Present: John J. Flynn, Chairman,  
R. W. Angevine, Commissioner,

It being brought to the attention of the Board of County Commissioners that the County Jail Building of Missoula County is old and dilapidated and that it is need of constant repair in order to be habitable; that it is totally inadequate to the needs of the County in that there is not sufficient space to care for and house prisoners committed thereto, and in that there is no provision in said building for the care of minor children committed to the custody of the Sheriff, and in that there is no adequate provision in said building for the incarceration and caring for women prisoners and there is a necessity for such facilities and that in order to provide them it is necessary to construct an entirely new jail building and that this necessity is urgent at this time.

- RESOLUTION -

It being brought to the attention of the Board of County Commissioners that the County Jail Building of Missoula County is old and dilapidated and that it is in need of

AGREEMENT MISSOULA COUNTY, FIRST PARTY, and MISSOULA GAS & COKE COMPANY:

It was moved by Commissioner Ross and seconded by Chairman Flynn the adoption of an agreement between Missoula County, Party of the First Part and Missoula Gas and Coke Company, party of the second part, dated November 7th, 1928, granting sufficient space to enable the party of the second part to lay a gas pipe six inches in diameter on the East side of Higgins Avenue County Bridge in the City and County of Missoula, and more particularly described in the agreement. On Roll Call the vote was as follows: Chairman Flynn, Yes; Commissioner Angevine, No; Commissioner Ross, Yes. Motion carried.

Commissioner Angevine gave the following reasons for opposing this resolution, or agreement:

1. The bridge over which this gas main will be laid is not <sup>of</sup> sufficient strength to carry the added weight of a main of this kind, together with the necessary traffic which said bridge must regularly sustain.

2. That it will become an encumbrance upon the bridge in that it will cause dirt and snow to accumulate unnecessarily and will therefore interfere with the painting, paving and

improvement work to be done upon the bridge and will be detrimental to it as a public highway, and

3. That if such an easement is granted it should provide that the gas main, together with all other pipes, be placed immediately under the bridge structure, and

4. Under no circumstances should such an easement be of a permanent nature.

EXAMINER'S NOTESBONDS

The official bonds of the several officers were found to be properly approved, recorded and filed as provided by law.

DEPOSITORY SECURITIES

The Depository securities were all properly approved by the Board of County Commissioners, and were filed with the County Treasurer, a complete minute entry having been made by the County Clerk at the time of entry.

COUNTY CLERK AND RECORDER

The records in the office of the County Clerk are written up to date in a neat and accurate manner.

The fees collected during the period covered by this examination were all properly accounted for to the County Treasurer.

COUNTY TREASURER

The month of November is a very inopportune time to make an examination of the County Treasurer's Office on account of the rush of work caused by the current tax collection. However, very little difficulty was experienced owing to the very efficient manner in which the office is handled. All records were found to be written up to date and the cash fund balances were in agreement with the accounts as carried by the County Clerk.

COUNTY AUDITOR

The Petty Cash Fund of the County Auditor has been handled in accordance with the statute but an overage is noted in the cash in the amount of ten cents as previously noted in this report. At the time of our last examination there was an excess of five cents in the cash and in attempting to make the necessary correction the Auditor deposited five cents in the bank instead of deducting it from the following reimbursement claim, with the result that the fund is over in the amount of ten cents at this time. When the next claim for reimbursement is filed with the Board a deduction in the amount of ten cents should be made, which will balance the account.

We note that the Auditor still has the \$200.00 Prohibition Enforcement Revolving Fund mentioned in our last report. This fund is of no use at this time since the Prohibition Law has been repealed and should be turned over to the County Treasurer and credited back to the County General Fund.

CLERK OF COURT

The records of the Clerk of Court were written up promptly and neatly, and all fees were properly accounted for except the fee for the Judgment in Civil Case No. 10810 which was inadvertently omitted from the fee book.

The Trust Fund was handled in a very able manner and was in agreement with the account as kept by the County Treasurer.

CLAIMS

We find a great many claims of the Sheriff for mileage such as No. 10928, 12122, 12749, 13237 and others that we believe contain charges in excess of the amount allowed by law. We find many instances where two members of the Sheriff's force go out and arrest a defendant and for such service five mileages are charged, two ways for each of the officers and one way for the prisoner. Such trips are made in one automobile and the result is that the Sheriff receives  $31\frac{1}{2}$  cents for each mile travelled by such automobile. We believe that this charge is excessive as certainly two officers cannot charge mileage for arresting and transporting the same prisoner. Under a recent opinion of the Attorney General the Sheriff is allowed his actual expenses for conveying a person under arrest to jail; this opinion being based upon the last paragraph of Chapter No. 111 of the Laws of 1927. Chapter 80 of the Laws of 1923 provides that any officer who is allowed his traveling expense shall be allowed not to exceed  $12\frac{1}{2}$  cents per mile for the use of his automobile but shall use train service when suitable service is available, for which he would receive the regular railroad

77

rate of 3-6/10 cents per mile. Construing the law in this way the Sheriff would be entitled to 12½ cents per mile for the use of his car regardless of the number of deputies or prisoners traveling in such car. This would be considerably less than the amount that has been allowed in the past and in the future we shall expect to see all such claims in accordance with the law and where ~~road~~ railroad service is available such service must be used of the mileage must be based upon the railroad rate of 3.6 cents per mile.

We note that practically all of the claims of the sheriff are signed by the Under-Sheriff instead of by the Sheriff himself. The Sheriff must sign his own claims.

Claim No. 10934 of the Coronor charges and was allowed a mileage at the rate of 12½ cents per mile, whereas the law definitely fixes such mileage at the rate of 10 cents per mile as you will observe by referring to Section No. 4922 of the Revised Codes of 1921. Claims No. 12075, 14281 and others are similar.

Claim No. 14859 is assigned to a Deputy County Officer which is in violation of Section No. 447 of the Revised Codes of 1921.

#### SINKING FUND

Again we wish to call your attention to the present condition of your Sinking Fund. The statute provides that each year you must levy and set aside a sinking fund in such an amount as will be sufficient to care for the payment of all bonds as they shall become due. On June 30, 1928, your Sinking Fund should have had a balance in the approximate amount of \$300,000.00, but instead we find a balance of only \$40,000.00, showing that the Board has not complied with this law in the past and as a result the Sinking Fund is considerably less than the legal requirements. In March, 1932, a little over three years, bonds in the amount of \$80,000.00 will become due. In March, 1933, bonds in the amount of \$50,000.00 will become due and during the years 1938 to 1943 the balance of the bonds, or \$564,000.00 will become due. It can <sup>be</sup> readily seen that a change of policy will be necessary if these bonds are to be paid when they become due and therefore we must insist that you comply with the law and that a sufficient levy be made in the future. We note that the levy for the year 1928 was increased from 3½ to 4½ mills and we wish to commend the Board for this action. If this levy is maintained in the future the amount realized will just about be sufficient to pay off the bonds as they become due.

#### INDEBTEDNESS

It will be noted from the above report that the outstanding indebtedness of the County is constantly increasing in spite of the fact that sinking fund moneys are collected which should naturally tend to reduce the outstanding net indebtedness. Every possible effort should be made to reduce the expenditures of the county in order that they may be kept within the revenue collected. Unless this is done your indebtedness will continue to increase to a point where it will become a burden upon the taxpayers of the county.

#### CONCLUSION

We realize that this report contains considerable criticism and we sincerely hope that such criticism will be accepted in the spirit in which it is submitted by this department, a spirit of friendly co-operation. We are confident that the irregularities noted will have your prompt attention and it is only by the elimination and correction of such errors that we may expect to attain the highest type of county government which undoubtedly is our mutual desire.

We wish to express our appreciation of the many courtesies which were extended to us by the several officers during the course of the examination.

Respectfully submitted.

SALE OF LOTS CANCELLED:

The Clerk notified the Board that in the matter of the sale of lots on November 20th, 1928, Jerry Johns bid \$10.00 for Lots 9 and 10, Block 28, East Missoula, and O. F. Johnson bid \$50.00 for Lots 3 and 4, Block 47, Knowles Addition, and though these parties have been notified twice by ordinary mail and once by registered mail they have not paid their respective bids. Whereupon the Board declared the bids of Jerry Johns and O. F. Johnson cancelled.

Maud Misner bid \$150.00 for lots 5 and 6, Block 70, South Missoula, and later requested the Clerk to withdraw her bid. The Board accepted the withdrawal.

In the matter of the Bid of W. A. Simons for N½ less Road and Right of Way, in Sec. 25, Twp. 13 N. R. 19 W; also N½ SE¼ and Lots 1, 2 and 3, in Sec. 25, Twp. 13 N. R.19 W, the Board rejected the bid for the reason that they had no right legally to offer such property for sale before there was a reasonable market value placed on such property.

PETITION FROM REAL ESTATE AND INSURANCE BOARD:

The Board received a petition from Missoula Real Estate and Insurance Board asking the Board of County Commissioners to cause the Clerk and Recorder to change the wording of the certificate that he is at present attaching to searches for abstracts.

PETITION

Missoula, Montana,  
March 19, 1929.

To the Honorable Board of County Commissioners Missoula County:

Gentlemen:

The undersigned citizens and residents of Missoula County, Montana, respectfully petition your honorable body to cause the Clerk and Recorder of Missoula County, Montana, to attach to abstracts, certificates after the form of copy hereto attached and for convenience, marked "Exhibit A."

The Montana Revised Codes for 1921 require the Clerk and Recorder to make abstracts of filings and records of his office and to attach thereto proper certificate. Exhibit "A" is an exact copy of certificate formerly attached to abstracts by the Clerk and Recorder. For more than a year, however, he has used certificate, copy of which is shown as Exhibit "B". We are reliably informed that this has resulted in several individuals and companies no longer using his abstracts.

Your Honorable body has rendered the citizens of this County a valuable and commendable service by having prepared tract indexes. These enable the Clerk and Recorder to produce abstracts characterized by their completeness and accuracy. They are, however, rendered of little commercial value, by the attachment of the present certificate. We believe this situation should be corrected and by so doing, regain revenues to the county, which the present certificate has caused to be largely lost.

The Board referred the matter to the County Attorney for his written opinion.

PETITION OF BERDIE WINTER ET AL.

THE BOARD Also received a petition from Berdie Winter asking for assistance in maintaining and repairing a certain wing dam protecting the river bank south of the John R. Daily Abattoir and more particularly described in the petition. This petition was ordered filed.

OPINION OF COUNTY ATTORNEY RE-CERTIFICATE FOR ABSTRACTS:

The Board received the opinion of the County Attorney heretofore requested relating to the Certificate of the County Clerk and Recorder, <sup>on abstracts</sup> and this opinion is ordered filed.

OPINION

March 25, 1929.

The Board of County Commissioners,  
 Missoula County,  
 Missoula, Montana,

Gentlemen:

Pursuant to your request relative to the form of certificate to be furnished by the County Clerk and Recorder upon the completion of a search of the county records in accordance with Sections 4847 and 4808, R.C.M.1921, the question seems to be one as to what name should be given to this certificate. I note from the records heretofore made that it has been called both "a certificate of search" and an "abstract of title." The statute above mentioned seems to be silent as to what such instrument shall be called and provides that in the event of an incomplete search or refusal to make a search and certificate or when the same shall be incomplete, or there is a defect due to the direct responsibility of the party making the search, that in such event he shall be liable to the aggrieved party for triple the amount of damages incurred thereby. However, this penalty relates to the completeness of the search and to its defectiveness or a refusal to make the same, rather than to the name by which the certificate is designated, and it would therefore seem to be immaterial as to whether it actually be called a "certificate of search" or an "abstract of title" or a "compendium" or by any other high sounding name.

However, from a technical definition of the above mentioned phrases, "abstract of title" seems to be the term that more nearly and clearly described the completed instrument after the search has been made, for instance, "abstract of title" is defined by the Standard Dictionary as:

- "1. That which embraces or imbibes the essential parts or features of some larger object or whole; a summary or epitome, as of a book or document.
- 2. Law. Compendium; as an abstract of a deed or title.

Further: Black's Law Dictionary defines an abstract as "A continuous history of the title to land, consisting of a synopsis or summary of operative portions of all the conveyances, of whatever kind or nature, which in any manner affects said land," etc.

Apparently the Legislature, at the time of enacting the Sections above mentioned, had in mind the preparing and furnishing of an abstract of <sup>the</sup> title, for in the above mentioned Section 4807, they provide that the County Clerk and Recorder shall do the things essentially necessary to make and complete just such an instrument as is above described and which constitutes in fact, an abstract of title, for they say: "furnish a certificate thereof, stating the names of the parties to such instruments, papers and notices, the dates thereof, the year, month, day, hour and minute they were recorded or filed, the extent to which they purport to affect the

property to which they relate and the book and pages where that are recorded," - - - these being the very essentials, as above stated, which go to make an abstract of title.

The importance of the official designation which shall be given to this instrument therefore being of no particular import, and not in the least affecting the responsibility of the county clerk and recorder. I would therefore suggest that it be given the name which more nearly and adequately describes it, namely, "abstract of title" of the records and instruments as he finds them in his office after making the proper search therefor.

You will of course understand that there is no requirement of law which compels the county clerk and recorder to make search of instruments filed in any other office than that of his own, unless he desired to do so of his own free will and accord.

Trusting this is the information which you desire, I beg to remain

Respectfully

DWIGHT N. MASON,  
County Attorney.

P. S. - Enclosed for as per suggestion made:

At this time, the Board now being fully advised in the matter of the Certificate required from the County Clerk and Recorder after making search of his records, recommends to the County Clerk and Recorder that he use the following form of Certificate on Abstracts:

EXAMINER'S NOTES

In the approval of Corporation Bonds or of Trust Receipts covering same such approval should be made upon the basis of 90% of the market value of such bonds and not on the full par value, and the Board of County Commissioners should indicate upon the securities and also show in its minutes, the amount of such approval.

If funds are not available for the payment of warrants on any fund all warrants against such fund must be registered and such warrants must be paid in the order of their registration.

In our last report we recommended that the \$200.00 held by the Auditor as the Prohibition Enforcement Revolving Fund, be returned to the County Treasurer and credited to the General Fund. The State Prohibition law has been repealed and for that reason there is no further use for this fund and again we suggest that it be returned to the General Fund.

The official bonds of the several officers were found to be properly approved, recorded and filed.

Though we realize that some difficulties will arise through the operation of the

recently enacted Budget Law, nevertheless we must insist upon a strict compliance with such law as we cannot approve of the violation of any law.

Claim No. 20656 has not been acknowledged as required by law.

We note from Claims 21266, 21267 and other similar claims, that the Constables are being paid \$125.00 each quarter of \$500.00 a year as salary. This procedure is not in accordance with the statute. Section 4932 of the 1921 Codes sets forth the fees that shall be allowed, concluding with a provision that no constable shall receive in excess of \$500.00 as fees in criminal cases during any one year and under this law the constables should receive the fees as specified and not a regular salary as is now being paid, but such fees must not be in excess of the amount above mentioned. During the year ending June 30, 1929 both constables received in excess of \$500.00, one receiving \$640.70 and the other \$675.15. This statute relates to fees in criminal cases only. The county has no jurisdiction over the civil fees and there is no limit as to the civil fees that may be received by a constable.

Claim No. 21668 allows a Deputy Assessor, traveling expense in excess of the maximum allowed by law. Chapter 43 of the Laws of 1925 limits such expense to not over \$50.00 in any month, whereas this claim allowed \$73.50 between March 12 and April 4th, a period of considerably less than a month. Furthermore, such claims should be more completely itemized.

Section <sup>m</sup>12464, of the Revised Codes, provides that the expense of transporting a prisoner to the penitentiary shall be paid by the State of Montana and not by the county. This has been the law since 1895 and still we find claims allowed and payments made by the county for transporting the following prisoners to Deer Lodge.

| <u>Claim No.</u> | <u>Prisoner</u>  | <u>Amount</u> |
|------------------|------------------|---------------|
| 24856            | Henry Spooner    | \$ 7.25       |
| 24856            | Stark Arklaw     | 8.61          |
| 23865            | Russell Hutchins | 10.10         |
| 23371            | Ray Van Horn )   | 12.18         |
| 23371            | James Brown )    |               |
| 23371            | W. E. Prall      | 10.10         |
| 23371            | Gilbert Burland  | 8.61          |
|                  | Total            | \$ 56.85      |

It is possible that you may be able to recover this amount from the State by filing a proper claim with receipts attached but if recovery cannot be made from the State this amount should be refunded to the county by either the Board of County Commissioners for paying same without legal authority or by the sheriff for collecting an unjust claim against the county.

The sheriff has had considerable trouble infiguring his mileage and traveling expense under the recent law and in a few cases charges <sup>had</sup> been made that were not in accordance with the statute. Proper adjustment was made and no difficulties are anticipated in the future.

There are a great many old balances of estates in the hands of the Treasurer, several of which have been carried for the past 20 years or more. Some disposition should be made of these old accounts.

REPORT OF ROAD VIEWERS, ROAD NEAR EVARO:

The Board received and accepted the report of Road Viewers on Petition of J. William Mercer et al. filed March 7th, 1930:

REPORT

Missoula, Montana,  
March 28th, 1930.

Hon. Board of County Commissioners  
Missoula County, Montana.

Gentlemen: -

On March 25 your appointed board of road viewers went over the road petitioned open by J. William Mercer and others, petition filed March 7, 1930 and report as follows:

1. FEASIBILITY:- The route asked for in the petition is a route that has been used for a number of years and a highway can be reasonably constructed upon it.

2. COST:- It is our conclusion that if this road was properly constructed - fences established on right-of-way purchased, drainage structures built and grading done the cost would amount to \$3,000.00.

3. DESIRABILITY:- The chief value for the road petition would be to J. William Mercer and those occupying his land. We also understand that there is one woman living behind the Mercer land and several allotments that would get use of this highway. The road has a potential value for the purpose of forest protection in case of fire. Some grazing value etc. It is also a fact that this proposed road would serve no settlement or community and would be traveled very little by the general public.

Respectfully submitted

R. J. HALE Co. Surveyor

John J. Flynn Commissioner

The Board instructed the County Surveyor to work in conjunction with the United States Indian Department in matters regarding this right-of-way for further information.

ROAD VIEWERS REPORT- RE-MARSHALL GRADE ROAD:

The Board received, accepted and ordered filed the report of Road Viewers on the petition filed June 2nd, 1930, for the closing of a portion of the road on Marshall Grade, as follows:

June 10, 1930

Honorable Br. of Co. Commissioners  
Missoula County, Missoula, Mont.

Gentlemen:-

On June 2, inst, your appointed board of Road Viewers went over the road petitioned closed by Ed. Castonguay and others at Marshall Grade and do not act favorably as to the closing of this road for the following reasons.

1. We do not feel that a portion of this road should be closed thereby leaving a portion open.

2. By the granting of this petition it would still leave access to the top of Marshall Grade thereby causing a dead end condition at the top of the grade which we feel would be very dangerous.

3. Due to the fact that the Grade is of a shifting nature and at seasons of the year it becomes necessary to use the road over the hill as a detour, we do not feel that the County should give up this right-of-way.

Respectfully submitted,

Board of Road Viewers.

ROAD VIEWERS REPORT - G. W. SHAUBUT ROAD:

The Board received and accepted the Road Viewers report on the petition of G. W. Shaubut et al, filed May 27th, 1930, as follows:

June 14, 1930

Honorable Board of County Commissioners  
 Missoula County, Montana.

Gentlemen:-

On June 13th inst., your appointed Board of Road Viewers went over the road petitioned closed by G. W. Shaubut and others near Bonita and do not act favorably as to the closing of this road for the following reasons:-

1. A short time ago<sup>a</sup>/co-operative bridge was built across the Missoula River between Missoula and Granite Counties and the closing of this road would make access to this bridge impossible except by using a two mile detour.

2. By the closing of this road Missoula County would lose a right-of-way that cost considerable money and it is our opinion that it would be of no material benefit to the community at large.

Respectfully submitted,

Board of Road Viewers,

R. J. HALE, Chairman,  
 R. W. ANGEVINE, Commissioner.

NOTICE IS HEREBY GIVEN by the Board of County Commissioners of Missoula County, Montana, that the said Board will, on the 7th day of August, 1930, at the hour of 10 o'clock A. M., at the County Commissioners' Office, in the Court House of said County, sell to the highest and best bidder for cash either amortization or serial <sup>bonds</sup> of the said county in the total amount of Two Hundred Thousand Dollars (\$200,000.00), for the purpose of raising funds to build and equip an addition to the present Missoula County High School building, and to make such changes in the present high school building as may become necessary or convenient by reason of the construction of said addition.

Amortization bonds will be the first choice and serial bonds will be the second choice of the said Board.

If Amortization bonds are sold and issued, the entire issue may be put into one single bond or divided into several bonds, as the said Board may determine upon at the time of sale, both principal and interest to be payable in semi-annual installments during a period of twenty years from the date of issue.

If serial bonds are issued and sold they will be in the amount of \$1,000 each; the sum of \$10,000 of the said serial bonds will become payable on the 1st. day of July, 1931, and a like amount on the same day each year thereafter until all of such bonds are paid.

The said bonds, whether amortization or serial bonds, will bear date of July 1, 1930, and will bear interest at a rate not exceeding five and one-half per centum (5½%) per annum, payable semi-annually, on the 1st day of January and July, in each year, and will be redeemable in full on any interest payment date from and after five years from the date of issue.

The said bonds will be sold for not less than their par value with accrued interest, and all bidders must state the lowest rate of interest at which they will purchase the bonds at par. The Board reserves the right to reject any and all bids and to sell the said bonds at private sale.

All bids shall be made by sealed proposals and in the case of all bids other than <sup>by</sup> or on behalf of the State Board of Land Commissioners must be accompanied by a certified check in the sum of \$10,000, payable to the order of the Treasurer of the County of Missoula, which will be forfeited by the successful bidder in the event that he shall refuse to purchase the said bonds.

May 20th, 1930.

Gentlemen:

On May 16th, inst., your appointed Board of Road Viewers went over the road petition filed by residents of the Swan River Valley, referring to opening and improving a road leading from the main road near the Gordon Ranch to Lindbergh Lake, and report as follows:

1. We are in favor of the improvement as it will make a large area accessible to residents of this valley for grazing purposes and will open a vast country for recreational use to the country people at large. Will also offer a better chance to give fire protection to the large forest area in this country.

2. We further suggest that a new route be selected and bridge at Swan River crossing be changed so as to shorten the route thereby, giving better alignment and grade.

Respectfully submitted,

BOARD OF ROAD VIEWERS.

R. J. Hale, County Surveyor  
R. W. Angevine, County Commissioner.

EXAMINER'S NOTES

The records and accounts of the several officers were found to be written up to date in a neat and accurate manner.

We note that at various times during the year the Treasurer has allowed some of the cash funds to become overdrawn. There is no law which contemplates the overdraft of any fund. If there is no money in the fund, the warrants must be registered as provided by statute.

We find that many of the warrants have been paid out of order and some few have been paid in cash while others have been registered. We realize that the registration of warrants makes considerable work in the office of the Treasurer, a great deal of which can be eliminated by paying the small warrants in cash, but the law does not permit such a procedure, being very specific in this regard.

When bonds of corporations are accepted as depository security, they must be accepted at 90% of the market value of said bonds, and the Board of County Commissioners should approve same in that amount only.

The above statement of outstanding indebtedness shows a slight decrease during the past fiscal year, but not such a decrease as should be shown when we consider that several thousand dollars are collected each year for the Sinking Fund for the express purpose of reducing the bonded debt of the County. The fact that the outstanding warrant indebtedness has increased over \$40,000.00 during the last fiscal year would tend to show that the expenditures have exceeded the income in that amount during the year from June 30, 1929 to June 30, 1930. This condition is worthy of your attention and every possible effort should be made to place the financial affairs of your County on a more business-like basis. Under such conditions, it might be well to discontinue making donations to so many activities and to handle the County business more like you would your own business if you were constantly going farther and farther in debt. We doubt the legality of such donations in view of the fact that Section 4445 of the Revised Codes provides that, "No county must ever make any donation or grant to any individual, association or corporation - - -". Especially do we doubt the legality of donating \$25.00 to C. Edson Smith of Corvallis for the purpose of assisting in the financing of his exhibit to the Grain and Hay Show at Chicago, such donation having been made as evidenced by Claim No. 31921 and the claimant not even being a resident of Missoula County.

Claim No. 27858 and others show that a caretaker is maintained at the Fair Grounds at a salary of \$100.00 per month, which is paid from the General Fund, of the County. We believe that such payment, being entirely in connection with the County Fair, should be paid from the Fair Fund rather than from the General Fund. You have a special levy for fair purposes and the complete cost of operating and maintaining the fair should be paid from this fund and from the receipts of such fair.

Claim No. 29306, to Lake County for migratory stock tax refund, was paid entirely from the General Fund. Such taxes when collected should be placed in the Migratory Stock Fund until finally distributed among the counties affected, and if the tax has been distributed the refund should be made from all the funds instead of placing the entire burden on the General Fund.

All the claims of Commissioner Lehsou show a mileage charge for attending meetings in the amount of 75 cents with no mention of the number of miles traveled. The law provides that each Commissioner shall receive 10 cents per mile for each mile so traveled and we cannot reconcile the amount charged unless the charge is based upon  $3 \frac{3}{4}$  miles each way, which would be a very unusual charge as even miles are always charged in most public affairs. A more complete itemization should be made of such claims.

Claim No. 29310 allows two shifts in one day as a Deputy Sheriff at \$5.00 per shift, or \$10.00 for the day's services. There is no such thing as an eight hour shift for any county officer or deputy/officer. His working hours are set by law as, from 9 A. M. to 5 P. M. and such other time as may be necessary, and there is no provision for extra time or over time.

Claim No. 30457 of J. C. Rodgers for work at the Fair Grounds, and other similar claims which were paid from the General Fund, are subject to the same criticism as Claim No. 27856 mentioned above.

In entering the cases in his register, the Coroner must list all personal effects that are found on the deceased, showing the disposition of same, regardless of whether or not there are relatives present.

We resubmitted to the Attorney General the question as to whether or not it was legal for the County to purchase automobiles for the use of the County Commissioners, and again he has held that such a procedure is illegal, and the County cannot purchase automobiles for such purpose. Missoula County has three cars, one for each Commissioner, and under this opinion of the Attorney General there is no lawful authority for the purchase of any of these cars.

Respectfully submitted,

G. M. Robertson,  
State Examiner.

ASSESSMENT LETTER - TO COUNTY ASSESSOR:

The Board delivered the following letter relative to assessing to County Assessor D. B. Currie:

February 28th, 1931.

Mr. D. B. Currie  
County Assessor  
Missoula, Montana.

Dear Sir:

The Board of County Commissioners has made a careful examination of the assessment of various classes of property in Missoula County, and from the report of the State Board of Equalization, has made a careful comparison of assessments of Missoula County and other counties in the State, and at this time wishes to call your attention to certain facts in regard thereto, which seems to it very pertinent.

The Board, as you know, has had a valuation record prepared by J. C. Clemenshaw Company, in which values are placed upon all real estate and improvements in the City of Missoula and adjoining additions and Bonner and Milltown, and upon certain industrial <sup>plants and</sup> utilities lying outside the city. A comparison of this record with the assessment roll of 1930, prepared by you, discloses the following:

The record of the J. C. Clemenshaw Company shows that both increases and decreases were made in assessment values which result in an increase of assessment of approximately \$665,752.00

and as this class of property is taxed upon a 30% basis, the increase in valuation for the purpose of figuring taxes would amount to approximately \$221,900.00 if the Cleminshaw figures are adopted.

As you know, the Board of County Commissioners must sit as a Board of Equalization to adjust the various values in assessments between individual taxpayers, so that all taxpayers will be assessed upon a fair basis. This record was prepared primarily for the use of the Board in making the equalization of values required of it by law, and was made up by the Board under a contract, after a decision of our Supreme Court declaring that the Board had the power to do so.

Under Section 2113, R.C.M. 1921, the Board cannot sit for a period longer than four weeks to make equalizations, and therefore, in order to make the work which has been done effective, it will be necessary for you to adopt all the valuations made by the Cleminshaw Company in making up your 1931 assessment. This entire record is in the office of the County Clerk and Recorder and will be available for you at all times and we sincerely trust that you will make it the basis for your assessment of all real property values this year.

We wish to call your attention further to certain items of assessment and the facts below referred to by us may be found in the report of the State Board of Equalization for the year 1930.

We find that the average value upon irrigated lands in Missoula County is the highest of any county in the state. Referring to page 35 of the report, you will find that the following valuations are placed upon irrigated lands in several of the counties:

|                    | <u>Average Assessment</u> |
|--------------------|---------------------------|
| Lewis and Clark    | \$ 40.00 per acre         |
| Gallatin County    | 61.80 " "                 |
| Powell County      | 41.70 " "                 |
| Ravalli County     | 57.02 " "                 |
| Lake County        | 22.28 " "                 |
| Sanders County     | 56.74 " "                 |
| Missoula County    | 69.66 " "                 |
| Granite County     | 59.75 " "                 |
| Yellowstone County | 69.12 " "                 |

We have had a number of complaints from land owners in various parts of the county and would be glad to cooperate with you in any way possible if you so desire, to endeavor to equalize these values in making the assessments, as there is hardly time to go over all the cases when the Board meets as a Board of Equalization.

Referring to the other classes of property, in a search of our neighboring counties we find from the report of the Board of Equalization the following facts.

|----------------------|------------|
| Lewis & Clark County | 344,307.00 |
| Missoula County      | 264,530.00 |

In making the above comparisons, we have picked out the counties of the Fourth Class or less and we are at a loss to see why there is such a discrepancy between the assessed valuations of these counties and our own, unless there is a considerable quantity of property which is not returned to your office in the assessment. For instance, Missoula falls far short of the other counties in regard to livestock, and in fact every other classification, with the possible exception of merchandise, and that can be accounted for by the fact that all the stocks on hand in the lumber yards and mills surrounding Missoula are included in that class.

We believe the assessments of hotel furniture and fixtures, hospitals and pool rooms and barber shops are far short of what they should be in a county of the population and size of this one.

We are therefore urging you, in making up your 1931 assessments, to use your utmost efforts to see that every item of taxable property is returned upon the lists.

That the information may be available to this Board, when it sits as a Board of Equalization, you are instructed to note upon your assessment lists in the case of hotels, hospitals and rooming houses, the number of rooms and the character of the furniture therein; also the number of pool and billiard tables and the number of chairs in each barber shop. In fact, a complete itemization of all assessable property should be made in the lists that are returned to your office. We believe that stocks of merchandise in the stores should be assessed upon the inventory value and firmly believe that such method will result in an equalized assessment to all merchants.

Trusting that the Board may have your fullest co-operation in these matters,

Yours very truly,

BOARD OF COUNTY COMMISSIONERS,  
Missoula County, Montana.

HEARING ON BUDGET INCREASE:

In accordance with an order made March 17th, 1931 by the Board of County Commissioners and published in The Daily Missoulian March 18th, 1931, the Board held a public hearing on the matter of Increase of Budget.

Mrs. Esther Maloney of West Pine Street appeared before the Board and verbally protested against further increasing of the budget, and suggested in order to care for the in Poor/the present emergency, the Board write to --- President Hoover and solicit some of the relief funds that were appropriated at the last session of Congress.

Lea Marsten of East Missoula and Morris Solomon of East Front Street appeared before the Board suggesting that the names of all persons who receive County Aid be published in the newspaper as part of the proceedings of the Board of County Commissioners the same as Mothers' and Old Age Pensions.

On motion by Commissioner Lehsou seconded by Commissioner Nelson that the Board order the following increase in the County Budget in accordance with Section 6, Chapter 148, 1929 Session laws:

|                                     |                  |
|-------------------------------------|------------------|
| County Poor Farm Supplies - - - - - | \$ 5,200.00      |
| Outside Poor Care - -b- - - - -     | <u>10,000.00</u> |
| Total increase                      | \$ 15,200.00     |

for the reason that it appears to the Board that certain claims against Missoula County are unpaid by reason of the fact that the amounts allowed in the Budget for the various items were not sufficient and that said budget is therefore exhausted, and the Board, after giving the matter due consideration declared, that, in their judgment, the various claims above mentioned are for mandatory expenses and that an emergency does now exist and that it is necessary and proper that the budget be increased as aforesaid. Upon roll call

Chairman Angevine voted Yes  
Commissioner Lehsou voted Yes  
Commissioner Nelson voted yes.

There was no one voting No, and the Motion was declared unanimously carried.

The Board attended to routine matters.

PETITION - ED HAMEL ET AL:

The Board received and ordered filed a petition from Ed N. Hamel et al, as follows:

BOARD OF COUNTY COMMISSIONERS,  
MISSOULA COUNTY, MONTANA.

Gentlemen:

The undersigned, farmers and land owners of Missoula County, hereby request your honorable body to take such steps as may be necessary to have the assessed valuations for farm and grazing lands and improvements properly equalized.

We note with interest your letter of March 2nd to the County Assessor and in view of the fact that our lands appear to be assessed at the highest valuation in the state, we feel that we should have some reduction. From the information contained in your letter, it would appear that personal property generally has not been bearing its just proportion of the tax burden.

We wish to commend your action in securing an equalization of values in the city and surrounding additions and insist that you see to it that all classes of property be assessed and equalized as nearly as possible so that all may bear a just portion of the burden as is contemplated by the law.

Respectfully yours,

The Board took the matter under advisement.
