OPINION

The following opinion was received from the County Attorney's office this date:

December 30, 1954

Mr. Thomas Duncan
 Chairman, Board of Commissioners
 Missoula County
 Missoula, Montana

Dear Mr. Duncan:

The question was asked from this office as to whether or not a payment of a portion of delinquent taxes could be accepted in order to effect a redemption and avoid the issuance of a tax deed with particular reference to the 1951 tax sale to Missoula County for delinquent taxes on fractional lots 18 to 22, Block 1, C.P. Higgins Addition.

The answer to the question is found in Section 84-4154 which provides: "In all cases where real estate has been sold for delinquent taxes the purchaser at such tax sale, or his assignee, may, subsequent thereto, pay the subsequent taxes assessed against said land, and upon the redemption of said land from such tax sale, the redemptioner shall, in addition to the amount for which the said land was sold, with interest thereon, pay the subsequent taxes paid by the purchaser at such tax sale, or his assignee, with interest thereon at the rate of eight per cent per annum from the date of the payment of such taxes, and in all notices of application for tax deed the applicant shall state, in addition to the amount paid at the tax sale, the amount of subsequent taxes paid by the applicant or his assignee upon such land, with interest thereon at the rate of eight per cent per annum from the date of such payment, and no redemption shall be made until the amount of such sale with interest, and such subsequent taxes and interest shall have been paid by the person seeking to redeem such lands."

This means that a redemption cannot be made of the property by paying only the 1950 delinquent taxes, but that the entire amount due must be paid in order to redeem the property for the amount of \$6,699.59, which is the total amount of taxes, penalty and interest on the 1950 taxes and of subsequent taxes.

Very truly yours,

S/ Donald R. Wolf, Deputy
 County Attorney

Mr. Joe D. Brown
County Clerk & Recorder

Dear Sir:

We acknowledge receipt of your notice of sealed bids to be received in your office until 10:30 A.M., February 7th for a washing machine, 50# extractor, and 50# gas-heated tumbler.

We do not manufacture an extractor or a tumbler of the capacity specified; however, we are pleased to offer a proposal on our 25# motor-driven, manually-operated, individual Production Washer, Model IPW-2719-M for either 220 or 440 volt, 3 phase, 60 cycle AC, or 220 volt, single phase, 60 cycle AC at \$711.00.

We are also pleased to offer an alternate proposal on our Model DUO-2719 Duo-Matic 25# dry-weight capacity washer at \$890.00.

These prices are FOB destination Missoula County, Shipment can be made at once from stock, upon receipt of order. Terms are net cash within 30 days after date of invoice.

Both models have the same dry-weight capacity and the same cylinder size, and the cylinder of both machines is constructed of stainless steel.

In the manually-operated washer the various operations are controlled manually, whereas the Duo-matic machine is equipped with a Prosperity-patented Formatrol which is equipped with a record which controls the entire washing sequence. Records are interchangeable readily on the drum when variations in washing formulas are desired. The Duo-matic machine is furnished for 11/220 volt, single phase, 60 cycle.

Catalogue sheets illustrating, describing, and giving complete detailed specifications of each model, are enclosed.

Prosperity washers of the type offered are in general use throughout the world in commercial laundry plants, State and Federal institutions, and various other special applications. In addition, they are being used by all branches of the U S Armed Services, which attests to their durability.

We sincerely appreciate the opportunity of quoting and trust that our proposal may receive your favorable consideration.

February 1, 1955

Board of County Commissioners

If washer with Rinsomatic Control desired in place of manual type washer, add 272.00

If Lint Box desired in connection with Air-craft Tumbler, add 40.00

If Super Dry Alarm Dryness Indicator desired in connection with Aircraft Tumbler, add . 35.00

- 1 - 20" Model M-100-L Bock Extractor, motor drive, capacity 25 pounds per load dry weight . . 578.00

The above prices are F.O.B. Jobsite, Missoula, Montana, based on a 220 volt 60 cycle single phase A.C. electrical service.

This is a firm price quotation subject to acceptance within 60 days.

Terms: Net cash 30 days after date of invoice.

Shipment: 30 days after receipt of order.

We are attaching the following group of catalog sections, specification sheets and white prints which fully describe the equipment listed above:

AB 331-312	AE 322-912	W.P. -567
AC 214-032	COM 110-012 Item 6	W.P. -476
AE 423-202	W.P. -544	W.P. -431-D
AE 322-952		W.P. 1100

Item 1 The 30x15" American end loading washer covered by our formal bid is a manual type washer equipped with a two inch diameter manually operated plunger type outlet valve but without water inlet valves. As an alternate for this machine we have quoted two 3/4" quick acting water inlet valves. We have also quoted as an alternate this machine equipped with a Rinsomatic control, as outlined on page four of our catalog section AB 331-312. Our washer with Rinsomatic control operates on a predetermined washing cycle. All that is required is to add supplies as required.

Item 2 We have quoted our 50 pound capacity American Solid Curb E tractor which meets specifications in every respect. It is our opinion that the 20" Model M-100-L Bock extractor quoted as an alternate would be satisfactory for your requirements. The wash cycle for a 30x15" washer is approximately 20 minutes whereas the extracting cycle for a Bock extractor is approximately 8 minutes. Under the circumstances the 20" Model M-100-L Bock extractor would be large enough to handle the maximum capacity of two 25 pound washers. We recommend this machine to meet your requirements.

Item 3 We have quoted our 36x30" American Aircraft Tumbler for use with bottled gas. This machine is equipped with a basoid safety valve. As alternates we have quoted our Lint Box which is covered by our specification sheet AE 322-912, per copy attached, and also a Super Dry Alarm Dryness Indicator covered by our specification sheet AE 322-952, per copy attached. When the Super Dry Alarm

Dryness Indicator is furnished it is inter-connected with the basoid safety valve so that the gas is shut off at a predetermined temperature.

We appreciate very much having the opportunity of submitting this quotation and hope to hear from you further.

Yours truly,
THE AMERICAN LAUNDRY MACHINERY CO.

RE. CITY SHARE OF EXPENSE FOR COUNTY JAIL ACCOUNTY CITY PRISONERS

Motion made by Commissioner Prescott, "It is apparent upon receipt of a letter dated February 24th, 1955, that Mayor Hart and City Manager, Walton Taylor, may have misinterpreted the action of this board on February 16th, 1955, relating to the care of city prisoners in the Missoula County jail. The action of this board requires payment by the city of \$150.00 per month for the housing of city prisoners which does not include board of said prisoners. Prior to this time, the city of Missoula has never contributed to the cost of maintenance or operation of the county jail. The matter of the cost of boarding any prisoners is subject to the discretion of the sheriff of Missoula County. The \$150.00 item is to take care of the proportionate share of the city for matron service, jailer, light, heat, blankets, soap and general wear and tear. The matter of board of prisoners must be taken up or settled with the sheriff of Missoula County. Prior to this time, the only charge made has been for board, paid to the sheriff. No payments have been made to the county of Missoula. Expanded costs have made this action necessary and I move that this item of clarification be spread upon the minutes and the city officials be given notice thereof". Motion seconded by Chairman Duncan and carried.

OPINION

RE. DUTIES CO. SURVEYOR

The following opinion dated February 15th was received and the clerk was instructed to file:

February 15, 1955

Board of County Commissioners
Missoula County
Missoula, Montana

Gentlemen:

You have made an oral request of this office for an opinion as to the authority of the Board over the county surveyor in regards to the construction, management, and operation of the highways within Missoula County.

There are several sections in the law pertaining to the control over the roads and highways of the county and it is necessary to examine all of them to reach a conclusion as to what section controls.

Chapter 33 of Title 16, Revised Codes of Montana, and Section 16-3302 and Section 16-3311 deal with the duties of the county surveyor and apply generally to all counties. These sections would place the county surveyor under the direction of the County Board of Commissioners and, taken alone, would indicate that the general road policy and direction of the work would be under the control of the Board.

However, Section 32-303 specifically refers to counties the size of Missoula County and in my opinion is controlling. That section provides as follows:

"32-303. (1622.1) County surveyor's duties in counties having total registered vote of fifteen thousand or over at last general election - salary. The county surveyor of all counties having a total registered vote of fifteen thousand (15,000) or over, at the last general election shall have exclusive control, supervision and direction of all highways, bridges and causeways within his county, and in the exercise of such control, supervision and direction he shall keep all highways and bridges free and clear of all obstructions; cause highways to be graded, when needed, and maintain and repair the same; cause all bridges and causeways to be made, when needed, and keep the same maintained and in good repair and renew the same when destroyed; make all surveys; establish grades; prepare plans, specifications and estimates; keep accurate cost data; approve all claims against the county for all highway, bridge and causeway construction, maintenance and repair prior to presentation to the board of county commissioners; employ deputies, men and teams, and discharge at his pleasure such deputies, men and teams, and determine how, when and where such deputies, men and teams shall work; purchase and secure all highway and bridge machinery and machinery equipment and tools to be used upon highways and bridges with the approval of the board of county commissioners; purchase and secure all highway, bridge and causeway supplies and materials with the approval of the board of county commissioners; from time to time make reports and estimates of all matters relating to highways and bridges when required by the board of county commissioners; perform such other duties as are now or which may be hereafter required by law, and shall receive an annual salary for performing the duties of said office in the amount of three thousand six hundred dollars (\$3,600.00) per annum to be paid out of the contingent fund of the county in which he holds office."

This section would seem to limit the authority of the Board of Commissioners over the county surveyor to approval of purchases of machinery, machinery equipment, tools and supplies, and also, of course, the Commissioners' usual duty to approve the annual budget outlined by the surveyor. This power of the Commissioners over the monetary expenditures of the surveyor might indirectly give them some control over the county highway policy. However, the above-quoted section would seem to give full authority to the surveyor as to road policy and as to which roads should be maintained, when, and how.

Very truly yours,

S/ Donald R. Wolf
Deputy County Attorney

COUNTY ATTORNEY OPINION

The board received the following opinion:

April 28, 1955

Board of County Commissioners
Missoula County

Dear Sirs:

You have orally requested an opinion of this office relative to the character, identity, and use of the property owned by the County of Missoula situated south of the city and formerly used as an airport and known as Hale Field.

You have also indicated to this office that by a resolution spread upon your minutes some time ago, Hale Field was officially abandoned as an airport.

Section 1-811 of the Revised Codes for Montana, 1947, provides in part as follows:

"Sale, lease, or other disposal may be effected in such manner and upon such terms as the governing body of the municipality may deem in the best interest of the municipality."

It is the opinion of this office that by reason of the official action taken by your Board in abandoning Hale Field as an airport the said Hale Field has lost its identity as an airport and any transactions regarding it are not governed by the provisions of Section 1-817, R. C. M. 1947, requiring that all funds derived from the sale or use of an airport shall be placed in what is therein designated as an airport fund.

Trusting that this answers your question, I beg to remain

Very truly yours,

s/ Jay M. Kurtz
County Attorney

Since there are several problems to be considered concerning the maintenance of the road, we would like to have you come to our next board meeting, which will be held May 9, 1955 at 8pm at the Clinton Schoolhouse, to discuss this matter."

The above excerpt from a letter dated April 28th from the Board of Trustees, Marjorie Stitt, Clerk. CO. ATTORNEY OPINION

The following opinion was received this date:

"Referring to your letter of May 25, 1955, in which you request my opinion relating to the use of "county road fund monies" for building and maintaining city streets, and also requesting a definition of an arterial street, I beg to advise as follows:

There is no statutory provision in Montana for the use of "county road fund monies" on city streets. There is, however, a Montana statutory provision relating to the use of certain auto license fees for this purpose. Section 53-122, subsection (c) R.C.M. 1947, provides as follows:

"The net license fees derived from the registration of motor vehicles shall be by the registrar of motor vehicles transmitted to, and paid over to the county treasurer of the county from which the registration fee came, such fees, excepting apportionment to the city road fund, to be used by said county for the construction, repair and maintenance of all public highways, except state and federal highways, within the boundaries of said county, including city streets forming component parts of arterial highways within the corporate cities of less population than thirty-five thousand (35,000), according to the federal census of 1930, within the boundaries of said county."

This section expressly states that such license fee money, so paid to the county treasurer, shall not be used on state or federal highways within the boundaries of the county. The statute, as you will note, provided that said license fees are to be used by the County for construction, repair and maintenance of all public highways, including city streets forming component parts of arterial highways within corporate cities of less than 35,000 population according to the 1930 census, and within the boundaries of said county.

The statute above referred to makes no provision whatever as to any amount or percentage of the said license fees which shall be used by the County for such purpose nor does it provide for the determination thereof by any county official nor does it define the streets to be included with sufficient definiteness to be binding or obligatory.

The available decisions define arterial highways as being in the nature of a network of state or federal highways for general use by the travelling public and being other than the streets, roads or highways particularly adapted to local use or on a purely local basis. As I have noted, the statute expressly excepts this type of highway from the aid permitted in Montana. This, then, leaves us with the question as to what may be ~~considered~~ an arterial highway within the city other than the state or federal highways. Obviously all city streets can not be termed arterial highways, for to do so would permit depletion of this fund to the detriment of other public highways as they are referred to in the statute.

Your responsibility for repair and maintenance extends to all public highways and can not be limited to city streets. There is nothing in the statute requiring the Board definitely to spend any stated amount on any city street. The matter is clearly within the discretion of the Board. It is further my opinion that the section referred to is so ambiguous and indefinite as to be unworkable as a practical matter unless there is some arrangement or agreement with the county commissioners.

For this reason, I beg to advise that by reason of the ambiguity and indefiniteness of the section of the codes hereinbefore referred to you, as the Board of County Commissioners, are under no definite specified duty to apply any of the license funds to any particular street. The matter is entirely discretionary as far as the Board is concerned, proper regard, of course, being maintained as to other public highways within the County separate and distinct from streets within the corporate limits.

Should any further question arise relating to the foregoing section and this opinion, please be advised that this office will be more than happy to further investigate the possibilities herein.

Very truly yours,
S/ Jay M. Kurtz
County Attorney

CO. ATTY. OPINION

The following opinion dated June 27th was received this date:

June 27, 1955

Board of County Commissioners
Missoula County
Missoula, Montana

Re: Authority of County Commissioners to Employ an Auctioneer
to sell property owned by the county

Gentlemen:

I have been asked to give an opinion as to whether the County Commissioners could employ an auctioneer to sell certain real property at public sale rather than to have to conduct the sale personally.

Section 16-1009, Revised Codes of Montana 1947, sets forth in detail the authority and procedure for the sale of all property belonging to the County. There is in that section no specific provision as to who shall conduct the sale, whether it be one or all of the Commissioners, the Sheriff, or an individual employed for that specific purpose.

In view of the fact that no specific provision is made in that regard, it would seem that under the decision of the Supreme Court of Montana, in the case of State ex rel. Barnhart vs. Cranston, et al., 113 M 61, at page 67, that the Commissioners would have the implied power to employ an auctioneer. The language of the case above referred to on this point is as follows:

"In selling the lands, the county acts in its proprietary, as distinguished from its governmental functions. The board has such implied powers as are usually exercised by the private seller of property. The rule is universal that a private owner may waive the forfeiture provisions in a contract after a forfeiture has been declared, so long as no rights of third persons have intervened. (66 C. J. 787; 17 C.J.S., Contracts, sec. 409, p. 897; 66 C.J. 767; and see Federal Surety Co. v. Basin Construction Co., 91 Mont. 114, 6 Pac. (2d) 775.)"

The above cited case, while dealing with the right of the County, as the owner of property, to waive a forfeiture provision in a contract, would also seem to equally apply in the case of the County employing an agent to conduct a sale, the rule being no less universal that a private owner may employ an auctioneer to sell his property.

It is therefore my opinion that the County has authority to employ an auctioneer for that purpose; however, the desirability of employing such a person and paying a fairly large commission on the sale may not meet with the approval of some of the taxpayers since a sale of that kind could be handled by an official of the County at less expense, it being, then, merely a matter of the discretion of the County Commissioners as to whether or not they choose to employ such an official.

Very truly yours,

S/ Donald R. Wolf
Deputy County Attorney

CO. ATTORNEY OPINION

The following opinion was received this date:

July 5, 1955

Board of County Commissioners
Missoula County
Missoula, Montana

Attention: Mr. Tom Duncan, Chairman

Dear Mr. Duncan:

You have asked whether or not the Health Officer is entitled to a raise in salary under the state merit system. Please be advised as follows:

Health District No. 3 has been dissolved by your action. Under the circumstances, it is the opinion of this office that the employment of the Health Officer is strictly on the basis of the agreement arrived at by the various units of Health District No. 3. The question of an increase in salary under the merit system is no longer tenable. The Health District has been dissolved and the question of a raise in salary is no longer within the discretion of any member of Health District No. 3 or the Board of County Commissioners of Missoula County.

Very truly yours,

S/ Jay M. Kurtz
County Attorney

The clerk was requested to file this opinion.

MEETING RE. DISPOSITION FT. MSLA.

In the afternoon the commissioners met with members of the Chamber of Commerce and representatives of the U. S. Army and discussed Fort Missoula. The board tendered the following letter:

July 29, 1955

Mr. Max K. Tyson, Chief
Real Estate Division
Corps of Engineers
Walla Walla, Washington

Dear Mr. Tyson:

Consideration has been given to the proposal that Missoula County surrender its agreement with the Federal Government concerning Fort Missoula surplus lands in order that the Army may expand National Guard and Organized Reserve Training for this area. It will be appreciated that the Board of County Commissioners is wholeheartedly in support of a program of

National Defense designed to protect our Country against all eventualities. We also realize that as representatives of the Citizens of Missoula County we have definite responsibilities with regard to the management of the affairs of the County which require us to look ahead and plan as best we may for future developments in said affairs.

With the final acquisition of the area in mind, tentative plans have been formulated to use a major portion of the area for the development of a modern fair grounds plant with adequate parking, a baseball park to be used for professional or semi-pro league play, a new County hospital and home for the aged, a youth guidance home, new and expanded repair and storage facilities for servicing County road and other equipment, as well as some acreage for use by the County High School Agricultural training classes. Surplus acreage, if any, not needed for these purposes would be disposed of in small tracts as home sites. Loss of the area by the County would entail relinquishment of these desirable features and forego development for an indefinite time.

Having in mind the needs of the Army as presented by the representatives of the Army and the Corps of Engineers on July 27, 1955, and being in full sympathetic accord therewith, and mindful as well of the needs of the Citizens of Missoula County, we submit the following proposal as being a fair and constructive solution of our mutual problem.

The Board of County Commissioners of Missoula County will agree to hold in abeyance its agreement with the General Services Administration as of August 8, 1955, provided:

- A. In consideration of such an agreement to held in abeyance the agreement with the General Services Administration, and as a return to the County for its equity in the property, the following described lands will be transferred to Missoula County.
 - (a) Section 31, T13N, R19W, E1/2 and that part of the SW1/4 south of the main channel of the Bitter Root River.
 - (b) Section 36, T13N, R20W, MPM, N1/2NW1/4 and that part of the N1/2SE1/4 south of the main channel of the Bitter Root River.
- B. It is understood that those persons now holding sub-leases from the County will be given sufficient time to vacate the premises so that undue hardship will not be placed upon them. In any case, the Army will assume responsibility for any liability imposed upon Missoula County by reason of such evictions.
- C. After a thorough consideration of the problem, the members of the Board believe that it is fair and reasonable to provide for the eventuality that the present plans of the Army for increased use of Fort Missoula may not materialize in the magnitude now envisioned. In the past the Citizens of Missoula County have on several occasions been persuaded that Fort Missoula was destined for considerable expansion in the then near future. Since none of these expansions have never materialized, it is believed that we are not to be censured for entertaining some degree of skepticism in the present case. It should therefore be provided, in case the present planned expansion is not in full progressive evidence by August 8, 1957, that the present lease-agreement with the option to purchase, will be restored to Missoula County in full force and effect for an additional period of five years from August 8, 1957, and with an option to renew the lease-contract for purchase agreement for an additional five years to August 8, 1967.

It is requested that in case this proposal is not accepted by the Army, and further discussion is necessary, that the representatives of the Federal Government at such a discussion be empowered to give a "yes" or "no" decision, as the case may be, so that the matter may be settled without undue delay.

Very truly yours,
MISSOULA COUNTY COMMISSIONERS

The following contract was approved this date and the Clerk was requested to record same:

CONTRACT FOR CARE OF COUNTY POOR, SICK & INFIRM

THIS AGREEMENT, made this 26th day of August, 1955, between The BOARD OF COUNTY COMMISSIONERS of Missoula County, Montana, first party, and Marie McNeilly, R.N. of Missoula, Montana, second party,

WITNESSETH:

WHEREAS the first party has heretofore advertised for bids for the care, support and maintenance of the indigent poor, sick and infirm of Missoula County, and the second party having submitted the low bid for such contract for a period of three years, beginning September 1, 1955 and the first party having accepted said bid and awarded said contract to the second party;

NOW, THEREFORE, in consideration of the faithful performance of said contract by the second party as hereinafter specified, the first party agrees to pay to the second party for the care, support and maintenance of the county poor and indigent sick and infirm committed to her care by the county physician during the above mentioned period.

The first party shall pay for such indigent sick and infirm patients committed to the Pineview Hospital by the county physician the sum of six and 50/100 Dollars (\$6.50) per patient per day. It is understood and agreed that the second party shall furnish all medicines, drugs, supplies and antiseptic solutions and oxygen and demurrage on tanks in the care and treatment of such patients at her own cost, including penicillin and its derivatives, streptomycin and other anti-biotics, as prescribed by the county physician. The second party will provide the administration of all medicines under direction of the county physician.

It is understood that the Pineview Hospital is not equipped to handle special cases and surgical or laboratory work. The county physician shall be responsible for the commitment of all patients. In consideration of the execution of this contract and the payments to be made by the first party as aforesaid, the second party covenants and agrees that she will admit all indigent, poor patients to the Pineview Hospital ordered to be admitted by the county physician during the term of this contract and any extension thereof, and will furnish hospital services for such patients, employing such qualified personnel and using such recommended techniques that will enable the hospital to be licensed by the Montana State Board of Health, providing at least one registered nurse on call at all times during the day or night, and operating said hospital so as to meet the standards of the Montana State Board of Health. It is understood, however, that private room care cannot be provided at Pineview Hospital.

In further consideration of the execution of this agreement and the faithful performance thereof, the first party hereby leases, rents, and demises the Pineview Hospital hereinafter described: Pineview Hospital, including the hospital building, nurses' home, storage sheds and surrounding lawns, including the personal property described in the annexed schedule "A" to the party of the second part for the aforescribed period of this agreement, for a rental of one Dollar (\$1.00) per year.

The second party covenants and agrees that she will use said hospital building and property for the above described purposes and for no other purposes whatever other than providing hospital care to indigent sick persons of Missoula County and will keep said premises and equipment and supplies in good condition, replacing damaged or destroyed articles and maintaining the stock of supplies and equipment in its present state of utility. The second party further agrees to provide all labor and technical and skilled assistance necessary in operating said hospital, paying all wages, claims, and taxes due to or arising out of any employment in connection with the operation of said hospital. The first party agrees that it will furnish water and maintain the water system to said hospital, and will provide maintenance and upkeep of the buildings, grounds and county equipment. The second party shall pay all operating costs including fuel, power, and labor for operation. First party shall be responsible for the maintenance of existing improvements.

The second party agrees to furnish a good and sufficient surety bond in the sum of One Thousand (\$1000.00) Dollars by a surety company qualified and licensed to do business in the State of Montana, such bond to be conditioned for the faithful performance of this contract and to account for all equipment, supplies, medicine and material leased to the second party or placed in the second party's charge.

This contract shall not be assigned nor shall said premises be sublet by the second party without consent of the first party in writing.

The second party shall be an independent operator and contractor and the first party shall not be held liable for any act of negligence of the second party in the operation of said hospital or in the care of patients admitted thereto.

It is mutually agreed by the party of the first part and the party of the second part that this contract will be open for discussion at the end of one year.

It is also agreed and understood that the party of the second part is permitted to deduct from monies received by patients, an amount of four Dollars (\$4.00) per person if the person received seventy-five Dollars (\$75.00) or more per month. The party of the second part shall have the right to spend this money at her discretion for the best advantage of the patient.

IN WITNESS WHEREOF, the parties hereto have hereunto set their hands the day and year in this instrument first above written.

REPORTS

The report of fees collected of the Clerk and Recorder for the month of September and for the quarter were approved by the board.

OPINION

The commissioners received the following opinion this date:

"Under date of September 16, 1955, you asked this office for an opinion relative to the abandoning and establishing of public highways, and further, whether or not by resolution the streets so abandoned can be automatically re-established after the purpose of the abandonment has been fulfilled.

In this connection, I respectfully refer you to the section of the Revised Codes of Montana, 1947, under Title 32, Highways, Bridges and Ferries, and in particular Section 32-401 et sec. providing for the establishment, altering or abandonment of public highways.

The matter of vacating or establishing public highways is expressly provided for in the statute and either may be done only when a proper petition is filed with your Board or when the board proceeds to establish or abandon a highway upon its own initiative. The statute provides for petitions by freeholders, a description of the highway to be established or abandoned, and investigation into the feasibility and costs of the same, and notice to all interested parties. Records of all proceedings must be kept and the question of any damages by reason of the opening or vacating thereof must necessarily appear therein.

It is therefore our opinion that the Board is not permitted to provide for the reopening of an abandoned highway simply by resolution at the time of the abandonment. To do so would unnecessarily encumber the record title to the property and would likewise bind succeeding county commissioners to a promise or proceeding to which they were not original parties.

We are of the further opinion that an abandonment, once completed, prevents a re-establishing of the street or highway as a public highway in any other fashion than provided by statute, to-wit: petitions, investigations, etc.

Hoping that this answers your question, I beg to remain

Very truly yours,
S/ Jay M. Kurtz
County Attorney"

The clerk is requested to file this opinion.

The board approved claims and signed warrants during the day; handled regular county business.

Motion made by Commissioner Prescott, seconded by Chairman Duncan and carried, "that the board continue in session at 10:00 A.M., October 4th, 1955."

RE. MONEY IN FUND OF MONT. HEALTH DIST. #3

As there is the amount of \$556.08 in a trust fund in the County Treasurer's office of Montana Health Dist. #3, the commissioners feel that this money should be disbursed to the participating members of this abandoned health district according to the percentage they contributed. The commissioners requested their clerk to advise the department of Public Health in Helena of this decision and advise them that their share amounts to \$96.20 and a letter was received from Mr. L. S. McLean, Director of Division of Local Health Services advised that they do not wish this money refunded and the board, after reading this letter instructed the clerk to distribute this money pro rata to the other participating members in addition to their percentage of the \$556.08. The board instructed the clerk to advise Mr. McLean of this action.

RESOLUTION - SUBDIVIDING & PLATTING

The following resolution was passed and adopted this date:

RESOLUTION

WHEREAS, it has come to the attention of this board that the survey plats of Albert J. and/or Lucille Klapwyk indicates that land in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 2, Twp. 13, Rge. 19 is being subdivided and platted for building purposes.

THEREFORE, IT IS HEREBY ORDERED that a plat be prepared in accordance with all requirements for plats of cities or towns or additions thereto on the above described land, as the same are set forth in R.C.M. 1947, Title 11, Chapter 6, being Sections 11-601, et seq. and that the County Clerk and Recorder is not to accept deeds for the conveyance of property in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 2, Twp. 13, Rge 19 until a plat on this property has been approved and accepted by this board.

OPINION-COUNTY ATTORNEY
 RE. TAX LEVY, SCHOOL DIST. #23

The following opinion was received this date:

Board of County Commissioners
 Missoula County, Montana
 Missoula, Montana

Gentlemen:

You have recently made inquiry and asked our opinion relative to the status of the Board of County Commissioners as it relates to the present situation on the tax levy for Target Range School District No. 23.

I have already orally indicated to you that the provisions of Section 75-1712, et seq., R.C.M., 1947, provides for two meetings to be called by the school budget supervisors; the first is to be held on the fourth Monday of July each year, and the second on the second Monday of August of the same year. The Code also states that at either of these meetings, any taxpayer or member of the school board may appear and present a protest and be heard thereon as to the whole of the budget or any item or amount thereof.

It is our understanding in this office that the preparation of the budget for the target Range District was delayed by reason of a combination of circumstances, and that by reason thereof, an opportunity could not be provided, as required by law, for any taxpayers to appear before the budget board to object to either the budget or any item or amount thereof. It is impossible to assign the fault therefor to any particular officer or officers.

It would now seem that the only reason for the taxpayers in the said school district to object to the increase of the levy, which was made for the purpose of increasing the cash reserves, is that such levy was not brought to their attention. We further understand that the cash reserves at the present time are sufficient to take care of any contingencies that may arise this year.

You have also inquired as to what steps may be taken by the Commissioners in regard to refunds in this connection. I beg to advise that Section 84-4176, R.C.M. 1947, makes provision for refund of taxes erroneously or illegally collected. Said Section provides for said refund upon order of the Board of County Commissioners. This latter Section also provides that no order for the refund of any tax, percentage or costs under this Section shall be made, except on a verified claim by the person who has paid such tax. In other words, there must be a verified claim for refund presented to the Board by the person paying the tax. The question of course arises as to whether or not this levy was erroneously made. Under the circumstances we feel there is a definite possibility that the levy was made in error for the reason that the opportunity was not, or could not, have been given any taxpayer to question the budget or any item thereof. Apparently the item of the increased cash reserve is the only one in question here. We further feel that it would not be necessary to pass a Resolution regarding this matter, but if any taxpayer appears within the ten-year period with a verified claim for refund, then we feel it is within your province to order the refund made.

Hoping that this answers your inquiry, I beg to remain,

Very truly yours,

S/ Jay M. Kurtz
 County Attorney

*COUNTY ATTORNEY OPINION

The following opinion was received this date:

January 17, 1956

Missoula County Airport Board
Missoula, Montana

Board of County Commissioners
Missoula County, Montana

Gentlemen:

You have asked the opinion of this office relative to the employment of the Airport Board of an engineer other than the county surveyor, or if the county surveyor is employed as an engineer, may he be paid an amount over and above his salary, and further whether the funds should be paid by the Airport Board or by the Board of County Commissioners.

Please be advised that under and by virtue of the decision of the Montana State Supreme Court, decided November 19, 1955, in the matter of the State of Montana vs. R. J. Hale, the majority decision in this case, reported in State Reporter, Vol. 12, p. 427, the planning, construction and maintenance of the Missoula County Airport is not strictly a county function but, in the opinion of the Supreme Court, such operation is a county function as well as a public and governmental function.

Further, the Montana Supreme Court makes the following statement in its decision:

"...Specifically, we are not aware of any statute that makes it the duty of the county surveyor to do the work of the Airport Board without compensation over and above his salary," and

further:

"...As county surveyor, he (Hale) was not called upon to render these services because of his office."

Based upon the foregoing decision, it is my opinion that the Airport Board of Missoula County is entitled to hire any engineer they desire and they are further entitled to pay him out of the Airport Commission fund.

It is my further opinion that if the county surveyor is employed to do the engineering on the Airport, it is not county function, nor is it a part of his official duty under the foregoing decision and he may be paid for such engineering service over and above his salary.

It is my further opinion that the moneys should be placed in the Airport Commission Fund and paid out of that by warrant property issued on claims duly verified and filed.

Hoping that this answers the questions directed to my office, I beg to remain,

Yours very truly

S/ Jay M. Kurtz
County Attorney

LETTER RE. BRIDGES FROM STATE HIWAY

The following letter was received this date:

February 7, 1956

Board of County Commissioners
Missoula County
Missoula, Montana

Gentlemen:

This will confirm previously furnished information regarding construction of bridges in Missoula and vicinity.

Our estimated cost for the Madison Street Bridge and approaches is \$1,421,000 and the required local participation is \$260,000.00.

For the Higgins Avenue Bridge and approaches, the estimated cost is \$1,481,000 and the required local participation amounts to \$261,000.00.

Our estimated cost of replacing the California Street Bridge is \$235,000, exclusive of approaches, and there can be neither State nor Federal aid financing on this project.

In order to provide a firm basis for proceeding with the local financing of the Madison and Higgins Avenue projects, the Highway Commission guarantees that required local participation for the Madison Street Bridge and approaches will not exceed \$260,000, and for the Higgins Avenue Bridge and approaches will not exceed \$261,000.00. Should savings occur in contracts for construction, the local participation may be reduced.

We understand that, from a legal standpoint, the bond issues for the two projects are to be voted on separately. We wish to again point out that the Madison Street Bridge must

be completed and in operation in order to handle traffic during reconstruction of the Higgins Avenue Bridge. There is no provision for the temporary handling of traffic at the Higgins Avenue site, and failure of the Madison Street Bridge bond issue would block both projects.

According to present plans, and providing there is no holdup of approval of the project by the Bureau of Public Roads or the Railroad Company, we anticipate placing the Madison Avenue Structure under contract this fall; this would allow the Higgins Avenue Bridge to be let to contract in the fall of 1958.

In order for a portion of the Madison Street Bridge to qualify as a grade crossing elimination eligible for increased Federal participation, it will be necessary that the Van Buren crossing of the C. M. St. P. & P. R.R. be closed on completion of the proposed bridge. Resolutions covering the elimination of this railroad grade crossing will be required from both Missoula County and the City of Missoula. Suggested forms for this resolution will be furnished you in the near future.

Should any additional information be required regarding these projects we will be happy to furnish it.

Very truly yours,
S/ Scott P. Hart
State Highway Engineer

HEARING RE. CLOSING GRADE CROSSING-VAN BUREN

At 11:00 A.M., which was the time as advertised for the hearing on the elimination of the C. M. St. Paul and Pac. R.R. Co. grade crossing at Van Buren, the Clerk of the Board was handed a petition signed by various freeholders in the Orchard Homes District, protesting and objecting to the acceptance of the Resolution on the grounds that it excludes them from the right-of-way to get to their control gates, diversion dam, etc. if this crossing should be closed and the property on the south side of Van Buren Street vacated and if vacated, it would become the property of the Montana State University. It was explained by this group that it is necessary that they have right of way to cross the railroad with heavy trucks and tractors at times and also that there should be a crossing which is most convenient in cases as dawning when the gates need to be closed quickly. Mr. L. L. Bulen acted as speaker for the group, consisting of approximately twenty-five persons, explained to the commissioners these facts.

After hearing these protests, it was moved by Commissioner Ostergren, seconded by Commissioner Howe, "that the board take this protest and objection under advisement and that the meeting on this hearing is postponed to April 12th at 10:15 A.M." The clerk was requested to advise the C.M.St.P. & Pac. Railroad and State Highway Commission of this continued meeting and request their representatives to be present at this hearing.

The board signed warrants and handled regular county business during the day.

Motion made by Commissioner Ostergren, seconded by Commissioner Howe and carried, "that the board continue in session at 10:00 A.M., March 31st, 1956."

CO. ATTY. OPINION

The following opinion was received this date:

May 1, 1956

Board of County Commissioners
Missoula County
Missoula, Montana

Attention: R. G. Ostergren

Dear Sir:

You have asked for an answer to the following question: Must vote of commissioners be unanimous for declaring emergency budget for the airport board?

The only provision for authorizing emergency budget expenditures by a county for any of the budget expenditures by a county for any of the agencies maintained by it are contained in Section 16-1907 R.C.M., 1947. This section provides for the adoption of a resolution by unanimous vote of the county commissioners. There being no special provision for emergency expenditures in the law authorizing county airports, this section must be deemed to apply to airport expenditures as well as all other county agencies.

Very truly yours,

S/ Donald R. Wolf
Deputy County Attorney

CO. ATTY. OPINION

The following opinion was received this date :

Board of County Commissioners
Missoula County
Missoula, Montana

Gentlemen:

You have requested my opinion as to whether or not the Board of County Commissioners of this county may enter into a contract to install a passenger elevator in the Missoula County courthouse, which contract will exceed \$10,000, without the approval of a majority of the electors at an election submitting the question.

In answer to this question, it is necessary to consider Section 5, Article 13 of the Montana Constitution, which provides in part as follows:

"No county shall incur any indebtedness or liability for any single purpose to an amount exceeding \$10,000 without the approval of a majority of the electors thereof, voting at an election to be provided by law."

Referring to Volume 25, Opinion No. 110, and Volume 26, Opinion No. 54 of the Attorney General's Opinions of the State of Montana, I find the attorney general handing down the following opinion:

"It is therefore my opinion that a Board of County Commissioners has the power to enter into a contract for the construction of a bridge, which contract will exceed \$10,000 when there is cash on hand in the budget designated for bridge purposes and in an amount sufficient to pay the contract price without violation of the provisions of Section 5, Article 13 of the Montana Constitution."

In arriving at its decision, the attorney general examined into the following cases:

In arriving at its decision, the attorney general examined into the following cases:

State, ex rel Rankin vs. Board of Examiners, 59 Mont., 557

State, ex rel Diederichs v. Board of Trustees, 91 Montana, 300.

In those cases, the supreme court of the State of Montana has ruled that the debts prohibited by the Constitution in excess of \$10,000 are such as pass the limit of available cash on hand and revenue for which adequate provision has been made by law.

The supreme court has further indicated that no provision of law has been made for submitting to the electors the question of the expenditure of cash on hand, raised for a definite purpose in excess of \$10,000. And in the decisions the supreme court has said that the constitutional restriction has been interpreted as a restriction upon the borrowing of money.

The attorney general has further said that the supreme court opinions recognize that a debt or liability is not incurred if revenue by taxation or otherwise is provided to meet an obligation. In other words, if there is cash on hand or an adequate provision has been made to secure cash on hand, then a vote of the electors is not necessary. If you provide in your budget for the expenditure of cash on hand for the specific purpose then it is the opinion of this office that a vote is not necessary and this seems to be borne out by the opinions of the attorney general and the cases above referred to.

The budget for the coming fiscal year should provide for the amount necessary to construct the elevator and then that amount should be ear marked or set aside out of the available funds.

In connection with the foregoing, it is my opinion that you would be well advised to also consider the architect's fee in connection with the budget.

Very truly yours,

S/ Jay M. Kurtz
County Attorney

OPINION - EMERGENCY, AIRPORT

The following opinion was received this date:

June 26, 1956

Board of County Commissioners
Missoula County
Missoula, Montana

Gentlemen:

You have asked my opinion concerning the power of the Board to set up an emergency budget for the purpose of repairing or resurfacing a runway or runways at the Missoula County Airport, and give as the reason or necessity for such construction or repair, the fact that the heavier planes landing there recently have broken through the existing runways. You, along with the Airport Board, further advise that this situation constitutes a hazard to air travel and passenger safety.

As you are well aware, the Board may not levy more than 2 mills for the purpose of construction and repair under Section 1-804, RCM 1947. However, it is my opinion that the aforementioned Section does not control Section 16-1907, RCM, 1947, and especially sub-division 5 thereof. This subdivision 5 makes provision for the Board making expenditures and incurring liabilities necessary to meet and overcome certain emergencies specified therein. One of these emergencies is the protection or preservation of public health. It is my interpretation of this statute that public health and public safety are in effect interdependent and one is valueless without the other. An existing emergency affecting public health must necessarily include, in my opinion, public safety. Other provisions of sub-division 5 require that the expenditures must be adopted by unanimous vote of the members present at any meeting and that all members shall have reasonable notice and that a resolution thereon stating the facts constituting the emergency must be entered upon your minutes. This section further provides a limitation of \$25,000 in counties of the first, second, third and fourth class, which of course includes Missoula County.

It is therefore the opinion of this office that you would be empowered to set up an emergency Resolution, within the limits hereinbefore mentioned and under the conditions above noted.

Sub-division 6 of the aforementioned section provides the manner for drawing warrants.

Further in connection with the above matters, Attorney General's Opinion No. 48, Volume 23 of the official opinions of the Attorney General provides that surplus monies available in each fund may be used, and in this connection, funds from the sale of Airport lands or a portion thereof, may be used within the discretion of the members of the Board.

Hoping that this adequately answers your questions, I beg to remain

Very truly yours,

S/ Jay M. Kurtz
County Attorney

OPINION

The following opinion was received this date:

August 8, 1956

Board of County Commissioners
Missoula County
Missoula, Montana

Gentlemen:

You have requested an opinion concerning the propriety of the Peterson Engineering Company reproducing Missoula County Airport maps and submitting a claim to the County therefor. You ask if Mr. Peterson is disqualified from rendering this service for compensation since he is also Missoula County Surveyor.

The answer to your inquiry is contained in Section 16-1801, RCM, 1947, which provides in pertinent part as follows:

"No county officer must, except for his own service, present any claim, account or demand for allowance against the county, nor in any way advocate the relief asked on the claim or demand made by another."

This section has been interpreted in the case of HICKS VS STILLWATER COUNTY, 84 Mont. 38, which held as follows:

"While mere benefits received will not ordinarily create an implied promise to pay, where a county is required by law to furnish one of its officers with the necessary equipment for the performance of his duties, and it does not do so but knowingly permits him to use his own equipment, receiving benefits therefrom, it is liable for the reasonable value of its use as upon an implied contract."

Therefore, under the interpretations of the above quoted statute, and the nepotism statutes, it is our opinion there is nothing in our laws to disqualify the Peterson Engineering firm from furnishing the contemplated service and presenting a claim against the county for the same.

Respectfully,

JAY M KURTZ, County Attorney

OPINION
RE BUDGETING FOR ELEVATOR

The following opinion was received this date:

August 15, 1956

Board of County Commissioners
Missoula County
Missoula, Montana

Gentlemen:

In connection with the construction of the proposed elevator in the Missoula County Court House, you have again requested the opinion of this office as to the legality of your action in providing in the current budget for said construction.

Referring to my opinion under date of June 8, 1956, I called to your attention the fact that the restriction on expenditures over \$10,000 is applicable only where it is necessary to borrow the money.

The opinions of the attorney general therein cited are still applicable to the situation as it now exists and for your further information I again call your attention to that opinion, as follows:

"It has been repeatedly held by the supreme court of Montana that there is no debt or liability created requiring a vote of the electorate when there is cash on hand or revenue provided to meet the appropriation."

The opinions quoted in the attorney general's opinions recognizes that the debt or liability is not incurred (requiring a vote of the electorate) if revenue by taxation or otherwise is provided to meet the obligation.

You have provided for the construction of the elevator in the budget and there is revenue forthcoming to meet the costs thereof out of tax monies and it is the opinion of this office that your action is proper and that you may now proceed with the construction of the elevator above referred to.

Hoping this answers your question sufficiently, I beg to remain,

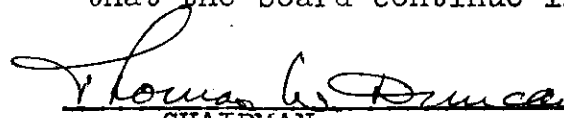

Respectfully

S/ Jay M. Kurtz
County Attorney

AGREEMENT - FORT MISSOULA

GENERAL SERVICES ADMINISTRATION
REGION 10

Seattle 4, Washington
August 29, 1956

Board of County Commissioners
Missoula County, Montana

Gentlemen:

The Regional Commissioner of this Agency has been authorized to consummate an agreement with your Board as to lease dated August 9, 1948, covering the former Fort Missoula property.

The lease agreement, as amended, is hereinafter referred to as the "Basic Lease" and the United States, acting through the General Services Administration, is hereinafter referred to as the "Government."

Article THREE of the Basic Lease affords to the County an option to purchase the property covered by the Basic Lease at any time during the term of the Basic Lease or any renewal thereof. The County, acting through your Board, has expressed a desire to exercise its option to purchase a portion of the property so leased with the understanding that the remainder of such property is to be released from the option.

A Memorandum of Agreement was proposed between the County and the United States of America, acting by the through the District Engineer, Walla Walla District, Corps of Engineers, on March 12, 1956. A copy of that agreement, together with map designated as SE-RE-174 is attached and is hereinafter referred to as the "Preliminary Agreement." The United States Corps of Engineers is hereinafter referred to as the "Army." The Preliminary Agreement so proposed defines and describes, on pages 1 and 2 thereof, the area as to which the County proposes to exercise its option to purchase under the Basic Lease. That area is hereinafter referred to as the "County Area."

Your Board has proposed an amendment to the Basic Lease whereby the County will exercise its option to purchase the County Area (as confirmed by survey) in consideration of the release by the County of the remainder of the property covered by the lease (which remainder is hereinafter designated as the "Army Area.")

We propose the following agreement between the Government and the County:

1. The effective date of this agreement will be 12:01 a.m., August 29, 1956;
2. The Government and the County will execute an amendment to the Basic Lease, as of the effective date, deleting the Army Area therefrom and relieving the County from further liability or obligation relative thereto;
3. As of the effective date, the County will exercise the option afforded to the County in Article THREE of the Basic Lease as to the County Area;
4. The County will pay additional rent of \$547.40 through August 28, 1956. The Government will refund the remainder of advance rent paid in the amount of \$9,442.60.
5. The County agrees to assign to the Government all subleases in effect as to any portion of the Army Area as of the effective date. All rents paid or payable under said subleases prior to the effective date shall be retained by the County. All other rents under said subleases shall be collected by the Government or the Army.
6. The Government will execute and deliver to the County a quitclaim deed conveying to the County the County Area as of the effective date.
7. It is desired by both parties hereto that this agreement be closed through delivery by deed, amendment to Basic Lease and other documents on or before October 1, 1956. Failure to do so on or before that date will not, however, vitiate this agreement.
8. Possession of the Army Area and the County Area will be taken as of the effective date.
9. The provisions contained in the proposed Preliminary agreement are approved and incorporated herein by reference (provided, however, that the obligations assumed by the Army in said Preliminary Agreement and which are to be performed by the Army subsequent to the closing date hereunder shall be confirmed by an agreement between the Army and the County) with the following exceptions:
 - a. As to Article II, the payment shall consist of rent paid prior to August 9, 1956, together with a proration of rent accruing subsequent thereto up to the effective date.
 - b. The deed running from the Government to the County will reserve an appropriate easement in favor of the Government as to the main diagonal access road referred to in paragraph one of Article III; provided, however, that at such time as a new public access road is completed by the County and opened, the easement so reserved will be released.
 - c. The deed from the Government to the County will reserve title to the existing overhead electrical system across the SE $\frac{1}{4}$ of Section 31. The County will grant the Army a license to repair and maintain said system.
 - d. Article VII is deemed to be modified to conform with agreed conditions 4 and 5, above.
 - e. Any other provisions in the Preliminary Agreement which are inconsistent or in conflict with this agreement are deemed to be modified to conform with and to this letter agreement.

Please signify your acceptance by signing the original and one copy.

Very truly yours,

S/ O. C. Bradeen

4. Article THREE of the Lease is deleted in its entirety and the following is substituted in lieu thereof:

"THREE: Lessee shall have the option to purchase the leased premises for the principal sum of Seven Thousand Five Hundred Sixty-two and 50/100 Dollars (\$7,562.50) which option may be exercised as of 12:01 a.m., August 29, 1956 upon written notice to Lessor. In the event Lessee exercises said option, rentals heretofore paid under this Lease shall be credited upon the purchase price and accrued interest thereon at the rate of 4% per annum from August 9, 1948 on reduced annual balances; such paid rentals to be first applied to accrued interest as of the date said rentals are paid and the balance to principal. If, at the time the Lessee exercises its option the rentals paid by Lessee exceed the option price, together with interest, the Lessor shall retain such excess.

In the event of purchase under said option, title to the leased premises shall be conveyed by quitclaim deed dated as of August 9, 1948 which shall be subject to the reservations, easements, licenses and permits set forth hereinabove and also subject to the following:

- A. The Lessor will reserve an appropriate easement in favor of the Lessor as to the main diagonal access road referred to in Paragraph 1, Article III of that certain proposal dated March 12, 1956 made by the District Engineer, Walla Walla District, Corps of Engineers, to the Lessee, with a proviso that at such time as a new public access road is completed by the Lessee and opened, the easement so reserved will be released;
- b. The Lessor will reserve title to the existing overhead electrical system crossing the SE $\frac{1}{4}$ of Section 31 of the leased premises; it being understood that Lessee will grant to Lessor, or its assigns, a license to repair and maintain said system."
5. Lessee hereby releases Lessor from any and all claims of whatsoever nature which have accrued or may accrue as to the premises released by Lessee by virtue of this amendment.

In all other respects the Lease shall remain in full force and effect in accordance with its terms.

IN WITNESS WHEREOF, the Lessor and the Lessee have executed this amendment as of the 29th day of August 1956.

BID NO. 2

WESTMONT TRACTOR CO.
P. O. BOX 1445
Missoula, Mont.
October 29, 1956

Board of County Commissioners
Missoula County
Missoula, Montana

Gentlemen:

Pursuant to your Call for Bids, we submit the following for your consideration:

1 - Model 10TILU Gledhill One-Way Snow Plow, standard construction, with long underframe and rigid type plow mounting.
Price, f.o.b. Missoula \$710.50

Alternate (a)
Same as above, but with trip-type plow mounting.
Price, f.o.b. Missoula. 841.50

Weight, complete assembly - either arrangement: 1,650 lbs.
Weight, plow assembly only: 1,210 lbs.

HEAVY-DUTY ALTERNATE

1 - Model 10HTIHLU Gledhill One-Way Snow Plow, standard construction, with long underframe and rigid type plow mounting.
Price, f.o.b. Missoula. 864.50

Heavy-Duty Alternate (b)
Same as above, but with trip-type plow mounting.
Price, f.o.b. Missoula. 994.00

Weight, complete assembly - either heavy-duty arrangement: 1,950 lbs.
Weight, plow assembly only, either heavy-duty arrangement: 1,398 lbs.

The thickness of the material in the plow blade in both assemblies is the same, that is 10 gauge material, but from the specification sheet attached, it is pointed out that the heavy-duty blade is 1' longer than the standard blade, measured from extreme diagonal points.

The standard blade has an intake height of 28" and a discharge height of 47" while the heavy-duty blade has an intake height of 31" and a discharge height of 54". Either has an 8'-6" cutting swath at 32° setting.

The standard blade is carried on an H-beam underframe, while the heavy-duty blade is carried on a heavier I-beam underframe.

We are attaching a printed bulletin which gives information concerning the standard blade, a specification sheet showing pertinent information as checked, concerning both the standard and heavy-duty construction, and we are attaching two photographs showing the heavy-duty plow assembly which shows the plow with the trip mechanism omitted, making a rigid plow out of the assembly.

Our manufacturer, the Gledhill Road Machinery Co., during the past year has purchased the snow plow business of the former Davenport Besler Company, manufacturers of the Davenport-Frink Plow, and they tell us their Model 10HTIH is very close to the specifications of the former Davenport Frink Plow Model 548½, with which you are familiar. Rushing into the snow plow season, they have not as yet had time to prepare a printed catalog illustrating this particular plow, so we hope this photograph and specification sheet will be acceptable to you for the purpose of consideration.

Presently, snow plow deliveries are being quoted on a basis of 30 days after receipt of order at the factory.

Prices above include hand control mechanisms and if the plows are intended for use with already installed power controls, and the hand controls for the cab mounting not be desired, a deduction of \$26.00 would be available on the quotations, both basic and alternate. Also, if you have any special color requirements, we believe special paint could be applied without delaying the shipment.

Yours very truly,

OPINION

The following opinion was received:

March 20, 1957

Board of County Commissioners
 Missoula County.
 Missoula, Montana

Gentlemen:

In reference to your question appertaining to the legality of your meetings on Saturdays or any other time or place for the purposes of ascertaining the complexities of those matters concerned with the performance of your office, and the question as to whether such meetings at a place other than the county courthouse it is necessary for the clerk to be present, I would refer you to the Montana statutes outlining the specific and general powers of the board of county commissioners, and those of the clerk and recorder.

I would direct you more specifically to Sections 16-908 and 16-2917, RCM, 1947, which enumerate the duties of the clerk and recorder in its relation to the clerk of the board of county commissioners, wherein it does not state in specific terms that the clerk be present at all meetings.

Therefore, the commissioners are within the purview of the law whenever they hold and conduct a meeting on Saturday or any other time when they deem it necessary, and at any place where it is necessary to consummate the purposes of said meeting without the presence of the clerk and recorder. However, the time and place of said meeting should be resolved by the board at a regular meeting and in the presence of the clerk and recorder, and said clerk should reduce the resolution on the minutes.

Inasmuch as the board of county commissioners is a body politic with limited powers, it must in every instance justify its actions to the provisions of law defining and limiting those actions. If however, there is no question of the existence of power to do the act proposed, and the mode of existence is not pointed out, the board is left free to use its discretion in selecting the mode it shall adopt or the course it shall pursue, and the result cannot be called in question if the course pursued is reasonably well adapted to the accomplishment of the end proposed.

Further, as set forth in Section 16-1027, RCM, 1947, the board of county commissioners has what the law terms "implied powers", namely, those powers which are not specifically enumerated or set forth by the state legislature, but which are necessary and proper for the fulfillment of those powers and duties that have heretofore been expressly enumerated and confirmed by the legislature.

Accordingly, in reference to the above, it is the opinion of this office, that you may meet on Saturdays at the court house or any other place, without the presence of the clerk and recorder, as long as the meetings are entered on the minutes.

Very truly yours,

S/ Anthony F. Keast
 County Attorney

The clerk was requested to file this opinion.
