EXAMINER'S NOTES

Road Fund Warrant #5526 and several others have been paid by the Treasurer without endorsement. The Treasurer should insist that all warrants be properly endorsed before same are paid.

We note that it has become a custom of the Treasurer to pay the small warrants and register the larger ones. The law does not make any distinction between large and small warrants and all must be handled in the same manner. If you are registering warrants on a fund, you must register all warrants and not give preference to the smaller ones, the law is very specific in this regard.

The petty ledger of district schools has not been balanced since February 1925. The monthly balance sheet must be made out in full each month and a proper reconciliation made with the general ledger account. All back months must be written up to date as soon as possible.

We note that the Missoula Irrigation district is overdrawn in the amount of \$108.89. Care should be taken to see that no items are paid unless there is sufficient money in the fund to cover same.

Accounts must be opened up with the several eastern banks at the time that remittance is made to cover bond and interest and the practice of running a debit slip through at the time of remittance must be discontinued.

It appears that Road Warrant #6328 which was cancelled by the County Clerk, in some manner became mixed up with the warrants paid during the month of June, 1925, and was taken unto account by the Treasurer as a paid warrant. Later on, the County Clerk had to make a similar accounting in order to reconcile with the Treasurer. The Treasurer should have been over in his cash in this amount and the same should have been refunded to the county, and correcting entries made.

We note that a one hundred dollar bond of the series of 1881 which were due in 1896, is still outstanding. Undoubtedly this bond is lost and we would suggest that

same be ordered cancelled by the Board and that the Clerk make a proper journal entry to clear this account.

We find that there are small balances in the Land Classification, Insect Pest and Institute Funds. These funds are all inactive now, apparently having served their purpose and we would suggest that same be closed out by transferring the first two to the general fund and the latter to the general school fund.

The official bonds were found to be properly approved, recorded and filed as provided by law.

\$195.00 should be transferred from the Clinton Irrigation District to the Estate Fund to rectify the error as previously noted in this report.

We were pleased to find that a start has been made in bringing up to date a full and complete road record. The law provides that such a record shall be kept and we hope that in the near future your road record may be brought up to date in every detail.

Claim #10618 allows a commission of 5% for the collection of the Special Poor Tax, while Claims #10629 and #17254 allow 10% for the same service. It would seem that a uniform rate should be allowed at the rate of 5% for both road and poor tax collections.

Claim #10852 of H. D. Fisher, #19856 of Ed Grant and others claims are not sufficiently itemized as to comply with the law. the wording "For services rendered," cannot be accepted as an itemization.

Claim #12010 is not properly itemized, not showing the number of miles travelled or the basic rate charged.

We find a great many claims of prohibition investigators that are not itemized as provided by law. These claims are no different than other class of claims and must be fully itemized. We also note that Missoula County has been imposed upon and overcharged by these men in some cases. In other counties these men charge for their services at the rate of \$5.00 per day with an allowance for board and room in amount of \$3.50 per day, but Claim #13715 makes a charge of \$8.50 per day, with an additional \$3.50 per day for board and room. We are at a loss to know just why Missoula County should pay a higher rate than any other county for similar services of these men, and we believe that a refund should be demanded.

Claim #14152 reads, "To board of prisoners as per attached receipts," but there are no receipts attached and the claim is therefore lacking as to itemization. Claim #14153 is very similar, there being no receipts attached. All claims should be fully itemized upon the claim itself as attached slips are easily lost in handling.

Claim #15113 in amount of \$119.87 was a duplicate payment, as the same item appeared on claim #15059. The amount was refunded, when same was called to the attention of the claimant by the Examiner.

Claim #15131 and others allow a salary in amount of \$150.00 per month for the services of a so-called abstractor. There is no such an officer as an abstractor, such work being done by the County Clerk or his deputies and \$137.50 per month is the maximum that can be allowed to such party while acting as a Deputy County Clerk.

Claim #16503 reads "To securing evidence in case of State vs Cornell and State vs Gilbert, "60.00." The Board of County Commissioners have absolutely no right to pay a claim in this form as it certainly does not comply with the law as to itemization, and it is impossible for any one to determine the validity of a claim in this form.

Claim #16544 and 16545 for services as special deputy sheriff, allow \$5.00 per day for such services which is in excess of the maximum allowed by law.

You will note from the foregoing report that the net indebtedness has increased during the past year in the amount of \$69,025.00. Every possible effort should be made to

Keep the expenditures within the revenue.

We note that the shortage in the accounts of former Administrator Mr. E.M. Roberts, have not been fully paid up. It would seem that Mr. Roberts has had sufficient time to pay this money unto the Treasury and unless it is taken care of in the very near future, we believe that suit should be instituted against his bondsmen in order that the heirs of these estates may be properly protected. In many cases his records are very incomplete, especially as to the estate of E. V. Johnson. All records should be written up promptly by Mr. Roberts.

The balances in all estates prior to 1911, the McAuley, Houle, Matton, Rocksine, Racey, Discharme, Tice and Schadler estates should be transmitted to the State Treasurer by the County Treasurer as Escheated Estates. This would clear up all of these old estates and in most of them the District Court has issued an order to this effect but same has not been complied with by former Treasurers.

We wish to express ^{our} appreciation of the courtesies tendered us during the course of the examination.

Respectfully submitted,

A. E. Williamson

YELLOWSTONE TRAIL MAINTENANCE. RESOLUTION.

State of Montana }
County of Missoula } ss

Re the Matter of Cooperation with the U.S. Department of Agriculture in the Construction and Maintenance of the Yellowstone Trail, particularly the County Line Section thereof.

Whereas, under date of February 6, 1924, the Board of County Commissioners of Missoula County, Montana, applied to the Secretary of Agriculture of the United States for cooperation in the construction of the Yellowstone Trail forest road, and a cooperative arrangement has heretofore been entered into between the said Board of County Commissioners and the Secretary of Agriculture, which is evidenced by a cooperative agreement signed by the said Secretary on May 21, 1924, covering "the survey and plans, construction and maintenance of the project known as the Nine Mile Section of the Yellowstone Trail, located between the end of the Huson Section of the Yellowstone Trail and approximately the C. M. & St. P. R. R. crossing, terminal points;" and,

Whereas, the Board of County Commissioners and the Federal Government now desire to proceed with further improvements of the route, particularly that section thereof known as the "County Line Section;" and,

Whereas, this Board believes that the Department of Agriculture will presently have available sixty-five thousand dollars (\$65,000.) to finance its share of the cost of construction; and,

Whereas, this Board and field representatives of the Department of Agriculture have arrived at a tentative agreement that for continuation of improvement of the Yellowstone Trail the Federal Government will furnish sixty-five thousand dollars (\$65,000) and Missoula County ten thousand dollars (\$10,000), the county's share to be provided from its road levy:

Now, Therefore, it is ordered that the county agency authorized by Montana law to disburse its funds shall remit to the Bureau of Public Roads at Portland, Oregon, or to such depository as that Bureau may direct, the sum of ten thousand dollars (\$10,000) as Missoula County's share of the cost of construction of the aforesaid "County Line Section"; said remittance shall be made at such times, and in such amounts as the Bureau of Public Roads may request.

EXAMINER'S NOTES

The law with reference to the approval of depository securities by the Board of County Commissioners, has not been complied with in many respects. The statute provides that at the time of approval, a complete minute entry shall be made and that after the acceptance of any security, the same must be re-approved quarterly thereafter. Proper minute entry has not been made and we find no record of the required reapproval. The Board has been very lax in this important matter and in fact, had approved bonds that have not been executed by the depository bank, as noted previously in this report. In view of the loss sustained by the County due to faulty securities at the time of the closing of the American Bank and Trust Company, it should be quite evident that the matter of depository securities and their approval is one of the most important duties of the Board of County Commissioners. We must insist that all securities be placed in proper form at once and that in the future, the statutes be complied with in every particular, in order that the funds of your County may be properly safeguarded.

Proper transfer must be made by the County Treasurer to correct the error in crediting A 101 Receipt #2225 to the General Fund, instead of to the Trust Fund of the Clerk of the Court.

Many of the official bonds show the expiration date as January 1, 1927,

instead of the close of the term of office, which will be January 2, 1927. This matter was taken up with the local agent of the bonding company, and no doubt will be corrected.

This report shows a decrease in the indebtedness of Missoula County during the past year in the amount of \$57,114.09, which is ^{very} commendable, though we must not overlook the fact that \$28,178.93 was received from Lake County, and was applied upon the outstanding indebtedness.

The fees collected by the several officers were properly accounted for, as previously noted in this report.

The County Clerk's Trial Balance should be divided into two sections, one for the County Accounts, and the other for the Trust and Agency accounts, and each should balance separately.

All claims, such as covering traveling expenses, must be fully itemized by setting forth each item of expense.

Claim #20178 and other similar claims for mileage must show the number of miles traveled and the basic rate charged per mile.

We find a great many Commissioners' claims for viewing and inspecting roads and bridges, the legality of which could not be determined on account of the incomplete itemization of the claim. In order that you may be fully advised as to your powers and duties, we would call your attention to the recent opinion of the Attorney General, with reference to viewing and inspecting of highways and bridges.

Considerable clerical work may be eliminated by combining all claims of one claimant where possible, and paying same by one warrant. For instance, in September, 1926, the Sheriff received seven separate warrants in payment of seven claims. By fastening these claims together and paying by the issuance of only one warrant, six-sevenths of the clerical work could be eliminated in the office of the Clerk and Treasurer. We find many similar cases to this and other claimants, causing a great deal of unnecessary work.

Claim #3317 of the Coronor makes a charge at the rate of 12½ cents per mile for mileage. This rate is excessive for the reason that the mileage of the Coronor is fixed by statute at the rate of 10 cents per mile.

As a whole, the claims for the period examined were found to be in very good form.

The accounts of the Public Administrator were very incomplete, many receipts and disbursements not having been entered in the register, which made it necessary to take the figures as shown in this report, from the records of the County Treasurer. All entries must be made at once, and the several estates reconciled with the accounts of the County Treasurer. Some disposition should be made of the balances carried in the old estates, and we would request that the Treasurer and the County Attorney take the matter up with the Administrators who handled these estates, or with the Judge of the District Court, in an effort to eliminate as many of these old balances as possible.

We find several accounts overdrawn in the office of the County Treasurer, a condition which should never exist, as you have no right to borrow from one fund to pay items chargeable to another, which is the result in cases of overdrafts.

Respectfully submitted,

EXAMINER'S NOTES

Some disposition should be made of the slight cash overage in the office of the County Treasurer.

In December, 1923, a Prohibition Enforcement Revolving Fund in amount of \$200.00 was established and placed at the disposal of the Sheriff and the County Attorney. In view of the fact that the State Prohibition Law has been repealed, it would seem that this Fund could be discontinued at this time and the money returned to the General Fund of the County.

We note that the Insect Pest Fund has remained unchanged for the past two years, and for this reason it would appear that there is no further use for such a fund. If this is the case, the fund should be abolished by transferring the remaining balance in amount of \$8.75 to the County General Fund, as there are no warrants outstanding against said fund.

In the past, the Commissioners have not made suitable provision for the Sinking Fund, with the result that at this time, the fund is considerably below the legal requirements. The statute makes it the duty of the Board to make a tax levy sufficient to pay the interest and also to provide for a sinking fund for the retirement of the bonds when they become due, and we must insist that this be done in the future.

The cash overage in the Auditor's Petty Cash Fund, should be eliminated by deducting same from the next Claim for the reimbursement of this fund.

In remitting the December fees to the County Treasurer, the Sheriff erroneously remitted the amount of his deductions for mileage, etc., instead of the amount of the fees collected, they being shown in adjoining columns in the fee book. This caused a shortage in the remittance in the net amount of \$18.10, which must be remitted to the Treasurer.

The Official Bonds of the several officers were found to be properly approved, recorded and filed, as provided by law.

We wish to call your attention to the importance of keeping a full and complete record of the roads and highways in your county. In traveling over the State, we find a great many counties having considerable trouble with reference to the titles of road right-of-ways. In many of such cases the roads have been traveled by the public for many years but the County did not keep a proper record and many of the necessary facts could not be proved in court in order that the rights of the county could be established. You cannot be too careful in obtaining easements of way for your highways, and in keeping a full and complete record of the establishment of all roads, together with correct plats of same. Such a record may prove of inestimable value in years to come and may avoid legal entanglements.

With few exceptions the Claims for the period of this examination were found to be in legal form and properly approved by the Board of County Commissioners.

Claim #6873 of Ethel E. Lassell for witness fees in the amount of \$50.00 should be fully itemized and not just shown in the lump sum.

Claim \$7235 for engineering work on highways, should have been paid from the Road Fund instead of from the General Fund. Claim #7236 and a few others are subject to this same criticism. Care must be taken to see that all claims are paid from the proper fund.

Compared

Claim #7266 of the Montana Association of County Commissioners in the amount of \$15.00 is in payment of services rendered during the year 1926. The recent legislature passed a law authorizing payments of such as this but the law contains no retroactive features and therefore could not be construed as covering services rendered prior to the passage and approval of the Act.

Claim #7306 is not properly extended; the amount claim should have been \$27.00 and not \$15.00 as allowed and paid.

Claim #7322 of the Sheriff of Granite County, charges a cervice fee for the service of a subpoena. The statute exempts counties from the payment of fees of this kind, and only the mileage charge should be allowed.

The comparative statement of the Net Indebtedness of the county shows that the indebtedness has been increased during the past year. Every effort should be made to keep the expenditures of the county within the revenue collected.

Respectfully submitted

SALARY CARE TAKER AT POOR FARM:

Commissioner Angevine presented the following:

I find from an investigation of the conditions at the County Poor Farm and from the records of Missoula County, that there are now forty-two boarders living at that institution and that it is impossible for Mr. and Mrs. Coultas to properly care for all of them without employing some help.

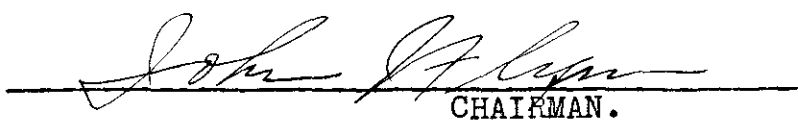

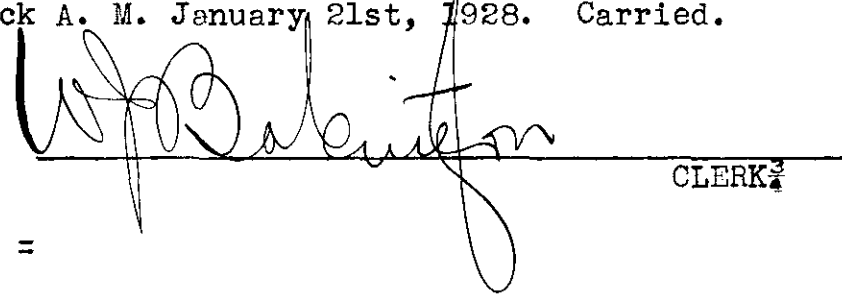

I further believe that Mr. and Mrs. Coultas are not now paid enough money to warrant them in employing help to care for the boarders, and I therefore move that Mr. and Mrs. Coultas be given an increase in salary of Twenty Dollars (\$20.00) per month, beginning with the first day of January, 1928, in order that they may employ competent help to properly care for the persons who are unfortunately confined in the County Poor Farm.

Jan. 20, 1928. R. W. ANGEVINE, Co. Comr.

The motion was seconded by Commissioner Wilbur. On roll call the vote was as follows: Chairman Flynn, yes; Commissioner Wilbur, yes; Commissioner Angevine, **yes**. The motion was carried unanimously.

RESOLUTION:

The following resolution was offered by Commissioner Angevine:

BE IT RESOLVED That in order that the Board of Equalization may have the proper information and facts upon which to base its decisions, and in order to assure the listing of all Classes of property and the more equitable distribution of the tax burden, the County Assessor be requested to assess the various classes of property as follows:

- (a) All improvements as returned by the Valuation Board.
- (b) All goods, wares and merchandise on inventory of such.
- (c) Count all livestock consisting of cattle, horses and mules, sheep, swine, poultry and miscellaneous stock.
- (d) Assess furniture of all hotels and rooming houses per room; barber shops per chair and pool halls per table.
- (e) Garages should be required to file itemized list of all cars and equipment.
- (f) Assess all libraries, private and professional; office and household furniture and fixtures.

We believe if these suggestions are adopted by the County Assessor that it will result in material benefits to the County and will create a more general satisfaction among taxpayers. Commissioner Angevine moved the adoption of the above resolution which was seconded by Commissioner Wilbur. On Roll Call the Vote was as follows: Chairman Flynn, No; Commissioner Wilbur, Yes; Commissioner Angevine, Yes; Motion carried.

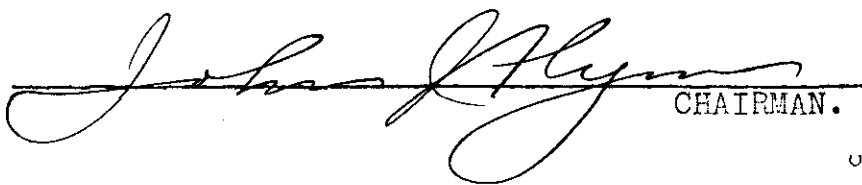

Chairman Flynn made the following statement: My reason for not voting "Yes" on the above resolution. The Statute prescribes the duties of the County Assessor and how those duties should be performed. The Board of County Commissioners has no power to tell the County Assessor how to assess property, but the Board of County Commissioners sitting as a Board of Equalization has the right, and it is their duty, to raise or lower the assessment, if, in their judgment, it should be raised or lowered. Then if the party assessed is not satisfied, he may appeal to the State Board of Equalization for relief. But, in my belief, the Assessor, in making assessments, should not be bound to make assessments in accordance with the return of any Valuation Board appointed by the Board of County Commissioners or any one else. (Signed) John J. Flynn.

The Board received and ordered filed order from the State Fire Marshal, their file no. 484 relative to fire hazard on the building on the W. 1/2 of Lot 5, Block 56, McCormick's Addition
