FRENCHTOWN DELEGATION

At 10 o'clock A. M. a delegation from School District No. 40 appeared before the Board of County Commissioners and County Superintendent, Winnafern H. Moore, urging the creation of School District No. 40 as a High School Building District. After considerable discussion motion made by Commissioner Parsons and seconded by Chairman Bourdeau that this Commission adjourn to meet at 3 o'clock P. M. with delegates from Missoula County High School, Grass Valley, De Smet, Arlee and Alberton. Motion carried unanimously.

The Welfare Board examined, approved and ordered filed a list of the cases disposed of by the Welfare Board.

FRENCHTOWN DELEGATION

At 3 o'clock P. M. the Board of County Commissioners and County Superintendent, Winnafern H. Moore reconvened as a school board commission for further study of proposed High School Building District for School District No. 40. Edward T. Dussault was present stating that he was present representing the people of School Districts No. 3 & 20 opposing being included in proposed building district No. 40. Attorneys Krest Cyr and Oskar Lympus represented the residents of School District No. 40 and they stated their reasons why the people of School District No. 40 wanted this Building District created at this time. Considerable discussion pro and con was then heard by this commission which was composed of the Board of County Commissioners and County Superintendent, Winnafern H. Moore.

Motion made by Commissioner Rawn that School District No. 40 be created as a High School Building District. There being no second to this motion it was killed at this time.

Motion then was made by Commissioner Parsons and seconded by Chairman Bourdeau that we leave it as one district, with Missoula County High School. Attorneys Lympus and Cyr immediately argued that this motion as made by Mr. Parsons was improper and declared same illegal.

A substitution motion was then made. Motion made by Commissioner Rawn that School District No. 40 be created as a High School Building District with the balance of the County being left in another High School Building District. Motion seconded by County Superintendent, Winnafern H. Moore.

Roll call of Vote:

Chairman Bourdeau,	"No"
Commissioner Parsons,	"No"
Commissioner Rawn,	"Yes"
County Supt. Winnafern H. Moore	"Yes"

There being a tie vote the motion was declared lost and meeting adjourned at approximately 5:20 P. M.

March 8, 1950

Mr. Boyd A. Bourdeau
Chairman
Board of County Commissioners
COUNTY OF MISSOULA
Missoula, Mont.

Dear Mr. Bourdeau:

Your letter of March 7th with your advertisement "Notice of Call of Bids" received. We wish to thank you for bringing this to our attention.

GRAVELY singularly is the machine that will meet your desired specifications. In fact GRAVELY goes several steps further to give you a machine superior in design and construction, as well as longer life, and better service from whom you purchase. The traction unit gives you Two Speeds forward as well as REVERSE. GRAVELY is completely gear driven, designed and constructed like any larger automotive product. The mower unit has its own reverse for self sharpening. The mower also follows the contour of the ground independent of traction wheels. This means smoother cut in all conditions.

Our Blade snow plow is reversible. However, it is not necessary to tighten and loosen nuts and bolts to change the angle. Just pull the pin to do the job either right or left or as a bulldozer.

Prices quoted F. O. B. the Court House in Missoula. All equipment completely serviced. Delivered by our Missoula Dealer, Mr. Glenn A. Baker of Hamilton, Mont. Operated and instruction given to your operator.

Model "L" Gravelly Traction Unit. 5 H.P. 4 cycle Gravelly Motor. Completely gear transmission and automotive differential.

CLOSING OF ALLEY

At 10 o'clock A. M., which was the time as advertised for the public hearing of closing of alley in Block 79 in Daly Addition No. 2, there were two property owners present in favor of closing of said alley. There being no objections received nor any objectors present motion made by Commissioner Rawn and seconded by Commissioner Parsons that the petition be granted subject to the right of public utilities to use said alley but that public utilities repair any damage which might be done by them either to the property or to the ditch. RESOLUTION

Resolution made, passed and adopted this 2nd day of June, 1950 by the Board of County Commissioners of Missoula County, witnesseth:

WHEREAS there has been previously presented to the Board of County Commissioners a petition in writing of all the owners of lots in Block 79 of Daly's Addition Number 2 requesting that the alley running through said block be vacated and discontinued and,

After considerable discussion motion was made by Commissioner Rawn and seconded by Commissioner Parsons that the following Zoning Resolutions for Hale Field and Missoula County Airport as recommended by the Missoula County Airport Zoning Board be accepted at this time. Motion carried unanimously.

ZONING RESOLUTION FOR MISSOULA COUNTY AIRPORT

A RESOLUTION REGULATING AND RESTRICTING THE HEIGHT OF STRUCTURES AND OBJECTS OF NATURAL GROWTH, AND OTHERWISE REGULATING THE USE OF PROPERTY, IN THE VICINITY OF THE MISSOULA COUNTY AIRPORT, BY CREATING AIRPORT APPROACH AND TURNING ZONES AND ESTABLISHING THE BOUNDARIES THEREOF: PROVIDING FOR CHANGES IN THE RESTRICTIONS AND BOUNDARIES OF SUCH ZONES: DEFINING CERTAIN TERMS USED HEREIN: PROVIDING FOR ENFORCEMENT: ESTABLISHING A BOARD OF ADJUSTMENT.

In pursuance of the authority conferred by Sections 1-701 to 1-723 inclusive, Revised Codes of Montana, 1947, and for the purpose of promoting the safety, convenience and general welfare of the inhabitants of Missoula County, by preventing the creation or re-establishment of airport hazards, thereby protecting the lives and property of users of the Missoula County Airport and of occupants of land in its vicinity and preventing destruction or impairment of the utility of the Airport and the public investment therein:

BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF MISSOULA COUNTY, MONTANA:

Section 1. Short Title. This resolution shall be known and may be cited as the "Airport Zoning Resolution of Missoula County Airport, Missoula County, Montana."

Section 2. Definitions. As used in this resolution, unless the context otherwise requires.

(1) "Airport" means Missoula County Airport.

(2) "Airport hazard" means any structure or tree or use of land which obstructs the airspace required for the flight of aircraft in landing or taking-off at the airport or is otherwise hazardous to such landing or taking-off of aircraft.

(3) "Non-conforming use" means any structure, tree, or use of land which does not conform to a regulation prescribed in this resolution or an amendment thereto, as of the effective date of such regulation.

(4) "Person" means any individual, firm copartnership, corporation, company, association, joint stock association or body politic, and includes any trustee, receiver, assignee, or other similar representative thereof.

(5) "Structure" means any object constructed or installed by man, including, but without limitation, buildings, towers, smokestacks, and overhead transmission lines.

(6) "Landing area" means the area of the Airport used for the landing, take-off, or taxing of aircraft.

(7) "Tree" means any object of natural growth.

Section 3. Zones. In order to carry out the purposes of this resolution, all of the land within the boundaries of the Airport and within two miles of the landing area of the Airport, is hereby divided into airport approach zones and airport turning zones, the boundaries of which are shown on the Missoula County Airport Property Zoning & Obstruction Map, Exhibit "A", Dated December 15, 1948, which is attached hereto and hereby made a part hereof.

Section 4. Height Limits. Except as otherwise provided in the resolution, no structure or tree shall be erected, altered, allowed to grow, or maintained in any airport approach zone or airport turning zone to a height in excess of the height limit herein established for such zone. For purposes of this resolution, the following height limits are hereby established for each of the zones in question:

THE AIRPORT TURNING ZONE IS the area above the Horizontal Surface.

THE HORIZONTAL SURFACE is a plane circular in shape with its center 150 feet above the elevation of the AIRPORT REFERENCE POINT and having RADII of 2 miles from the ends of each runway.

THE AIRPORT REFERENCE POINT IS a point on the Airport in the Center of the triangle formed by the intersections of Runways 34, 29, and 25, (Compass Magnetic Headings), and designated as being at an altitude of 3195 feet above sealevel.

(An area of terrain surface or natural ground above the HORIZONTAL SURFACE extends in the AIRPORT TURNING ZONE.)

AIRPORT HAZARDS on the Terrain or natural ground above the HORIZONTAL SURFACE are limited to a height of 50 feet above the ground.

THE AIRPORT APPROACH ZONE is the area below the HORIZONTAL SURFACE over the runways and over the inclined planes of the TRANSITION SURFACES and APPROACH SURFACES.

THE TRANSITION SURFACES are inclined planes with a slope of 1:7 measured upward and outward from parallel lines, one on each side of each runway. These parallel lines are at a horizontal distance from the runway center line equal to one-half the width of the runway. TRANSITIONAL SURFACES extend from the edges of all APPROACH SURFACES upward to the intersection with the HORIZONTAL SURFACE.

THE APPROACH SURFACES are inclined planes with a slope of 1:40, located directly above the APPROACH AREAS, and extended from the ends of the runways upward and outward to their intersection with the HORIZONTAL SURFACE.

THE APPROACH AREAS are symmetrically located with respect to the extended runway center line and bounded by lines running from the ends of the runways extending to a line directly below the intersection of the APPROACH SURFACES with the HORIZONTAL SURFACE, and flared to the width of approximately 4000 feet at 2 miles from the end of the runway.

Reference is made to the attached map diagraming the AIRPORT TURNING ZONE AND AIRPORT APPROACH ZONE OF MISSOULA COUNTY AIRPORT.

Section 5. Use Restrictions. Notwithstanding any other provisions of this resolution, no use may be made of land within any airport approach zone or airport turning zone in such a manner as to create electrical interference with radio communication between the Airport and aircraft, make it difficult for flyers to distinguish between airport lights and others, result in glare in the eyes of flyers using the Airport, impair visibility in the vicinity of the Airport, or otherwise endanger the landing, taking-off or maneuvering of aircraft.

Section 6. Non-conforming uses. The regulations prescribed in Sections 4 and 5 of this resolution shall not be construed to require the removal, lowering, or other change or alteration of any structure or tree not conforming to the regulations as of the effective date hereof, or otherwise interfere with the continuance of any non-conforming use. Nothing herewith contained shall require any change in construction, alteration, or intended use of any structure the construction of which was begun prior to the effective date of this resolution, and is diligently prosecuted and completed within two years thereof.

Section 7. Variances. Any person desiring to erect any structure or increase the height of any structure, or permit the growth of any tree, or use his property, not in accordance with the regulations prescribed in this resolution, may apply for a variance therefrom. Such variance shall be allowed where a literal application or enforcement of the regulations would result in practical difficulty or unnecessary hardship and the relief granted would not be contrary to the public interest but do substantial justice and be in accordance with the spirit of this resolution.

Section 8. Permits.

(1) **Future uses.** No material change shall be made in the use of land, and no structure or tree shall be erected, altered, planted, or otherwise established, in any airport approach zone or airport turning zone, unless a permit therefor shall have been applied for and granted. Each such application shall indicate the purpose for which the permit is desired, with sufficient particularity to permit it to be determined whether the resulting use, structure, or tree would conform to the regulations herein prescribed. If such determination is in the affirmative, the permit applied for shall be granted.

(2) **Existing Uses.** Before any existing use, structure or tree may be replaced, substantially altered or repaired, rebuilt, allowed to grow higher, or replanted, within any airport approach zone or airport turning zone, a permit must be secured from the administrative agency authorizing such replacement, change or repair. No such permit shall be granted that would allow the establishment or creation of any airport hazard or permit a nonconforming use, structure, or tree to be made or become higher, or become a greater hazard to air navigation, than it was on the effective date of this resolution or than it is when the application for a permit is made. Except as indicated, all applications for a permit for replacement, change or repair of existing use, structure, or tree shall be granted.

Section 9. Hazard Marking and Lighting. Any permit or variance granted under Section 7 or 8, if such action is deemed advisable to effectuate the purposes of this resolution and reasonable in the circumstances, be so conditioned as to require the owner of the structure or tree in question to permit the County Airport Board, at its own expense, to install, operate, and maintain thereon such markers and lights as may be necessary to indicate to flyers the presence of an airport hazard.

Section 10. Appeals

(1) Any person aggrieved, or taxpayer affected, by a decision of the Board of County Commissioners made in its administration of this resolution, or the administrative agency herein designated, if of the opinion that a decision of either is an improper application of this resolution may appeal to the Board of Adjustment for which provision is made in Section 12.

(2) All appeals taken under this Section must be taken within a reasonable time, as provided by the rules of the Board of Adjustment, by filing with the administrative agency and with the Board of Adjustment, a notice of appeal specifying the grounds thereof. The administrative agency shall forthwith transmit to the Board of Adjustment all the papers constituting the record upon which the action appealed from was taken.

(3) An appeal shall stay all proceedings in furtherance of the action appealed from, unless the administrative agency certifies to the Board of Adjustment, after the notice of appeal has been filed with it, that by reason of the facts stated in the certificate a stay would, in its opinion, cause imminent peril to life or property. In such case proceedings shall not be stayed otherwise than by order of the Board of Adjustment on notice to the administrative agency and on due cause shown.

(4) The Board of Adjustment shall fix a reasonable time for the hearing of the appeal, give public notice and due notice to the parties in interest, and decide the same within a reasonable time. Upon the hearing any party may appear in person by agent or by attorney.

(5) The Board of Adjustment may, in conformity with the provisions of this resolution, reverse or affirm, wholly or partly, or modify, the order, requirement, decision or determination appealed from and may make such order, requirement, decision, or determination as ought to be made, and to that end shall have the powers of the administrative agency.

(6) The Board of Adjustment shall make written findings of fact and conclusions of law giving the facts upon which it acted and its legal conclusions from such facts in reversing, or affirming, or modifying any order, requirement, decision, or determination which comes before it under the provisions of this resolution.

(7) The concurring vote of a majority of the members of the Board of Adjustment shall be sufficient to reverse any order, requirement, decision, or determination of the administrative agency, or to decide in favor of the applicant on any matter upon which it is required to pass under this resolution, or to affect any variation in this resolution.

Section 11. Administrative Agency. The Missoula County Airport Board is hereby designated the administrative agency charged with the duty of administering and enforcing the regulations herein prescribed. The duties of the said Airport Board shall include that of hearing and deciding all permits under Section 8, but the said Airport Board shall not have or exercise any of the powers or duties herein delegated to the Board of Adjustment.

Section 12. Board of Adjustment.

(1) There is hereby created a Board of Adjustment to have and exercise the following powers:

- (a) To hear and decide appeals from any order, requirement, decision, or determination made by the administrative agency in the enforcement of this resolution;
- (b) To hear and decide special exceptions to the terms of this resolution upon which such Board may be required to pass by subsequent resolutions;
- (c) To hear and decide specific variances under Section 8.

(2) The Board of Adjustment shall consist of 5 members, each to be appointed for a term of 3 years and to be removable for cause by the Board of County Commissioners upon written charges and after public hearing. In the first instance, one member shall be appointed for a term of 3 years, two for a term of 2 years, and two for a term of 1 year. Thereafter each member appointed shall serve for a term of 3 years or until his successor is duly appointed and qualified.

(3) The Board shall adopt rules for its governance and procedure in harmony with the provisions of this resolution, and Sec. 11-2707 Rev. Codes of Montana, 1947. Meetings of the Board shall be held at the call of the chairman and at such other times as the Board may determine. The chairman, or in his absence the acting chairman, may administer oaths and compel the attendance of witnesses. All hearings of the Board shall be public. The Board shall keep minutes of its proceedings, showing the vote of each member upon each question, or, if absent or failing to vote, indicating such fact, and shall keep records of its examinations and other official actions, all of which shall immediately be filed in the office of the Board and shall be a public record.

Section 13. Judicial Review. Any person aggrieved, or taxpayer affected by any decision of the Board of Adjustment, if of the opinion that a decision of the Board is illegal, may appeal to the District Court of the Fourth Judicial District of the State of Montana, in and for the County of Missoula, as provided in Sec. 11-2707 Rev. Codes of Montana, 1947.

Section 14. Penalties. Shall be as provided by Sec. 1-720 Revised Codes of Montana, 1947, quoted as follows:

Each violation of this regulation or of any regulation, order or ruling promulgated hereunder shall be punishable by a fine of not more than \$500.00 or imprisonment for not more than six months, or both such fine and imprisonment, and each day a violation continues shall be a separate offense.

Section 15. Conflicting Regulations. In the event of any conflict between the requirements of this resolution and any other regulations applicable to the same area, the more stringent limitation or requirement shall govern and prevail.

Section 16. Severability. If any of the provisions of this resolution or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the resolution which can be given effect without the invalid provision or application, and to this end the provisions of this resolution are declared to be severable.

Section 17. Effective Date. This resolution shall take effect June 21, 1950.

BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF MISSOULA COUNTY, MONTANA:

Section 1. Short Title. This resolution shall be known and may be cited as the "Airport Zoning Resolution of Hale Field, Missoula County, Montana."

Section 2. Definitions. As used in this resolution, unless the context otherwise requires.

(6) "Landing area" means the area of the Airport used for the landing, take-off, or taxing of aircraft.

(7) "Tree" means any object of natural growth.

Section 3. Zones. In order to carry out the purposes of this resolution, all of the land within the boundaries of the Airport and within two miles of the landing area of the Airport, is hereby divided into airport approach zones and airport turning zones, the boundaries of which are shown on the Hale Field Airport Zoning Plan number one and dated December 15, 1949, and Hale Field Airport Approach Plan number two and dated December 16, 1949, which are attached hereto and hereby made a part hereof.

Section 4. Height Limits. Except as otherwise provided in this resolution, no structure or tree shall be erected, altered, allowed to grow, or maintained in any airport approach zone or airport turning zone to a height in excess of the height limit herein established for such zone. For purposes of this resolution, the following height limits are hereby established for each of the zones in question:

THE AIRPORT TURNING ZONE is the area above the Horizontal Surface.

THE HORIZONTAL SURFACE is a plane circular in shape with its center 150 feet above the elevation of the AIRPORT REFERENCE POINT and having RADII of 2 miles from the ends of each runway.

THE AIRPORT REFERENCE POINT is a point on the airport in the center of the triangle formed by the intersections of the runways and designated as being at an altitude of 3180 feet above sea level.

(an area of terrain surface or natural ground above the HORIZONTAL SURFACE extends into the AIRPORT TURNING ZONE.)

AIRPORT HAZARDS on the Terrain or natural ground above the HORIZONTAL SURFACE are limited to a height of 50 feet above the ground.

THE AIRPORT APPROACH ZONE is the area below the HORIZONTAL SURFACE over the runways and over the inclined planes of the TRANSITION SURFACES and APPROACH SURFACES.

THE TRANSITION SURFACES are inclined planes with a slope of 1:7 measured upward and outward from parallel lines, one on each side of each runway. These parallel lines are at a horizontal distance from the runway center line equal to one-half of the width of the runway. TRANSITIONAL SURFACES extend from the edges of all APPROACH SURFACES upward to the intersection with the HORIZONTAL SURFACE.

THE APPROACH SURFACES are inclined planes with a slope of 1:20, located directly above the APPROACH AREAS, and extended from the ends of the runways upward and outward to their intersection with the HORIZONTAL SURFACE.

THE APPROACH AREAS are symmetrically located with respect to the extended runway center line and bounded by lines running from the ends of the runways extending to a line directly below the intersection of the APPROACH SURFACES with the HORIZONTAL SURFACE, and flared to the width of approximately 2500 feet at 2 miles from the end of the runway.

Reference is made to the attached maps diagraming the AIRPORT TURNING ZONE and AIRPORT APPROACH ZONES OF HALE FIELD AIRPORT.

Section 5. Use Restrictions. Notwithstanding any other provisions of this resolution, no use may be made of land within any airport approach zone or airport turning zone in such a manner as to create electrical interference with radio communication between the Airport and aircraft, make it difficult for flyers to distinguish between airport lights and others, result in glare in the eyes of flyers using the Airport, impair visibility in the vicinity of the Airport, or otherwise endanger the landing, taking-off or maneuvering of aircraft.

Section 6. Non-conforming uses. The regulations prescribed in Sections 4 and 5 of this resolution shall not be construed to require the removal, lowering, or other change or alteration of any structure or tree not conforming to the regulations as of the effective date hereof, or otherwise interfere with the continuance of any non-conforming use. Nothing herewith contained shall require any change in the construction, alteration, or intended use of any structure the construction of which was begun prior to the effective date of this resolution, and is diligently prosecuted and completed within two years thereof.

Section 7. Variances. Any person desiring to erect any structure or increase the height of any structure, or permit the growth of any tree, or use his property, not in accordance with the regulations prescribed in this resolution, may apply for a variance therefrom. Such variance shall be allowed where a literal application or enforcement of the regulations would result in practical difficulty or unnecessary hardship and the relief granted would not be contrary to the public interest but do substantial justice and be in accordance with the spirit of this resolution.

Section 8. Permits.

(1) Future Uses. No material change shall be made in the use of land, and no structure or tree shall be erected, altered, planted, or otherwise established, in any airport approach zone or airport turning zone, unless a permit therefor shall have been applied for and granted. Each such application shall indicate the purpose for which the permit is desired, with sufficient particularity to permit it to be determined whether the resulting use, structure, or tree would conform to the regulations herein prescribed. If such determination is in the affirmative, the permit applied for shall be granted.

(2) Existing Uses. Before any existing use, structure or tree may be replaced, substantially altered or repaired, rebuilt, allowed to grow higher, or replanted, within any airport approach zone or airport turning zone, a permit must be secured from the administrative agency authorizing such replacement, change or repair. No such permit shall be granted that would allow the establishment or creation of an airport hazard or permit a nonconforming use, structure, or tree to be made or become higher, or become a greater hazard to air navigation, than it was on the effective date of this resolution or than it is when the application for a permit is made. Except as indicated, all applications for a permit for replacement, change or repair of existing use, structure, or tree shall be granted.

Section 9. Hazard Marking and Lighting. Any permit or variance granted under Section 7 or 8 may, if such action is deemed advisable to effectuate the purposes of this resolution and reasonable in the circumstances, be so conditioned as to require the owner of the structure or tree in question to permit the County Airport Board, at its own expense, to install, operate and maintain thereon such markers and lights as may be necessary to indicate to flyers the presence of an airport hazard.

Section 10. Appeals.

(1) Any person aggrieved, or taxpayer affected by a decision of the Board of County Commissioners made in its administration of this resolution, or the administrative agency herein designated, if of the opinion that a decision of either is an improper application of this resolution may appeal to the Board of Adjustment for which provision is made in Section 12.

(2) All appeals taken under this Section must be taken within a reasonable time, as provided by the rules of the Board of Adjustment, by filing with the administrative agency and with the Board of Adjustment, a notice of appeal specifying the grounds thereof. The administrative agency shall forthwith transmit to the Board of Adjustment all the papers constituting the record upon which the action appealed from was taken.

(3) An appeal shall stay all proceedings in furtherance of the action appealed from, unless the administrative agency certifies to the Board of Adjustment, after the notice of appeal has been filed with it, that by reason of the facts stated in the certificate a stay would, in its opinion, cause imminent peril to life or property. In such case proceedings shall not be stayed otherwise than by order of the Board of Adjustment on notice to the administrative agency and on due cause shown.

(4) The Board of Adjustment shall fix a reasonable time for the hearing of the appeal, give public notice and due notice to the parties in interest, and decide the same within a reasonable time. Upon the hearing any party may appear in person or by agent or by attorney.

(5) The Board of Adjustment may, in conformity with the provisions of this resolution, reverse or affirm, wholly or partly, or modify, the order, requirement, decision, or determination appealed from and may make such order, requirement, decision, or determination as ought to be made, and to that end shall have all the powers of the administrative agency.

(6) The Board of Adjustment shall make written findings of fact and conclusions of law giving the facts upon which it acted and its legal conclusions from such facts in reversing, or affirming, or modifying any order, requirement, decision, or determination which comes before it under the provisions of this resolution.

STATE BOARD OF EQUALIZATION

July 10, 1950

TO THE BOARD OF COUNTY COMMISSIONERS
MISSOULA COUNTY, MONTANA

Pursuant to Section 3, Chapter 49, Laws of 1949, the State Board of Equalization has examined and considered the certified copy of the county poor fund budget for Missoula County, with attached certificates of the State Examiner and Public Welfare Department, and after conference with the heads of said departments and full agreement of all parties concerned as to all matters involved in the determination of the allowable levy under said Chapter 49, in excess of the regular poor fund levy of six (6) mills, and in view of the fact that said Act permits such levy only as is found necessary "to meet the appropriations for expenditures", and does not permit levy for creating a reserve, the amount for reserve of \$10,000.00 is directed stricken from the budget.

The State Board of Equalization finds and determines and does hereby certify that the Missoula County Commissioners shall levy for the year 1950 for the county poor fund, in addition to the regular poor fund levy of six (6) mills, two (2) mills, making a total levy of eight (8) mills.

By order of the State Board of Equalization.

COUNTY ATTORNEY OPINION

The Board received the following opinion from the Deputy County Attorney, R. W. Parker:

July 15, 1950

Board of County Commissioners
Missoula, Montana

Gentlemen:

Mr. A. M. Johnson, deputy state examiner, has called to our attention the fact that Missoula County Bridge Fund warrant No. 5546 in the sum of \$17,322.64 is still carried on the county books as a liability. As you know, this warrant was issued in connection with the construction

of the McClay bridge and payment was perpetually enjoined by the District Court on the 14th day of December, 1948, in the case of Ray Nash, et al. versus O. B. Parsons, et al. The time for perfecting an appeal in the case has passed and the warrant is null and void.

By statute, Sec. 82-1002 (2) R.C.M. 1947, the state examiner has the duty "to prescribe the general methods and details of accounting" for the counties.

As this warrant is null and void as illegally issued and as it is Mr. Johnson's desire to cancel this warrant and remove it as a liability from Missoula County's records, it is our opinion that the methods prescribed by him to accomplish that end be followed by all officers of Missoula County.

Yours truly,
S/ R. W. Parker

COUNTY ATTORNEY OPINION

The Board examined, approved and ordered filed the following opinion from County Attorney, Robert F. Swanberg, in regard to purchase of auto.

August 9, 1950

Board of County Commissioners
Missoula, Montana

Gentlemen:

This is in answer to your request for an opinion as to whether or not the Board is authorized to purchase an automobile for general county purposes.

On July 6th, 1950 Attorney General Olsen ruled as follows:

" * * I submit if a board of county commissioners decides that an automobile to be used for general county purposes is necessary for the proper functioning of county affairs, it has the power and authority to purchase such an automobile. The Board has the discretion to act in such matters and its discretion should not be

questioned in the absence of proof of an arbitrary or illegal use thereof. Said automobile must, however, be used exclusively for lawful and necessary county business. The use of said automobile for private purposes, or any other purpose, other than for lawful, necessary business of the county, by the members of the Board of County Commissioners or by anyone else would be a violation of the laws of the State of Montana."

I believe that this opinion is self-explanatory and that it supersedes and overrules previous opinions to the contrary by the attorney general's office.

Yours truly

RFS:rke

Hon. Board of County Commissioners and
County Surveyor
Missoula County
Missoula, Montana

Gentlemen:

The purpose of this letter is to serve as an alternate to our bid to supply your County with an AD-3 Allis-Chalmers Motor Grader which is in response to your specification agenda dated August 21st, at \$12,850.00 delivered.

We propose as an alternate to furnish our Model AD-4 which is identical in weight and construction in every detail with the AD-3 except that the AD-4 has a 4-cylinder, 104 horsepower engine. Our AD-3 meets the specifications set forth in your call in every way.

We, therefore, propose that our bid on the AD-3 be compared to competitors' machines in the 75 horsepower class because our AD-3 is 78 horsepower which exceeds specifications and we propose that this alternate on the AD-4 be compared to competitors' 100 horsepower machines.

In other words, we would like to suggest that it would be hardly fair to compare our 104 horsepower machine price to any competitors 75 horsepower machine. We, therefore, submit our original bid and this alternate for your consideration. The allowance we have made in the bid on the AD-3 for the Galion Motor Grader, which is \$2,000.00, will also apply to this alternate.

Yours very truly,

We are pleased to advise you that we can effect immediate delivery and it is our understanding that if we are successful bidders, we will receive delivery of the old patrol at the time the county wishes to accept delivery of the new unit.

FORT MISSOULA PETITIONS

The petitions in regards to the purchase of Fort Missoula were presented to the Board of County Commissioners by the County Clerk and Recorder's office.

This being the day set by the Board for the hearing and determining whether sufficient names have been attached to petitions filed in the Clerk & Recorder's office, for the calling of a Special Bond Election to be held on November 7th, 1950, and the Clerk & Recorder's affidavit concerning same having been read and made a part of these minutes as follows:

1. Petitions only contained 1305 names
2. TOTAL number of registered taxpayers whose names appeared on the last completed Assessment roll is approximately 8975,
3. Total required signers 1795,

AND WHEREAS, after due consideration and fully examining said petitions, in accordance with Section 16-2023, 1947 R.C.M., it is found by this Board that said petitions as filed in the County Clerk's and Recorder's office up to this date do not constitute 20% of the registered electors whose names appear upon the last completed assessment roll for Missoula County,

NOW THEREFORE, it is hereby declared that there has not, according to law, been enough signatures attached and filed in the County Clerk's office to petitions calling for a Bond Election to be held on November 7th, 1950.

It is therefore moved by Commissioner Rawn and seconded by Commissioner Parsons that the Petitions calling for a Special Bond Election to be held on November 7th, 1950, for the purpose of voting on the question of issuing County Bonds in the amount of \$150,000.00 for the purchase of Ft. Missoula, be denied.

Upon roll call Chairman Bourdeau voted "Yes"

Commissioner Parsons voted "Aye"

Commissioner Rawn voted "Aye"

There being no one voting "No" the petition was declared lost.

Mr. P. J. O'Brien and Mr. William Sheehan appeared before the Board in regards to these Fort Missoula Petitions. Mr. O'Brien read four (4) requests that he had prepared requesting the Board for action on various matters. Considerable discussion followed and County Attorney Robert F. Swanberg was present for this discussion.

Motion made by Commissioner Parsons and seconded by Commissioner Rawn that P. J. O'Brien's requests be denied and given back to him. Motion carried unanimously and these requests were returned to Mr. O'Brien.

PETITION TO CLOSE ALLEY

The Board examined, and ordered filed the following petition to close streets and alleyways in Car Line Addition, as requested by George Thibault.

To the Honorable Board of Commissioners
Missoula County,
Court House,
Missoula, Montana.

Gentlemen:

This is a request for the closing of certain streets and alleyways.

I own Block "W" and Block "X" in the CarLine Addition. This land is situated to the east of the Northern Pacific R/W. This land is mostly deep excavation from the removal of gravel, and has been a rather nuisance from the trespassing public because debris, trees and other refuse has been dumped therein. If these streets and alleyways are closed, it will permit fencing etc.

I desire that Donald Avenue; Fairview Avenue, and all alleyways in Block "W" and Block "X" to be closed, and also that Paxson Avenue from Josephine Avenue to its intersection with the Northern Pacific R/W be closed. These are all in Carline Addition and are east of the N. P. Ry. R/W. None of these streets or alleyways have ever been opened.

The above lands are industrial site in character, and are not residential in any sense. If the streets and alleyways are closed it will permit the land to be developed for lumbering operations or other business purposes.

Wherefore, your petitioner respectfully requests that such proceedings be had as are appropriate to the closing and vacating of the above streets and alleyways and that same be then closed and vacated.

Respectfully submitted:

George Thibault, Owner.

To the County Commissioners of Missoula County, Montana.

We own the K. & H. Lumber Company, and operate a large planing mill adjacent to the above lands and join in the above petition, because it is very desirable for the safety of our lumber and mill that the streets be fenced off to keep trespassers and others from increasing our fire hazard. We also are considering expanding our operations upon the Thibault land.

K. & H. Lumber Co., by

J. R. Kirkpatrick
Leonard A. Hamilton

I own the unplatted acreage lying east of Paxson Avenue, and likewise join in the above petition and consent to the closing of the streets as requested by George Thibault.

Ethel Smith, Owner

COUNTY ATTORNEY OPINION

The Board examined, approved and ordered filed the following opinion of the County Attorney in regards to a small sum to be returned by the County to the recipients of aid when confined to the county hospital.

November 15, 1950

Board of County Commissioners
Missoula, Montana

Gentlemen:

It now being possible for the Department of Public Welfare to grant monetary aid to persons confined to the county hospital, said money being paid to the county poor fund, in return for care, and it being recommended by the welfare department that the recipients be allowed to keep a small sum to purchase small incidental personal and comfort items, you have asked if it is permissible to allow a small sum to be returned by the county to the recipient of aid and if so, if a warrant for the entire sum due all patients could properly be made payable to the superintendent of the county hospital for distribution in cash by her.

It is our opinion that the question of allowing the patients to keep a small cash sum for the reasons stated above is addressed to the sound discretion of the board. As to the procedure, it appearing that the only practical method being to have the assistance checks endorsed by the recipients to the county and the small cash sum returned to them by warrant, and it further appearing that individual warrants would not only cause more bookkeeping by the clerk and recorder but would involve the additional labor of the hospital superintendent in obtaining endorsements and cashing the warrants for the patients, it is our opinion that a single warrant to the superintendent is not only permissible but advisable. The affidavits of the superintendent and a responsible witness that distribution had been properly made, should be an adequate accounting by the superintendent.

Yours truly,

RWP/c

S/ R. W. Parker

COUNTY ATTORNEY'S OPINION

The Board examined, approved and ordered filed the following opinion from the County Attorney:

January 29, 1951

Board of County Commissioners
Missoula County
Missoula, Montana

Gentlemen:

The county auditor has posed a question to me: "Am I entitled to a monthly pay check?" It is my opinion that upon submitting a claim the county auditor is entitled to be paid monthly.

Section 25-509 RCM 1947 provides for an advance of moneys on salaries to those officers who are paid quarterly. Upon demand by those officers, the paying office should pay one month's salary as an advance on the quarterly payments. This statute was passed in 1939 to provide for monthly pay checks.

Very truly yours,

S/ Wesley Castles
County Attorney

COUNTY ATTORNEY OPINION

The Board examined, approved and ordered filed the following opinion from the County Attorney. The Board personally delivered a copy of this opinion to County Engineer, R. J. Hale.

February 10, 1951

Board of County Commissioners
Missoula County
Missoula, Montana

Gentlemen:

You have asked my opinion on these related questions:

1. Where should title and record of ownership of County automobiles be kept?
2. Can the County Surveyor buy and trade in machinery without prior approval of the Board? and,
3. What about trade-ins?

The answer to No. 1 is that the record titles should be kept in the Clerk and Recorder's office.

The answer to No. 2 is that Section 32-303, RCM, 1947 giving to the County Surveyor exclusive control, supervision and direction of all highways, etc. restricts the purchase of machiner, equipment and tools and supplies to the Surveyor with the approval of the Board of County Commissioners (underlining supplied). In my opinion the, the answer to question No. 2 is NO.

Section 32-303 takes the ministerial burden of looking after the highways, etc. off the Commissioners, but in no way does it change the responsibility of the Commissioners as to their duties as the Board of Supervisors and custodians of County property. It is for the Board to decide, within the limits of the law, how the purchases and sales shall be made.

As to question No. 3, I attach herewith opinion of the Attorney General, Volume 23, No. 140 which answers this question completely. "Trade-ins" are not authorized except after other requirements are met.

Very truly yours,

S/ Wesley Castles

COUNTY ATTORNEY'S OPINION

The Board examined, approved and ordered filed the following opinions from the County Attorney:

March 18, 1949

Board of County Commissioners
Missoula County
Missoula, Montana

Gentlemen:

This is in answer to your inquiry concerning the powers of the Board to lease county property. You have asked particularly whether or not any notice must be given before a lease is made.

I will direct your attention to Chapter 152 of the laws of Montana 1937 which provides as follows:

"The board of County Commissioners has jurisdiction and power under such limitations and restrictions as are prescribed by law; to lease and demise county property, however acquired, which is not necessary to the conduct of the county's business of the preservation of county property and for which immediate sale cannot be had.

Such leases shall be in such manner and for such purposes as, in the judgment of the board, shall seem best suited to advance the public benefit and welfare, and all revenue derived therefrom, except as otherwise provided, shall be paid into the county treasury. On the tenth day of January and the tenth day of July in each year the county treasurers shall distribute such revenues to the several county and trust and agency funds on the basis of the tax levy for the preceding calendar year. All such property must be leased subject to sale by the board, and no lease shall be for a period to exceed three (3) years, save and except as to deposits of coal only or coal and the surface above the same, owned by any county or to which any county has heretofore or may hereafter acquire title by

tax title, tax deed or otherwise, which lease or leases may be for a period of ten years and to run and continue as long thereafter as coal is being mined and extracted from the leased property in commercial quantities and that as to all such deposits of coal only or coal and surface the provisions of Sections 2208.1 and 2235 of the Revised Codes of the State of Montana, A. D. 1935 and all other provisions of the laws of Montana relating to the sale by the county commissioners of a county or property owned by the county or acquired by tax title or otherwise shall be suspended during the time any such lease or leases of coal only or coal and surface made hereunder shall be in force and effect."

I am unable to find any provision in the law which requires that you publish a notice of any kind before making a lease of county property but I wish to direct your attention particularly to that provision of the above statute which limits the period of the lease to three years.

Yours very truly,
S/ Robert F. Swanberg

Board of County Commissioners

In re: bill of General Steel Company
for \$999.99 and \$127.04

Gentlemen:

You have asked my opinion as to whether the Board can authorize payment of these two claims, in that they aggregate more than \$100.00 and no bid was asked.

In this particular case, it is my opinion that you can. The facts as I understand them are these. A lesser amount of steel was ordered, an amount well within the limit of the law, and by mistake, an amount of over \$2000.00 was delivered and accepted by the County. Negotiations were then had in which the company agreed to take the price of \$999.99 for the entire price as a compromise. Thereafter the company submitted a freight bill which they had had to pay the railroad company in the amount of \$127.04.

The general rules of interpretation of Section 15-1803 RCM, 1947, are that statutes requiring competitive bidding are to be construed strictly, and are not to be extended beyond their clear implication. However, they should receive a construction which effectuates their true intent and avoids circumvention. Substantial compliance with the statutory requirement is sufficient.

Applying these rules to the case in question, since the price of \$999.99 was a compromise settlement price, and the freight was a bill for a much larger amount than that paid for, I feel that the Board can safely pay these two claims by separate voucher.

I wish to point out however, that as a rule, the limitation of \$1000.00 expenditure without bid should mean the cost F. O. B. Missoula County and should not run over the limit with freight included.

Very truly yours,
S/ Wesley Castles
County Attorney

M.: Mr. Andy Anderson, President, Dighton Little, Ralph Simmons and George Higgins and Mr. Robert McCann, Secretary of the Chamber of Commerce, regarding the cancelling of the present lease on the barns at the Fairgrounds.

Mr. Anderson asked the Board if they had contemplated a new lease after the termination of the present one and the Board advised that they were agreeable if such a lease could be made acceptable to both parties.

Mr. Higgins advised the Board that the Club pays a watchman to be on duty at all times and told them of the improvements the club has made at the barns and the paying for liability insurance. He asked the Board to take a broader view in setting up the new lease, if possible.

Mr. Lyons expressed the opinion that the advertising, good will, publicity etc was well worth the expense of maintaining the barns. He further pointed out that the Club had installed lights and water in each stall and that he personally had spent between seven and eight hundred dollars on repairing corrals, roofing and painting. He advised the Board that they had put in hours of work cleaning and hauling away debris from the barns and that approximately four hundred fifty dollars had been spent by the Club for various repairs. He also expressed his opinion that it is good business for the county to allow the barns to be used by both the Saddle Club and Sheriff's Posse at as low a fee as possible.

Mr. Robert McCann, Secretary of the Chamber of Commerce, told of the many people who attend the practices of the Sheriff's Posse in their drilling, both local and tourists passing through our city.

Commissioner Duncan stated that in his opinion, \$2.00 per stall per month should be a fair price.

Commissioner Rawn explained that the county has spent quite a little money this year in repairing and painting the buildings at the Fairgrounds and also explained that all revenue received from the Fairgrounds are credited to the Poor Fund.

Mr. Bourdeau, Chairman of the Board of County Commissioners, stated that quite a few people have talked to him regarding their lease which is without fee and they were of the opinion that no one class or club should have special privileges.

After an hour and a half of discussion, the Board advised the Committee that they would make a further consideration and would meet again with the committee for final disposition of the matter.

RESOLUTION

It having come to the attention of this Board that the Montana Power Company has applied to the Federal Power Commission for authorization to import natural gas from Canada; and

Inasmuch as the residents of Missoula County have not heretofore enjoyed the advantages of natural gas, but many of such residents desire to have natural gas service, and it would be a great benefit to have such service available; and

IRON LUNG

The commissioners telephoned the Health Department regarding the iron lung which is in the Fort Missoula Hospital, informing the department that the iron lung should be kept in a safer and more convenient place. Dr. J. M. Nelson advised the board that he would consult the Polio Board as to the safe-keeping of said iron lung.

OPINIONS

The following opinion received from the County Attorney regarding salary of newly appointed Commissioners:

Board of County Commissioners
Missoula County
Missoula, Montana

Gentlemen:

Question: What per diem rate does Mr. Coy receive as County Commissioner.

Mr. Coy was appointed to fill a vacancy created by conviction of a felony, replacing Boyd A. Bourdeau. Bourdeau was receiving \$8.00 per diem. The rate now established by Section 16-912 as amended in 1951 is \$12.00 per day.

Clearly Mr. Coy would receive \$12.00 per day except for the Constitutional limitation contained in Article V, Section 31 and Article VII, Section 4. In 21 Attorney General Opinions 307 and in 57 Montana 343 this limitation was held to apply only to the person and not to the term; that is, the same person could not get an increase in pay but a different person during the same term could. This rule is upheld in 67 C.J.S. 344 and 166 A.L.R. 846.

My opinion, therefore, is that Mr. Coy is entitled to the rate of \$12.00 per diem.

O P I N I O N

Question: What are the qualifications for the office of county surveyor, particularly, does a candidate for office of county surveyor have to be a licensed engineer or surveyor?

Section 4, Article XVI of the Constitution as amended provides for election of a county surveyor.

Section 2, Article IX of the Constitution as amended provides for the qualifications to hold office. He must be of the age of twenty-one years or over; a citizen of the United

States; a resident of the state for one year immediately preceding the election at which he offers to vote, and of the town, county or precinct for such time as the law might lay down.

Then Section 16-3301 RCM 1947 sets out further qualifications as follows: "A County Surveyor shall be a professional engineer, not less than twenty-two years of age, who shall have been in active practice of his profession for at least three years, and who shall have had responsible charge of work as principal or assistant for at least one year; graduation from a school of engineering shall be considered as equivalent to two years of active practice."

Then Section 66-2301 to 66-232, RCM 1947 provides for licenses of engineers and surveyors saying particularly: "any person in either public or private capacity practicing or offering to practice civil engineering or land surveying in this state as a professional or registered engineer or land surveyor, shall be required to submit evidence that he is qualified so to practice and shall be registered as hereinafter provided..."

Opinion No. 186, Attorney General's Opinions Volume 16 holds that, "the constitution having prescribed the qualifications of a county surveyor, the legislature was without power to supplement the constitutional pronouncement by such legislation as 16-3301". (This opinion seems to change the Opinion on page 11, Vol. 14, Opinions of Attorney General, which did not consider the constitutional provisions.)

47 A.L.R. 481 annotates numerous cases, including *Montana, State ex rel. Chenoweth v. Acton* (1904) 31 Montana 37, 77 Pac. 299; as holding the power of the legislature to prescribe qualifications for or conditions of eligibility to a constitutional office is nil, holding as the general rule (with but one exception), "that when a state Constitution names the qualifications for a constitutional office, the legislature has no authority to prescribe additional qualifications, or to remove any of the requirements provided for in the Constitution, unless that instrument, expressly or by implication, gives the legislature such power."

Therefore, since the Constitution of Montana does set out the qualifications of the County Surveyor, and there is no express or implied power left to the legislature, it is my opinion that the county surveyor does not have to be a licensed engineer. His qualifications for office are those as set out in the constitution.

OPINION

The following Opinion from the County Attorney's office was examined, approved and ordered filed:

January 12, 1952

Harry M. Rawn, Chairman
Board of County Commissioners
Missoula County
Missoula, Montana

Dear Mr. Rawn:

You have requested an opinion from this office as to whether or not the county may sell to Dr. Reinke six feet of the south side of Powell Street.

This street was acquired by dedication to Missoula County on April 9, 1890 when a plat was filed in the clerk and recorder's office, dedicating that portion of land as a public street to Missoula County. (See File C-68, Book 1, page 98.)

16 American Jurisprudence, page 409, states the rule as follows:

"The legislature has no power to destroy a trust created by a dedication of land to a specific, limited, and definite public use, or to divert the property to any other purpose inconsistent with the particular use to which it was dedicated. The state holds such property, not in a proprietary, but in the sovereign, capacity and trust for use to which it was dedicated. While much must be left to the discretion of the legislature as to the best manner of regulating that use, its power of control over such property must be exercised in conformity with the purpose of the dedication. The nation, state, or municipality cannot appropriate the land which it occupies to other purposes after lots have been sold on the strength of a dedication for a certain purpose; nor, in any event, can it alienate the same. A municipality cannot disregard the trust, nor can the legislature authorize a diversion of use by municipal corporation or a sale of dedicated property, unless not held for a specific purpose. A city, county or state to which land has been dedicated for a specific purpose cannot divest itself of the trust by reconveyance."

See also 26 CJS, page 156 where the rule is stated as follows:

"Any use inconsistent with, or substantially or materially interfering with, the use of the property for the particular purpose to which it was dedicated constitutes a misuser or diversion. However, the dedicated property may be put to all uses within the definition of the use; and all public dedications must be considered with reference to the uses for which they were made. Thus it has been held that dedicated property cannot be sold; nor can property dedicated for a public purpose be treated as private property of the municipality."

From the foregoing authorities it is the opinion of this office that the property in question could not be legally sold to Dr. Reinke. If the county should sell the land in question and anyone should see fit to attack the action of the county commissioners it is the opinion of this office that the sale would be declared illegal.

Very truly yours,

S/ John A. Forsythe
Deputy County Attorney

OPINION

The following opinion was received from County Attorney, Wesley Castles:

February 5, 1952

Board of County Commissioners

County Auditor

Missoula County
Missoula, Montana

The board has asked my opinion as to payment of a claim by Inez Hollman of \$27.00 for work on the Miller Creek road. This work was done in the year 1949 and a claim dated January 28, 1952 has been presented. The Board, under Section 16-1802 cannot pay claims submitted more than one year from the accrual of the last item.

Very truly yours,

S/ Wesley Castles
County Attorney

WC/rkc

Motion made by Commissioner Coy that the claim of Mrs. Hollman be disallowed due to the opinion rendered by the County Attorney and that Mrs. Hollman be notified accordingly. Motion seconded by Commissioner Duncan and carried unanimously.

BUDGET TRANSFER

The following budget transfer was approved by the Board of County Commissioners:

"In order that warrants may be legally drawn and issued for necessary expenditures on the Airport Fund, and for which budgets were previously made and approved, but which for unforeseen reasons are now in need of readjustment, the following transfers of budgets are hereby made and the County Clerk and Recorder is authorized and instructed to make the adjustments on his budget account, and to make the Commissioners' Journal show the action hereby taken on this date as follows:

RE. WATCHMAN AT HIGGINS & CENTRAL AVE.-SCHOOL CROSSING

Mr. Castles, County Attorney, was in the office regarding the traffic of school children crossing So. Higgins at Central Avenue. Mr. Castles advised the Board that it would be possible to pass an emergency budget to take care of this emergency.

Mr. C. S. Porter notified the Board that the City can no longer take care of a patrolman at So. Higgins and Central Avenues and asked the County to take it over. After due consideration, motion made by Commissioner Duncan that a teacher from the school go down and take all the children across at one time, three times a day. Motion died for a second. After considerable discussion as to the amount spent so far this fiscal year against the total budget of the Sheriff and Hide Inspector and coming to the conclusion that there are not sufficient funds left in either budget to take care of this, motion made by Commissioner Coy that an emergency budget in the amount of \$400.00 be declared for the purpose of providing a duly appointed deputy of the County Sheriff's office to cover the intersection of Central and So. Higgins Avenues at the times school children cross these streets, which would be three times a day. Roll call of votes as follow:

Chairman Rawn	- Yes
Commissioner Coy	- Yes
Commissioner Duncan	- No

Motion failed to carry as it must be a unanimous vote.

Commissioner Duncan worked on the preparation of the Jury List during the day.

RE. PATROLMAN AT SO. HIGGINS & CENTRAL TO ASSIST SCHOOL CHILDREN
TRANSFER OF BUDGET FOR PATROLMAN

Commissioner Duncan asked that the Board reconsider the action taken yesterday as to furnishing a patrol officer for school children crossing So. Higgins and Central Avenues. Commissioner Duncan was of the opinion that it was the obligation of the school but if they were unable to have the officer present, he thought the county should do all possible to see that an officer is at this crossing.

A budget transfer was offered as a solution for the carrying on of a patrolman and the following transfer of funds was approved by the Board of County Commissioners which covers this situation:

"In order that warrants may be legally drawn and issued for necessary expenditures on the General Fund, and for which budgets were previously made and approved, but which for unforeseen reasons are now in need of readjustment, the following transfers of budgets are hereby made and the County Clerk and Recorder is authorized and instructed to make the adjustments on his budget account, and to make the Commissioners' Journal show the action hereby taken on this date as follows:

MACLAY BRIDGE

A group met with the Commissioners regarding the construction of the bridge known as the Maclay Bridge which abutments were poured some two years ago and on which is a Restraining Order issued by the District Court to cease the construction of this bridge. Attorney Rimel represented the delegation requesting that this bridge be built. Mr. Rimel explained that his understanding with Mr. Birkey who was the contractor who built the abutment and who was not paid for his services, was that Mr. Birkey would complete this bridge if the county would pay him for services rendered. Further that ^{and} if the county would haul the material from the old Nine Mile Bridge up the Blackfoot River to the location of the Maclay bridge. Assistant County Attorney John Forsythe was in attendance at this discussion. Both Commissioners and the Chairman were favorable on considering the building of this bridge if all Court matters could be cleared and that a written agreement be entered into by all parties concerned. That the County Surveyor and the Commissioners go to the Nine Mile Bridge and ascertain just what material is there and thereafter come to a conclusion as to just what definite action could be taken. It was understood that Mr. Rimel would contact Mr. Birkey and get his reaction and that the County Attorney's office would get an interpretation of the Restraining Order and report back to the Commissioners.

OPINION OF COUNTY ATTORNEY

The Commissioners received and ordered filed the following opinion from County Attorney Wesley Castles regarding the Maclay Bridge:

"Recently I have been asked by several individuals the status of the injunction on the Maclay Bridge. This injunction was signed by Judge Besancon on the 14th day of December, 1948, enjoining the county commissioners from proceeding with certain contracts of July 15 and August 23, 1948 for the reconstruction of Maclay Bridge.

I have checked this matter over and feel that the commissioners may proceed in a legal manner to accomplish the construction of a new bridge at the site of the old Maclay Bridge. It is my understanding that there are two concrete piers already built there, the two piers having been built under the illegal contracts which were enjoined. These piers have not been paid for. However, they may not at this time be paid for.

It strikes me that there are two possible methods of proceeding with the construction of such a bridge. One would be by a bond issue and the letting of contracts in the regular manner. The other method would be by the commissioners by proper resolution establishing budget funds year by year under the \$10,000.00 limit earmarked for the specific project. In this manner money could be saved for a specific purpose and contracts could be let as soon as sufficient money was on hand that the county would not have to become indebted beyond the statutory limits. Likely this would take two to three years. At such time as sufficient money is in the county treasury to proceed within the statutory limits, contracts could be called for in the regular legal manner. It is my opinion that no contract based in any way upon the original contracts made or had can be entered into. I am not sure at this time as to whether or not the two piers that are in place could be used. It is my understanding that the two piers are on county right-of-way. If this be true, then they are the county's to use as they best see fit. However, I would not at this time want to make opinions stretching far into the future beyond my term of office. I believe the first step for the commissioners to consider if they desire to go ahead should be taken at the time the next budget is set."

OPINION OF COUNTY ATTORNEY ON BONDS

Motion made by Commissioner Coy, seconded by Commissioner Rawn and carried unanimously that the opinion by County Attorney Wesley Castles, dated March 10th, regarding official bonds be accepted and filed. The opinion is as follows:

"Board of County Commissioners
Missoula County
Missoula, Montana

Gentlemen:

The Board of County Commissioners has asked my opinion as to the sufficiency of the public official bond of N. B. Matthews as a member of the Airport Board. The bond was originally written by the Great American Indemnity Company in the amount of \$1,000.00 in January, 1946 covering the two year term of 1946 and 1947. Subsequently this bond was continued by a continuation certificate in 1948, 1949 and in 1952. This latter continuation certificate is the one in question.

I have considered this matter in some detail, and have concluded that the county should carefully review its official bonds. It is my opinion that the board should not approve the bond of N. B. Matthews for the following reasons: (1) The continuation certificates contain a "non-cumulative

clause" which in effect lessens the overall protection to the county and the taxpayer; (2) The principal, N. B. Matthews has not signed the continuation certificate.

I suggest that the board should require Mr. Matthews to file a new bond as provided by law to cover his current term. Also I suggest that the board should not approve bonds in the future which are extended by continuation certificates, but rather should require the furnishing of entirely new bonds at the expiration of the old one. In this manner, any questions about the extent of the coverage will be resolved in favor of the county.

I wish to point out that this opinion covers all official bonds, and there is no reflection on Mr. Matthews or any other official with like bonds since this practice has been followed for many years here.

Very truly yours
S/ Wesley Castles
WESLEY CASTLES
County Attorney

WC/rkc

The Clerk was instructed to notify Mr. Matthews regarding this bond to replace it with a new bond rather than the continuation which is attached to the former bond. The Clerk telephoned Mr. Matthews and he advised that his bond company would furnish such a bond. Later Mr. Grady, representing the Great American Indemnity Co., advised the Clerk that such a bond was in the making and should be in our hands Wednesday, March 12th.

April 5, 1952

Board of County Commissioners
Missoula County
Missoula, Montana

Gentlemen:

You have asked my opinion on whether insurance moneys in the county treasury derived from the loss by fire in 1941 may be used for the purpose of erecting grandstand or bleacher seating facilities at the fairgrounds.

It is my understanding that the loss by fire was seating facilities in the form of a grandstand.

It is my opinion that such moneys can be used for bleacher installations; of course, such expenditures being properly made otherwise, that is, on a call for bids, etc.

COUNTY ATTORNEY OPINION

The following Opinion was received and filed:

Mr. Joe D. Brown
County Clerk & Recorder

Dear Mr. Brown:

You have requested an opinion in regard the dual payment of Jennye G. Hart on which a refund is due. This office submits as follows:

LAW

16-1623 RCM 1947. Whenever, by reason of any alleged non-conformity to any law, or by reason of any omission or irregularity, any special tax or assessment is either invalid or its validity is questioned, the Board of County Commissioners may make all necessary orders and may take all necessary steps to correct the same, and to re-assess and re-levy the same, including the ordering of work, with the same force and effect as it made at the time provided by law, or resolution relating thereto; may re-assess and re-levy the same, with the same force and effect as an original levy; whenever any apportionment or assessment is made, and any property is assessed too little or too much, the same may be corrected and re-assessed for such additional amount as may be proper, or the assessment may be reduced even to the extent of refunding the tax collected. Any special tax upon a re-assessment or re-levy shall, so far as practicable, be levied and collected as the same would have been if the first levy had been enforced; and any provision of any law specifying a time when, or order in which acts shall be done in a proceeding which may result in a special tax shall be taken to be subject to the qualifications of this act. Any and every rule and regulation of any board of County Commissioners passed in substantial conformity with this section is hereby legalized.

16-1906. RCM 1947 provides in part "... (2) Monies received from borrowings shall be used for no other purpose than that for which borrowed, except that if any surplus remains after the accomplishment of the purpose for which borrowed it shall be used to redeem the county debt."

Chapter 38, Page 1249 McQuillan Municipal Corporations. "Distributions of surplus. Statutes sometimes provide for the distribution of surplus money in special assessment fund; it is regarded as a trust fund and is therefore, to be governed by equitable principals."

15 C.J. 605 Post 313. An order or warrant is payable out of the general county fund even though it is drawn on a particular fund, where the law makes no provision for such a fund, or where it is provided that all moneys belonging to the county as such and not by it in trust constitute one fund out of which all its liabilities are to be paid.

OPINION

It is to be noted that there is no provision in the Montana Codes for the disposition of any surplus moneys left over after the special or rural improvement projects have been completed; there is, however, under Sec. 16-1906 an implication that surplus moneys are to be kept for county purposes and not held in trust. Reference is made in this regard to Chapter 38, Page 1249, McQuillan Municipal Corporations. Assuming a surplus to the District No. 5 Improvement Fund in the amount of the dual payment at the end of the project will be delivered over to the general fund it would appear that it would be proper to issue a warrant against the general fund in favor of Jennye G. Hart reimbursing her for the dual payment.

This reasoning is supported by law as above cited from Corpus Juris. Since there is no particular fund set up to handle errors of this nature, the general fund should be taxed and the proper accounting procedure made so that the records may reflect the transaction as being charged against the funds of Improvement District No. 5.

We believe this procedure would be more proper than that of issuing a Warrant directly against the funds of District No. 5 since Sec. 16-1623 RCM 1947 does not pertain to errors of this sort. The refund referred to in this Section applies only to questions of validity and not clerical errors.

COUNTY ATTORNEY OPINION

The Clerk was instructed to file the following County Attorney Opinion:
 April 29, 1952

"Mr. Harry M. Rawn, Chairman
 Board of County Commissioners
 Missoula County
 Missoula, Montana

Dear Mr. Rawn:

You have requested an opinion as to whether or not it is the responsibility of Missoula County to provide proper drainage for waters emanating from Pattee Canyon. The water now drains along a ditch adjacent to, and parallel to a county street.

It would appear that if the county street or road lies on both sides of the ditch with the ditch running down the middle it would be the responsibility of the county commissioners to provide the necessary maintenance of the ditch.

Section 32-312 provides in part as follows:

"The road supervisor, or other person designated by the board of county commissioners, has authority to open or construct drains and ditches for the making and preserving of roads and highways doing as little injury as may be to the adjoining land, . . ."

It would appear that this section also applies to a situation wherein the county road parallels only one side of the ditch. In that case it would be the responsibility of the county to maintain the drainage ditch to the extent that it would not damage the road.

Generally, however, it is not the duty of the county to provide proper drainage for surface waters. The rule is stated in 38 Am. Jur. 253 where it is said:

"If ample provision for sewers and drains is made by statute a municipality must exercise its powers in these matters under the statutes alone, and cannot lay claim to such authority as being necessarily incident to the exercise of its corporate powers or the performance of its corporate duties."

The laws of Montana contain provisions for the drainage of surface waters. See sections 89-2201 to 89-2218, R.C.M., 1947, wherein provisions are made for the creation of drainage districts.

Section 89-2201 provides in part as follows:

"Whenever a majority of the adult owners of lands within any district of land, who shall represent one-third in area of the land within said district . . . to be benefited, or whenever the adult owners of more than one-half of the lands within such district desire to construct one or more drains, ditches, levees, waste ditches, or other works across the lands of others, or to straighten, widen, deepen, or otherwise alter any natural stream or watercourse . . . for the promotion of the public health or welfare . . . may file in the district court a petition to create a drainage district."

Conclusion:

1. Missoula County has authority to construct drains and ditches for the preservation of county roads.
2. Missoula County does not have the authority or responsibility of providing adequate drainage for surface waters for the benefit of privately owned property. Such drainage may be provided by the individual owners of the land as to their land or by the creation of a drainage district in accordance with Title 89, Chapter 22, of the Revised Codes of Montana for 1947.

Very truly yours,

S/ John A. Forsythe
Deputy County Attorney

Present also were Leon L. Bulen and Jack W. Rimel representing some of the property owners and Deputy County Attorneys O'Donovan and Forsythe.

On behalf of those property owners present before the Commissioners and on behalf of other property owners who reside in the vicinity of the Maclay bridge, Mr. Rimel reviewed the history of the Maclay Bridge, pointed to the necessity for its replacement and requested the Commissioners through appropriate resolutions to call for bids for moving from the Blackfoot River Valley site the bridge which is intended for the Maclay bridge location for which piers have already been constructed and for the erection of the bridge on the said piers.

Mr. Rimel pointed out to the Commissioners that monies now in the bridge fund were more than adequate to pay for the estimated cost of \$20,000.00 in moving the proposed bridge to the Maclay bridge location and erect it on the piers and suggested that if the monies now in the bridge fund were not thus used, the funds could not be carried over into the next fiscal year starting July 1, 1952, and as a consequence may not be able thereafter to replace the Maclay bridge without a bond election.

Mr. Bulen called attention to the fact that the Maclay bridge site was part of the road system which had never been abandoned although nothing had been done with it and it is suffering from neglect. He also emphasized that the people in the immediate vicinity, East and West and also the entire community have a very great interest in a bridge at that location.

The Supreme Court of Montana in Beckman vs. Weis, 120 M 305 "Where right of redemption is not exercised before issuance of tax deed the right of redemption is lost."

Opinion. If the county has acquired a proper tax deed by complying with the legal requirements for obtaining the said deed, then all rights of redemption have been terminated.

Following opinion on Contractor License -

Section 84-3507. CO. ATTORNEY OPINION

Transfer money within Bridge Capital Outlay
Purchase of equipment without sufficient funds in this fiscal year.

You have asked this office for an opinion on the following two questions:

1. Is it possible to transfer money in the Bridge Capital Outlay Fund No. 506 that has been set aside for bridges to an item of equipment which is never budgeted for and the money still remain in the same fund?
2. Can a contract for purchase of one piece of equipment to be used on both bridges and roads which will cost approximately \$20,000.00 be let before the end of this fiscal year if we have on hand \$10,000.00 to be paid now and with a provision that \$10,000.00 will be set aside in the budget in the next fiscal year?

The first question may be best answered by reference to Section 16-1906 RCM, 1947, which provided in part:

"Transfers between the general classes provided in Section 16-1902 shall not be permitted, provided and except that in the case of appropriations to be expended from county road or bridge funds, special road district funds, or any special highway fund, any transfer between or among the general classes of (1) salaries and wages, (2) maintenance and support, and (3) capital outlay, may be made.*"

This section being part of the budget act is the provision that controls in the solution of the problem. However, in order to obtain a clarification of this section it is advisable to turn to Volume 22 of the Attorney General's Opinion, wherein Opinion No. 114 reads as follows:

"Funds appropriated under the budget and specifically detailed under the budget item 'Capital Outlay' for a specific purpose may not be used for any other purpose during the fiscal year for which appropriated". The above opinion was extended to Mr. W. A. Brown, State Bank Examiner in regard to the Silver Bow budget for the fiscal year 1947-1948 wherein was appropriated \$8,000.00 for an addressograph. The purchase did not materialize and therefore the county commissioners wished to expend the sum for additional heating boiler and some additional plumbing.

It would appear that where money in the Capital Outlay Fund is specifically earmarked it may not be used for any other purpose during that year; however, where in the budget a fund is subsumed as capital outlay under a general road and bridge maintenance classification it would seem not be a violation of the Budget Act to purchase a piece of equipment to be used for the purpose of maintaining both bridges and roads.

In answer to your second question, attention is directed to the decision of the Montana Supreme Court in Turner v. Patch 64 M 565 wherein it was held that the purchase of a piece of road equipment was not for a "single purpose". Turning to Volume 19,

Attorney General's Opinions, and particularly Opinion No. 19, which provides in part:

" . . . A shovel used for road construction and a patrol used for road maintenance do not constitute a "single purpose" within the meaning of section 5 Art. XIII of the Montana Constitution."

"The Board of County Commissioners may purchase road machinery, costing in the aggregate of \$10,000.00 on the installment plan, extending over a period of two years, without first obtaining the approval of a majority of the electors of the county."

From the foregoing it would seem that it would be proper to purchase the said piece of equipment under an installment plan where, say one-half is paid from the cash on hand and the remaining one-half provided for in the budget for the next fiscal year. Such a purchase, of course, must necessarily be made in compliance with the statutory provision providing for bids.

BRIDGE REPAIRS

Motion made by Commissioner Duncan that the County Attorney be directed to appeal to the State Supreme Court in the case of Bertolf -vs- Missoula County, et al, and from the Judgment dated June 5th, 1952, based upon the fact that the cost of such bridge repairs are excessive and impractical and that it would be to the best interests of the tax payers of Missoula County to have the case issue finally determined by the Supreme Court. Motion not carried for want of a second by Acting Chairman Coy.

It is noted that the Honorable C. E. Comer, District Judge of the Fourth Judicial District, entered a Judgment and Decree under date of June 12, 1952 ordering and directing the Board and the County Surveyor to immediately replace and restore the Maclay bridge and to appropriate, designate, allocate and assign the sum of \$20,000.00 from the capital outlay account of the Bridge Funds of Missoula County; therefore it is now moved by Commissioner Duncan that the sum of \$20,000.00 be designated and allocated to comply with the aforementioned judgment; and that the County Surveyor be directed to seek approval of the State Highway Commission for plans of the Ninemile Prairie bridge being moved and modified to comply with safety requirements; and that upon completion of the plans that bids be advertised and called for or that the County Road department proceed with the work, whichever seems most desirable in the interest of economy and efficiency; and that a copy of this motion be furnished Judge C. E. Comer and Mr. Scharn. Motion seconded by Acting Chairman Coy.
