dangerous to aircraft and that it will not erect on the airport or permit to be erected, any structure or building which will limit the usefulness of the airport or constitute a hazard to aircraft using the airport.

## SECTION VII. COOPERATION

That the Missoula County agrees to cooperate with the Civil Aeronatucs Administration in the orderly prosectution of the project.

## SECTION VIII. RELEASE FROM CLAIMS

That the Missoula County agrees to hold the United States harmless from any and all claims or damages which may arise from the construction activities of the United States but are not a definite part thereof.

## SECTION IX. CERTIFICATION

That the Clerk & Recorder is hereby authorized and directed to send to the Administrator through the Regional Manager of Civil Aeronautics Seattle, Washington, two certified capies of this resolution with two certified copies of an extract of the minutes of the meeting of this Board of County Commissioners showing all proceedings in connection with the adoption of this resolution.

## BIDS ON PUMPING UNIT FOR AIRPORT:

Pursuant to advertised notice for bids for a pumping unit for Missoula County Airport, at 10:30 o'clock a.m. the Board proceeded to open Bids as follows, to-wit:

#1 FAIRBANKS, MORSE & CO., Seattle, Washington.

Fairbanks, Morse & Co. take pleas in offering for your consideration their bid covering a Fig. 6930R water lubricated deep well turbine pump, complete with fittings and accessories in accordance with the specifications.

The unit would be accordance with specification sheet attached and would consist of a 6" 26-stage turbine fitted with case iron bowls, bronze open impellers and stainless steel shaft together with 120' of 5" 0.D. black column with 1-1/8" column shafting of precision steel with stainless steel sleeves and rubber bearings, all fitted for water lubrication. This would place the top bowl of the turbine 120' below the well head. There would be fitted to the suction of 5" suction pipe, 10' long and fitted to the bottom thereof a the turbine a/5" galvanized strainer. At the ground surface there would be a heavy cast iron discharge head to which the column would be affixed and on which the motor would be mounted.

The motor would be a 20 HP Fairbanks-Morse 40° continuous service, 1800 RPM vertical hollow shaft, 3 phase, 60 cycle, 208 welt automatice start motor. The following fittings and accessories would be furnished.

- 1 Well Seal as per specifications attached and Bulletin No. 6900.
- 1 Enclosed across-the-line type automatic motor starter with off-on-automatic push button switch giving overload and low voltage protection
- 1 1000 gal. horizontal galvanized 100 lb. working pressure storage tank in accordance with specifications.
- 1 Air control valve
- 1 Check valve
- 1 Automatic pressure switch
- 1 Air volume control apparatus complete with float
- 14" gauge glass complete with fittings
- 1 Iron body brass trimmed 5" dial, pressure gauge.

All the equipment would be strictly in accordance with the specifications.

Delivery of the entire equipment could be made at Missoula, Montana in 20 days after receipt of order.

If desired, an additional motor as per above specifications can be furnished at an additional price f.o.b. Missoula of..........\$247.00

Fairbanks, Morse & Co. offer a guarantee as per the specifications.

In furnishing you Fairbanks, Morse equipment we are offering a unit entirely built by one concern and covered by an undivided responsibility.

The above price includes the furnishing of a competent erector to supervise the installation in accordance with the specifications. #2

The following letter was received as pump bid from the above:

January 16, 1941

County Commissioners, Missoula, Montana. Gentlemen:

We are sorry that your specifications are so written that even though we do represent a very old line of pumps, we are not able to bid on your requirements.

It seems as though there is only one or possibly two manufacturers that still furnish the pump you are asking for.

We trust that in the fairness of all, you will readvertise for bids and give all the manufacturers and representatives an opportunity to present their bids. We are sure that there are a number of pumps on the market of reputible manufacturers, we have a great number of them in use in Montana, and in fact all other parts of the United States, that there is no reason why other manufacturers should be discriminated against and not allowed to bid on your pump.

We are also enclosing a copy of our factory's advice which is self-explanatory.

Very truly yours,

West L. Powell

Gentlemen:

Yours of January 8th received. These specifications cover a submersible turbine, a type made only by one or two manufacturers, principally Byron-Jackson.

Regret we cannot quote. The specifications are herewith returned.

Yours very truly,

BYRON JACKSON CO, Los Angeles, California

With reference to the attached advertisement for bids to be opened on January 18, 1941, we take pleasure in submitting this proposal covering the Submersible Deepwell Turbine Unit and accessories as outlined in your specifications.

we note that your well is 10" inside diameter, 195 in depth. Since the specifications prescribe that the depth of the pump setting is to be 120 feet below the top of the casing, we are compelled to assume that 120 feet is the maximum distance to which the water will recede when the pump is in operation and delivering the required capacity. We have therefore based our calculations on a capacity of 100 GPM against a total pumping head of 270 feet, of which 150 feet represents the 65 pounds discharge pressure at the surface and 120 feet, the head below the ground surface.

The entire range of performance of the unit which we have selected for these conditions is shown on the enclosed curve sheet PC-1400-L. From this it will be noted that the pump will easily deliver 100 GPM against a total head of 270 feet with a guaranteed over all efficiency of not less than 61%. The curve sheet also indicates that his pump will easily deliver 120 GPM against a total pumping head of from 220 feet to 230 feet when discharging against a pressure of 45 points per square in ch, or 104 feet surface head plus the head of about 120 feet below the ground surface. It will be noted that throughout the entire range of performance the load is ideal

for a 10 HP, 1750 RPM motor, this being the speed of the motor which you have stipulated.

we now call four attention to the print of our sketch 1400-L showing the suggested arrangement of the equipment which we propose to furnish. On this sketch we have indicated our standard well seal assembly which is shown a little more in detail on the enclosed UB-538. It is advisable to have the hydro-pneumatic tank located relatively close to the well and arranged so that the water can be discharged directly into the tank through a horizontal pipe line without any elbows if these can be avoided. Instead of using a rigid pipe made up to exact lengths, requiring a very precise job in alignment, we have found from experience that it is more desirable to use two short pieces of pipe connected together by means of a Dayton coupling. The particular advantage of this type of coupling is that it allows a certain amount of flexibility and prevents any strain being exerted against the pump as might be the case if this were a rigid connection.

We might say that another very important factor which provides for a successful installation is to have the air release valve on the tank so that the high water level will not exceed a height of more that 40% of the diameter of the tank, the other 60° being air. This provides for a more continuous uniform flow and pressure and minimizes the chances of the system becoming "water logged."

With a Deepwell Turbine type of unit, no air injector is required as the pump automatically discharges into the tank all of the air that is contained in the column pipe whenver the pump is started. Surplus air would be exhausted through the connection in the elbow of the well seal assembly through the connection provided for that purpose. As the water level in the well recedes it is replaced by air through the vent pipe shown on drawing UB-538.

Under Paragran (d) in the specifications, a check valve is called for, but it is objectionable in this type of installation to use a check value in the column pipe as it would prevent the water in the column pipe from flowing back into the well when the pump stops. It is important to have an adequate amount of air in the pipe in order to keep the tank properly charged. We are figuring on supplying a check valve, but this sould be installed in the horizontal line adjacent to the hydro-pneumatic tank and preferably with a gate value between the check valve and the tank. We note that you will furnish all the materials such as discharge piping and fitting that may be required, and we wish to reiterate that we are quoting on the 4" quick closing check valve as recommended inthe discharge line, but are not quoting on any of the other fitting between the discharge elbow of the well seal assembly and the tank. We are listing hereunder all of the items which we propose to furnish and which are included in this proposal.

Before listing these party, will say that we are enclosing herewith copy of our condensed general bulletin No. 40-1000 on page 3 of which is illustrated our Submersible pumping unit. We also enclose copy of bulletin No. 385050-B which contains a large sectional view of the complete pump and motor, showing all of the essential parts. The constuction of the surface plate assembly will differ to some extent due to the fact that a well seal assembly is required to this instance.

We propose to furnish the following equipment:

- 1 No. OBM, ll-stage Deepwell Turbine Bowl assembly, equipped with solid bronze enclosed impellers, of the type shown on sheet 5000, plate 1, herewith inclosed, mounted on a heavy stainless steel shaft, which will be guided in bronze bearings in the top and bottom cases.
  - 1 Grid type strainer and adapter.
  - 1 10HP, 1750 RPM, 208 volt, 3 phase, 60 cycle, Byron Jackson Submersible motor.

- 120! 4" standard pipe column complete with screwed couplings.
- l Standard well seal assembly similar to that shown on drawing UB-538, complete with  $4"~90^{\circ}$  flanged elbow.
- l Base length, No. 6 armored water proof Submarine type cable. This base length includes the necessary cable to extend from the motor upward past the pump bowl assembly as well as the cable required at the surface to reach from the collar of the well to the pumping plant panel, assuming that the latter will be located at a distance not to exceed 20 feet from the well.
- 120' No. 6 armored waterproof submarine cable complete with necessary clamps for attaching it to the column pipe, the clamps to be located about 10 feet apart.
  - 1 10 HP, 208 volt indoor type pumping plant panel.
  - 1 Pressure switch with "manual-automatic-off" control.
  - 1 Rod operated float wwitch with 5 feet of rod, with automatic control.
- 1 Piece 10" 0.D. casing, approximately 6 feet long to serve as a guide for the float.
  Uasing to be drilled with holes at the lower end and fitted with a flange suitable for floor mounting.
  - 1 4", 125 pownd flanged check valve with spring and lever for quick closing.
- 1-1000 gallon galvanized hydropneumatic tank with 4" flanged water inlet, 6" flanged water outlet and with necessary miscellaneous taps. Tank to be equipped with a 14" water glass, a 5", 100 point pressure gauge and a 1/2" air release valve.

Shipment of the above can be made within 3 weeks after receipt of order.

We also take pleasure in quoting you on the complete spare motor as called for in the last paragraph of your specifications, and offer you in addition to the above:

1 - 10 HP, 1750 RPM, 208 volt, 3 phase, 60 cycle, Byron Jackson Submersible motor to be an exact duplication of that specified above.

And this motor could also be shipped within three weeks from receipt of order.

If we arefavored with your order, we will suply you with a wiring diagram showing the best method of connecting the various switches and accessories, which are included in our proposal. We might say, incidentally, that the pumping plant panel which we are offering is complete with a fused entrance switch, magnetic starter and necessary relays and provision is made for connecting up to the pressure switch and float switch.

Your specifications call for a 1" drain connection in the bottom of the storage tank, but it appears to us that this is somewhat small. Our suggestion would be to provide a drain cap of a least 2". You will note that the tank that we plan to furnish will be provided with a manhole. This is not mentioned in your specifications, but we think it would be a mistake to install a tank of the required size without having a manhole in same.

In conclusion we wish to state that in addition to all the above mentioned enclosures, we are returning to you herewith the original set of specifications whereon we have filled in the dimensions as required.

Trusting that this proposal is perfectly clear in every detail, and hoping to have the pleasure of supplying you with this equipment, we remain

Very truly yours,

BYRON JACKSON CO.

WESTMONT TRACTOR & EQUIPMENT CO., Missoula, Montana

In response to your Call for Bids on one Submergible Pump, bids to be opened at 10:30 o'clock A. M., January 18, 1941, we wish to place our quotation as follows:

1- AMERICAN-MARSH Model GH 5- k 150B Submersible

Deepwell Centrifugal, Pump, per detail attached, f. o. b. Missoula, Montana----\$1,493.10

In your call for bids, you specify a motor with a speed not greater than 1,750 r.p.m. We wish to take exception to this particular item, as the motor on which we are biddeng operates at 3500 r.p.m. The factory tells us that this speed is very conservative, due to the short length of shaft between the pump and motor assemblies--in fact, their submersible units, operating at 3500 r.p.m. will have considerably longer life, as far as bearing trouble is conserned, then the conventional, turbine-type pump requiring long line shaft and bearings, even though operating at only 1750 r.p.m.

The specifications call for delivery time on a replacement motor. The factory informs us that they can make shipment within a day or two after receipt of order, as they will carry them in stock at the factory, as soon as the motor people resume shipments.

We are enclosing Bulletin No. 265, illustrating and describing the AMERICAN_MARSH Pumps, curve sheet showing performance of the unit on which we are bidding, together with drawing showing the special well seal we propose furnishing. The following is additional data called for:

Pipe Diameter:  $2\frac{1}{2}$ "

Material: Either black iron or galvanized

Cable: Three conductor, rubber-covered, submersible, size #6

Distance between cable supports: 10

Approximate dimensions of pump and motor assembly: 7 7/16"

O. D. x 64 3/8" overall, distance from bottom of motor to topy of suction strainer, 36½"

We regret the factory, at the present time, is able to promise no better delivery than approximately 15 weeks, due/the fact that their motor supplier has had labor difficulties, and settlement of/strike was only recently made. This has put them several months behind in their production.

We wish to thank you for this opportunity to quote, and hope that we/have an opportunity to take care of your requirements.

Yours very truly, WESTMONT TRACTOR & EQUIPMENT CO. W. J. Gallaher, Present

It is recommended that the bid of Byron Jackson Company on a Byron-Jackson pump be accepted since it is the only one which conforms with the specifications in regard to speed; it is the only one giving a reasonable shipping date; and the unit has a higher efficiency than the other units proposed.

It has been estimated that a difference in efficiency of 5% would correspond to a difference in power bill of \$60 per year which, capitalized at the present at the present time at 5% would amount to \$1200.

It will be necessary that the pump be received within 7 weeks in order not to interfere with the construction schedule.

I recommend the acceptance of the bid of the Byron Jackson Co. of Los Angeles, California.

/s/ Fred E. Thieme.

Upon this recommendation the Board accepts the bid on the Pumping Unit of the Byron Jackson Company of Los Angeles, and the Clerk is instructed to notify the Company of the same.

RESOLUTION IN REGARD TO BANDMAN BRIDGE: - 9-49

## $\underline{R} \ \underline{E} \ \underline{S} \ \underline{O} \ \underline{L} \ \underline{U} \ \underline{T} \ \underline{I} \ \underline{O} \ \underline{N}$

Chairman Felton announced that many requests had been received by the Board for the repair of Bandman Bridge at East Missoula. After the matter was thoroughly discussed, Commissioner Flynn introduced the following resolution:

WHEREAS the Bandman Bridge located over the Missoula River at East Missoula has been in use for many years and has served the residents of that community for a considerable period of time;

AND WHEREAS the elements and use of said bridge have made it become deteriorated to such an extent that this Board, nearly a year ago, declared it unsafe for travel and further use;

AND WHEREAS from investigation it appears that it would be incumbent upon Missoula County to continue having a bridge span the river at that point because of the public needs and requirements therefor;

NOW, THEREFORE, BE IT RESOLVED by this Board in regular meeting that the said Bandman Bridge be repaired and made safe for public use and travel;

AND BE IT FURTHER RESOLVED that the County Engineer and Surveyor be, and is hereby requested, to prepare plans and specifications for the proper repair thereof;

AND BE IT FURTHER RESOLVED that the Clerk of this Board publish notice of call for bids in accordance with the law, and that said plans and specifications and notice shall include that the contract for the repair thereof shall be completed on or before May 1, 1941.

Upon call for vote the Commissioners voted as follows:

| L. M. Felton                  |   | Yes |
|-------------------------------|---|-----|
| Chairman                      | * |     |
| J. D. Finefrock, Commissioner |   | No  |
| John J. Flynn Commissioner    |   | Yes |

Whereupon the Chairman declared the resolution passed.

RESOLUTION

(Election Budget, Clerk & Recorder)

Gounty Clerk and Ex-Officio Recorder.

(3-10-17-24) month ending January 31st, 1941.

RESOLUTION IN REGARD TO ELECTION BUDGET: 9-49

WHEREAS There were more registered people entitled to vote at the 1940 elections and more people voted at the 1940 general election in Missoula County than in any year prior thereto;

WHEREAS There was held in Missoula County pursuant to law during the 1940-1941 fiscal year, a Missoula County High School building bond election; and

WHEREAS As a consequence of such a large number of persons voting at the general election and as a result of the High School Bond election, which at the time of the making a 1940-1941 budget was unknown, there was an unusual demand and requirement for funds to defray the expenses of such elections, particularly in that additional help was required in the Office of the Clerk and Recorder of Missoula County and considerable cost accrued for printing and postage, judges and clerks, booth installation and registration expenses; and

WHEREAS As a result of this increased demand and requirement for funds, the budget for such expenses has become depleted; and

WHEREAS The expenditures above noted are of a mandatory nature, and there now heing insufficient funds budgeted to take care of such expenses for the balance of this fiscal year; and

WHEREAS The sum of One Thousand Eight Hundred Dollars (\$1,800.00) will be required to defray such expenditures,

BOARD OF COUNTY COMMISSIONERS OF MISSOULA COUNTY, MONTANA.

## ORDER

Pursuant to Notice duly given, as required by law, a public hearing was had this day in the Chambers of this Board in Missoula County Court House, Missoula, Montana, on the proposed issue of emergency poor fund warrants, and it appearing to this Board that a public emergency exists in the County of Missoula, Montana, by reason of the fact that the direct relief fund of said County of Missoula. Montana, is now completely exhausted and has been depleted since January 1, 1941;

And it further appearing that there are outstanding claims against Missoula County for direct relief in amount of more than Four Thousand Dollars (\$4,000.00),

And it further appearing that the burden of caring for the unemployables and indigent poor of Missoula County has increased during the present fiscal year to such an extent that the poor fund has become depleted in the direct relief division, and that it is unwise to transfer further funds from the other divisions of the poor fund to the direct relief, and that such condition is a public emergency, a public emergency is declared to relieve this situation.

NOW, THEREFORE, IT IS HEREBY ORDERED BY THE BOARD OF COUNTY COMMISSIONERS OF MISSOULA COUNTY, MONTANA: That this Order shall be authorized for the issuance of emergency poor fund warrants in amount not to exceed Sixteen Thousand Tive Hundred Dollars (\$16,500.00) to cover the cost of caring for the indigent poor of Missoula County, Montana, for the remainder of the fiscal year.

DATED This 17th day of February, 1941.

BOARD OF COUNTY COMMISSIONERS, Missoula County, Montana.

SALE OF LOT:

#110 The Board sold Lot 17 in Block 33, East Missoula, to Mr. and Mrs. Ed O. Priddy, 400 Rollins Street, Missoula for \$20.00. Treasurer's receipt #290 and the Clerk is instructed to issue a Quit Claim Deed for the same.

### BOARD EXCHANGES LOTS WITH MR. TOM:

The Board orders that Lots 23 and 24 in Block 84 of South Missoula be exchanged for Lots 13 and 14 in Block 84 of said Addition with Howard G. Tom, a single man, of 1850 South 5th Street, West, Missoula. Mr. Tom bought Lot 13 for \$25.00 and Lot 14 for \$20.00, a total of \$45.00, on December 5th, 1940, from the County, recorded in Volume 128 of Deeds, page 244. The cost of Lot 23 is \$20.00 and Lot 24 in \$25.00 so that there is an even exchange in amount of money concerned. The Board instructs the Clerk to issue a Quit Claim Deed to Howard G. Tom, 1850 South 5th Street, West, for Lots 23 and 24 in Block 84 of South Missoula and to record the deed to Missoula County from Howard G. Tom, a single man, for Lots 13 and 14 in Block 84 of South Missoula. The Clerk is also instructed to return Lots 13 and 14 in Block 84 of South Missoula to the tax title lot book. Said Lot 13 is for sale at \$25.00 and Lot 14 is for sale at \$20.00. Also the Clerk is instructed to notify the assessor that Lots 23 and 24 should be assessed to Mr. Tom in 1941 instead of Lots 13 and 14. The Clerk is also instructed to notify the treasurer and the assessor of the above action.

The Board attended to General Business. At 5:00 o'clock p. m. the Board continued the Special Session until March 24th, 1941, at 10:00 o'clock a.m.

County Attorney.

The minutes of the previous meeting were read and approved.

# WELFARE MATTERS:

The Chairman of the Welfare Board examined, approved and ordered filed the list of cases disposed of by the County Welfare Board.

# RESOLUTION IN REGARD TO EMERGENCY SHERIFF'S BUDGET:

Sheriff J. F. Shoblom appeared before the Board and reported that his budget for the fiscal year of 1940-41 for special deputies was exhausted and that there were claims of three special deputies, i. e., George Bukovatz, Joe Hallanger and Henry Roseth, who were employed by him to guard George R. Smith in St. Patrick's Hospital from March 11 to April 11, 1941, inclusive. He requested the sum of Four Hundred and Fifty-five Dollars (\$455.00) for this emergency.

The matter was discussed thoroughly and upon motion by Commissioner Finefrock and seconded by Commissioner Flynn and unanimously earried, the following resolution was adopted:

WHEREAS, Sheriff J. F. Shoblom of Missoula County has requested the sum of Four Hundred and Fifby-five Dollars (\$455.00) with which to pay special deputies employed in the case of the State of Montana versus George R. Smith, accused of murder in the first degree; and

WHEREAS said George R. Smith has been declared by a jury to be insane; and WHEREAS this Board is advised by the County Attorney that said employment of special deputies in this case was necessary and that their wages are a proper charge against Missoula County; and

WHEREAS it appears that the budget for the Office of the Sheriff for the fiscal year 1940-41 for this purpose is exhausted and no funds remain for the purpose of paying the claims of the deputies employed,

NOW, THEREFORE, this Board does declare that an emergency exists and that an emergency budget in the amount of Four Hundred and Fifty-five Dollars (\$455.00) be and is hereby created for the Office of the Sheriff of Missoula County.
