Commissioner Flynn moved the passage and adoption of the following resolution:

WHEREAS, There are now six (6) licensed retail liquor vendors between the City of Missoula and the Town of Milltown which is a distance of approximately six (6) miles, and

WHEREAS, This Board feels that an increase in number of such retail liquor dealers would only serve to further congest the traffic situation now existing on Highway No. 10 East between the said City of Missoula and Milltown, and

WHEREAS, The number of such liquor dealers now doing business in that locality is more than sufficient to take care of the needs and requirements of the people of that district, town and city of Missoula, and

WHEREAS, An increase in number of such dealers would only tend to lessen the income now made by the present dealers and thereby increase competition to such an extent that violations of the liquor control laws would ensue, and

WHEREAS, It is for the best interests of public safety, health and morals, of the citizens of Missoula County and especially of the residents of that district that there be no increase in number of licensed liquor dealers,

NOW THEREFORE BE IT RESOLVED, That this Board in regular meeting assembled deny all further application for retail liquor licenses for the district between the East city limits of Missoula and the East limits of the town of Milltown, Missoula County, Montana, excepting those licensed liquor dealers now doing business in that locality or those applicants who may have purchased the licenses of existing dealers.

REPORT OF COMMITTEE:

The Board examined, approved and ordered filed following report in regard to vacation of certain property in Block 15 and the street on the west side of Block 15 in Bennett Addition:

February 28, 1942

To The Honorable County Commissioners
Missoula County
Missoula, Montana

Gentlemen:

Referring to the alley in Block 15 of Bennett's Addition and the street on the west side of Block 15.

We, the committee, duly appointed by the Missoula County Commissioners to inspect this alley and street in reference to vacating the same, do hereby recommend that the alley through Block 15 and the street on the west side of Block 15 in Bennett's Addition be vacated for the following reasons:

The street, at the present time, only extends for a distance of about 100 feet from Fourth street north. The alley is deadended on the west by Freisheimer's Addition and on the east by a sharp incline thus making the alley and the street beneficial only to those living on the north and south of the alley and east of the street, and as these residents have petitioned that the same be closed, we feel that it would not be inconvenient for anyone else who might at any time desire to use them.

RESOLUTION IN REGARD TO JOHN J. FLYNN:

IN THE MEMORY OF JOHN J. FLYNN

The obituary for April 1, 1942 carried the name of John J. Flynn, a member of this Board. He died in Missoula on March 31, 1942 as the result of injuries sustained while calmly pursuing the simple routine of his hours not spent in this office. Suffering the injuries on Monday morning about 7:30 o'clock a. m. at his home, while he felled a tree, from which he never regained consciousness, he passed in the fullness of his strength and vigor into the great silence which lies beyond the vision of mortal eyes.

All of his life was spent in the locality of Missoula. Born on the family homestead about three miles west of this city on April 21, 1876, the son of Mr. and Mrs. Michael Flynn, pioneers of this city, he received his education in this vicinity and grew through youth to manhood and through manhood within these environs.

In young manhood, he was married to Mary Helterline and to this union was born two sons, John Jr. and Elmer, both of Missoula and three daughters, Mrs. Raymond McQuade of Moscow, Idaho and Kathleen and Patricia of Missoula.

More than a third of this adult life was spent in service to the public. He was first chosen as one of this Board in 1913 and served as commissioner until January 1919. In 1922 he was again elected to this Board for another six year term and in 1928 was elected to fulfill the unexpired term of two years of a fellow commissioner who had died in office. In 1938 he was elected representative to the state legislature from this county and served in the Twenty-sixth Legislative Assembly. In 1940, he was again elected to this Board and on the date of his death was serving in

the second year of a six-year term. Thus death ended the career of a public servant.

It is meet that this Board pause to speak of his splendid qualities and to pay tribute to his memory. These qualities may not be enumerated in detail, but preeminent among them were loyalty, unselfishness and honesty. He was loyal by nature and instinct. When righteousness and justice were at stake, no sacrifice was sufficient to cause him a moment's faltering. He was a capable, careful and trustworthy public servant. He had a natural and abiding interest in public affairs and in local and state politics and always while in office he discharged his duties in accordance with the law and the spirit of his obligation, free from extraneous influence and always in the interest of the public welfare.

In all his thought and action he was independent, courageous and self-reliant. To those who knew him best, the outstanding quality of his personality was seen in his ability to form his own judgments of men and affairs and to persevere therein regardless of popular opinions, his mind, alert and keen, his judgments, sound and penetrating, his reputation and character above reproach.

His relations with his family were loving and affectionate, with his friends kindly and tolerant and with everyone, just and considerate. He lived his life in full knowledge and understanding of his duties and obligations as a citizen, public officer and parent and he leaves this life with all such duties and obligations discharged.

It is appropriate and right that this Board take official notice of the death of John J. Flynn, fellow commissioner, and to that end;

BE IT RESOLVED by this Board of County Commissioners in Missoula County, Montana in regular meeting assembled that John J. Flynn, for more than fifteen years performed the duties of his office of County Commissioner of Missoula County, Montana in a manner which reflects honor upon his memory and credit to Missoula County;

That we, his associates and fellow commissioners, while regretting his departure from amongst us, take pride in his life and character and do honor to his memory;

That we extend to his family our sincere sympathy and condolence and with them take solace and consolation from the uprightness of his life and the serenity of his death.

The Board examined, approved and ordered filed the report of the Clerk of District Court for May, 1942.

RESOLUTION IN REGARD TO EMPLOYMENT SERVICE:R E S O L U T I O N

WHEREAS, President Franklin D. Roosevelt, at the suggestion of the Social Security Board, on December 20, 1941, by executive decree made the Montana State Employment Service a national institution under the title of the United States Employment Service; and

WHEREAS, the President, in his telegram to Governor Sam Ford of Montana advising of the federalization of the Employment Service, implied or promised that the Social Security Board would maintain a complete Employment Service in this State and bear all necessary expenses; and

WHEREAS, in cooperation with the State of Montana Unemployment Compensation Commission, Missoula County has been providing quarters and meeting rental payments and other expenses for the Montana State Employment Service which, since such Service is federal, now amounts to double taxation since taxpayers in this county are required to pay their part of federal taxes;

NOW, THEREFORE BE IT RESOLVED that the Board of County Commissioners of Missoula County request the United States Employment Service beginning July 1, 1942, to assume these necessary rental charges for maintaining the Employment Service office in Missoula County, in compliance with the implications of the President and the promise of the Social Security Board officials when the Montana State Employment Service was federalized; and

BE IT RESOLVED FURTHER, that a copy of this resolution be forwarded to our representatives at Washington, to the Chairman of the Social Security Board, and to the Press as notification that Missoula County no longer expects to help finance the maintenance of an Employment Service in this section and expects that the United States Employment Service will, beginning July 1, 1942, take over this work.

Dated at Missoula, Montana, this 8th day of June, A. D. 1942.

EXAMINER'S NOTES

The cash balances to the credit of the various accounts as shown by the Treasurer's books were verified by direct correspondence with the depository banks at close of business July 18, 1942, while the cash and cash items were verified by count. The deficit applicable to the County Treasurer's office, discovered and proved to July 18, 1942, was accounted for during the examination. The items which had not been accounted for as shown in this report of the Treasurer's reconcilement schedules were taken into account by the issuance of the following receipts: 1940, Delinquent Real Estate Tax Receipts Nos. 186, 187, 188, 189, 190, 191, 192, 193, 194, 195; 1940 Delinquent Personal Tax Receipt No. 957; 1941 Delinquent Personal Tax Receipts Nos. 470 and 980. Item 18 - overpayment by the Treasurer - was refunded and payment to him during the examination by issuance of Refund Warrant No. 1223, issued October 2, 1942, for the amount of \$3.63.

The funds on deposit with the depository banks were amply protected by legal securities and Federal Deposit Insurance, but again we found that proper resolutions of the directors of the First National Bank and the Western Montana National Bank were not on file. When

collateral securities are required above the amount of the Federal Deposit Insurance, the county should be furnished with an authenticated copy of a resolution by the Board of Directors of the depository banks, authorizing the officers of the bank to pledge securities covering the county funds. Inasmuch as it is equally important to have these resolutions as it is to have the proper amount of legal securities, the examiner during the course of the examination requested and obtained for the county proper resolutions to file with the collateral receipts.

The cash fund accounts of the Treasurer were not in agreement with the similar accounts^{as} kept by the County Clerk and many transactions had not been handled correctly. To place the accounts of the Treasurer and County Clerk in proper reconciliation, and to correct erroneous handling of cash transactions, the hereinafter corrections must be taken into account:

Refund Warrant No. 1146, issued December 10, 1941, for Refund of Unfinished Business Taxes, was paid by the Treasurer's office from the City of Missoula Special Road Tax Cash Account instead of Unfinished Business Cash Account. The Treasurer must correct these two cash accounts by proper transfer as follows:

<u>Treasurer's Accounts</u>	<u>Dr.</u>	<u>Cr.</u>
City of Missoula Special Road Cash Fund,	\$ 3.00	
Unfinished Business Cash Fund,		\$ 3.00

The County Clerk's Trust and Agency Account is not in proper balance caused by handling of Drivers' License sales for April, 1941, - A-101 Receipt No. 8301 issued by Treasurer for Permits Nos. 11061 to 11444, less credit for two voided permits for \$287.50 instead of \$286.50, and taken into account by County Clerk for \$287.50 - Treasurer corrected by issuing the following month A-101 Receipt No. 8367 for \$605.75 when the permits sold that month amounted to \$606.75. County Clerk took into account the sum of \$606.75. To correct the County Clerk's Account of Trust and Agency Cash he must make the following journal entires and carry to Clerk's General Ledger Accounts.

<u>County Clerk's Accounts:</u>	<u>Dr.</u>	<u>Cr.</u>
T and A. Reserves,	\$ 1.00	
T. and A Cash,		\$1.00

1937 Personal Delinquent Tax Receipt No. 695 was credited by the Treasurer's Office erroneously to County Road Fund, instead of to City of Missoula Special Road Fund, To correct Treasurer must transfer as follows:

<u>Treasurer's Accounts:</u>	<u>Dr.</u>	<u>Cr.</u>
City of Missoula Special Road Fund,	\$ 3.00	
County Road Fund,		\$ 3.00

Refund Warrant No. 1185, was paid by the County Treasurer's office from the Motor Vehicle Fund and taken into account by the County Clerk's office as paid from County Road Fund. In order to have proper reconciliation, the Treasurer must transfer as follows:

<u>Treasurer's Accounts:</u>	<u>Dr.</u>	<u>Cr.</u>
Motor Vehicle Fund,	\$ 5.00	
County Road Fund,		\$ 5.00

County Fair Building and Replacement Fund Warrant No. 17 was paid by the County Treasurer from Fair Fund erroneously. To correct the Treasuere's records to balance the Fair Fund and Fair Building and Replacement Fund, the Treasurer must make the following correction transfers:

<u>Treasurer's Accounts:</u>	<u>Dr.</u>	<u>Cr.</u>
County Fair Cash Account,	\$ 10.80	
County Fair Building and Replacement Cash Account,		\$ 10.80

1933 Delinquent Tax Receipt No. 2385, issued March 13, 1942, was placed in Protested Cash Funds and the amounts due to the credit of General School \$0.42 and Special High School \$0.63 and was credited by the County Treasurer's office to county portion of the Protested Fund instead of to the T and A portion of the Protested Cash Fund.

1935 Delinquent Tax Receipt No. 1619, issued March 13, 1942, was placed in Protested Cash Funds and the amounts due to the credit of General School \$0.42 and Special High School \$0.54 were credited by the County Treasurer's office to county portion of the protested fund instead of to the T and A portion of the Protested Cash Fund.

To correct the Treasuere's Protested Tax Cash Accounts, he must make the following transfers:

<u>Treasurer's Accounts:</u>	<u>Dr.</u>	<u>Cr.</u>
Protested Taxes T and A Cash Account,	\$ 2.01	
Protested Taxes County Portion Cash Account,		\$ 2.01

(Delinquent Taxes have no legal right to be paid under Protest.)

The County Clerk's General Accounts revealed a difference of \$1.93 in his Personal Tax Cash Account and the Unfinished Business Personal Tax Account. This was caused by Refund Warrant No. 1205 for \$1.93, dated June 27, 1942, for refund of 1941 Unfinished Business in overpayment. This payment should not have been authorized at this date. The law provides a claim of this kind must be presented for payment before November 1, 1941. This transaction was debited to Undistributed Personal Tax Account instead of to Tax Reserve Account No. 101. To correct the Clerk must make the following entries:

	<u>Dr.</u>	<u>Cr.</u>
Ledger Account No. 350 Reserve		
Uncollectible Taxes,	\$ 1.93	
Unfinished Business Account,		\$ 1.93

(Operation Account correction only necessary in this case.)

We also noted a difference between the Auto Tax Cash Account and Undistributed Auto Tax Account:

Auto Tax Cash,	\$ 43,761.01
Undistributed Auto Tax Account,	<u>43,738.47</u>
Difference,	\$ 22.54

Detail of Difference:

Refund Warrant No. 1005,	\$ 19.97	Outstanding
Refund Warrant No. 1114,	.59	
Refund Warrant No. 1115,	<u>1.98</u>	
	\$ 22.54	

Warrants Nos. 1114 and 1115 were debited county portion to Undistributed Automobile Operating Account instead of Tax Roll Refund Account. To correct, the Clerk must make the following entires:

	<u>Dr.</u>	<u>Cr.</u>
Tax Roll Refund No. 101 Account-		
\$0.59 and \$1.98,	\$ 2.57	
Undistributed Automobile Tax Account -		
\$0.59 and \$1.98,		\$ 2.57

Fee of \$5.00 for Civil Case No. 14500, filed October 10, 1940, was refunded by the Clerk of Court by deducting the fee from his settlement of fees for September, 1941. The Clerk of Court has no authority to refund fees, but if refunds are legal and in order, the same should be made upon proper order of the Board of County Commissioners by issuance of a proper disbursement voucher.

The examination of the Clerk of Court's fees revealed the following:

A-101 Receipt No. 8733 for \$443.50 was credited entirely to the County General Fund. The amount of \$45.00 should have been credited to General School in payment of fine in Criminal Case No. 2378 - paid November 3, 1941 - transfer from County General Fund to General School Fund.

A-101 Receipt No. 8486, amounting to \$284.00, for highway violation in Criminal Action No. 2430, was credited to General School Fund instead of transmitted to the State Treasurer. This fine should be transmitted to the State Treasurer and the County should present claim for the board and other expenses of keeping the defendant in custody of the County Jail.

The operations of the Clerk of Court's Trust Fund was not in reconcilment with the County Treasurer's Clerk of Court's Trust Fund due to the following transactions:

A-101 Receipt No. 8745, dated December 9, 1941, deposited by the Sheriff for fees in the amount of \$26.75 was credited by the County Treasurer to Clerk of Court's Trust Fund instead of the County General Fund. Transfer of the above said amount must be made from Treasurer's Clerk of Court's Trust Fund to the County General Fund.

A-101 Receipt No. 9050, dated July 9, 1942, deposited by the Clerk of Court for fees in the amount of \$317.65, was credited by the County Treasurer to the Clerk of Court's Trust Fund instead of the County General Fund. Transfer of the \$317.65 must be made from the Clerk of Court's Trust Fund to the County General Fund.

The Clerk of Court did not reconcile the operations of his Trust Funds with those of the County Treasurer at the end of each month's business. This is very important, and if done, will reflect any erroneous debits or credits between the two offices, and if any are discovered, immediate corrections can be made. Proper accounting procedures in handling Trust Funds were gone into in detail during the course of the examination and we trust that proper reconcilments will be reflected in the account at the time of our next examination.

The report of our last examination, dated August 25, 1941, should be read again at the next meeting of the Board of County Commissioners because it appears that the suggestions and recommendations therein contained have not been given the consideration to which they are entitled, and also for the further reason that it is expensive to again inscribe herein the continuing administrative defects of the Treasurer's office regarding license and personal property tax collections. The collection of licenses has been sorely neglected and a great deal of legal revenue lost to the County and State. The matter of collecting all the various licenses required by law was gone into in detail with the County Treasurer's office by the County Attorney and the Examiner during the time the examination was made.

We notice that your personal tax delinquency since 1930 to the time of our last examination as of April 30, 1941 was \$52,386.04 and on July 31, 1942 was \$51,167.79. Only a

decrease of \$1,218.25 was accomplished after considerable extra expenditures had been made employing a Special Deputy and having notices served by the Sheriff's Office. We believe it is the duty of the County Commissioners to see that the County Treasurer properly collects personal taxes, and with that thought in mind the Examiner met with the Board and a representative of the Treasurer's bondsmen during the examination and the Commissioners immediately took action to start enforcement of the collections of personal taxes, and thereafter an extra Deputy was engaged to collect personal taxes. We noted since the last examination the County Treasurer's office had failed to collect a great many personal property taxes not a lien on real estate immediately, and in no instance by seizure and sale. It was evident that proper supervision of the extra Collector's activities had been neglected, and in consequence, results of employment were somewhat negligible. The theory of the personal tax Collection law is that a great deal of personal taxes will become delinquent and non-collectible if they are not collected immediately. The Commissioners should so supervise the Treasurer's collections of personal taxes so there would be no laxity, and if payments were not made immediately, seizure and sale of the properties should be invoked according to law.

The examination revealed a balance of \$1,327.64 in your "Protested Tax Funds," a greater portion of which should be released and distributed. The Treasurer should ascertain whether or not the protests have been settled, either by court or failure on the part of the payers to bring action to recover, and if it is found that some cases of long standing are still pending, the County Attorney should see that they are settled. This matter was called to attention in our last report.

The records of the County Treasurer show a balance in the Redemption Fund in the amount of \$25.75 with no outstanding claims or warrants of record. This balance may be erroneous but we did not attempt to reconcile the account for the reason that this excess balance had accumulated many years ago. If possible, this account should be set up in detail back to where it was in balance and after the errors are determined, proper adjustments should be made. If it is impossible to reconcile this account, the unaccounted balance should be transferred to the County General Fund, and if any demands should thereafter be made for refunds, the same could be made from the General Fund upon submission of detailed and verified claims.

We again found that our recommendation in our last report to complete the "Treasurer's Register of Land Acquired by Tax Deed" and the "County Clerk's Tax Deed and Land Sale Journal" prescribed by our department had not been completed and in consequence distribution of tax deed sales (suspense account) set up in May, 1941 and accumulated since that date could not be made for lack of proper records. The Examiner met with the Board of County Commissioners, The County Treasurer and the County Clerk and discussed the necessity of the completion of necessary tax deed records, and after the conference, the Board authorized and directed the County Clerk and Recorder and the County Treasurer to have all the nexeccary tax deed proceedings completed in the manner prescribed by the State Examiner. We shall expect that these records be properly installed and handled to the end that tax deed accounting be handled legally, efficiently and economically.

Suggestions of importance in the handling of many routine matters were taken up and instructions to the County Treasurer's office relative to the following:

- (1) Proper Cash Book accounting procedure.
- (2) Division of responsibilities of the Deputies employed, especially as to having the general accountant a different individual than the ones who receive and handle the cash.
- (3) Proper recording of registered warrants.
- (4) Setting up of Current and Delinquent Taxes Receivable accounts.
- (5) Proper handling and accounting of personal tax collections, making legal distributions of same and the proper refunding of over payments and collection of under payments.
- (6) School district budget control and cash funds' accounting, especially the setting up of proper transportation funds and operation of same. Posting school budgets immediately and keeping balances up to date. The full value of school funds' accounting and budget controls were found to have been lost because of said accounting being performed too long after the transactions were made.

The claims were acknowledged and approved by the Board of County Commissioners and entered on the minutes of the Board.

We noted a few claims of the county commissioners include expenses for a trip to Helena on highway and welfare matters, expenses to Spokane in re purchase of machinery and viewing property in Petroleum County. The amounts involved were small but we mention these charges because the Attorney General has held that county commissioners or other public officers are not entitled to charge mileage, traveling expenses or per diem when traveling to the State Capitol for consultation with any state officer, board or department, or when attending any convention or meeting other than such as are specified in Section 443, R.C.M. 1935. It may be contended that instances may arise where it is necessary and for the best interests of the county that some member of the board, or some other officer shall attend some meeting or gathering, or consult with some state department. However, our Supreme Court (76 Mont.150) said:

"The fact that the contemplated action may be in the best interests of the County is not an admissable argument. The doctrine of expediency does not enter into construction of statutes."

Claim No. 9665 was for a refund of candidates' filing fee on account of withdrawal. The Attorney General in Vol. 10, page 352, held that a candidate who withdraws is not entitled to a return of the fee paid for filing his petition.

Respectfully submitted.

A. M. Johnson
First Assistant State Examiner.

PERSONAL PROPERTY DELINQUENT TAXES

At 2:00 o'clock P. M., the County Attorney and Mr. A. M. Johnson, of the State Examiner's Office, appeared before the Board, and Mr. Wilson informed the Board that he came before the Board with Mr. Johnson to ask the disposition of the Board and Mr. Johnson as to the action to be taken with reference to all personal property delinquent taxes due the County to date. Mr. Johnson then stated to the Board, that due to lack of any description of personal property in the Assessor's certification to the Treasurer, it appears the Treasurer could not seize personal property and sell it according to law, and therefore could not be guilty of negligence and be personally liable, and he, therefore, felt no action could be taken against Mr. Marion, the outgoing Treasurer, and Mr. Johnson recommended that all personal property be fully described in the future, in accordance with new legislation signed by the Governor.

EXTRADITION MATTERS:

County Attorney Fremont W. Wilson appeared before the Board and informed the Board that the defendant, Oliver Roosevelt Bingham had been apprehended in Redwood City, California, on a charge of desertion of six children, thirteen years of age, and under, in Missoula County, and that the defendant has been released there on a Writ of Habeas Corpus, to be heard before the court June 7, 1943.

Mr. Wilson informed the Board that Governor Ford had told him he would ask the Governor of California for extradition and send the sheriff of Missoula County to Redwood City, California, for the defendant. Mr. Wilson informed the Board that he felt Missoula County should be represented at the hearing on Habeas Corpus and that he wanted authority from the Board to represent the County of Missoula at Redwood City, California, on June 7, 1943, in an effort to secure the custody of the defendant. On motion of Chairman Finefrock seconded by Commissioner Flynn and passed ^{by} ^{by} unanimous vote of the commissioners present, County Attorney Fremont W. Wilson was authorized, at the county's expense, to proceed to Helena on Tuesday, June 1, 1943, to secure the Governor's application for extradition and thereafter to accompany the sheriff of Missoula County to Redwood City, California, to represent the County of Missoula and State of Montana, at the Habeas Corpus hearing on June 7, 1943, in an effort to secure the return of the defendant to Missoula County for trial.

The Board took the position that inasmuch as the six children of the defendant were now a charge upon Missoula County, and costing the county \$78.00 a month, that the Board was justified in making an effort to bring the defendant back to Missoula County to face charges of desertion.

The Board attended to general business and at 5:00 o'clock p. m. continued the Special Session until June 1, 1943 at 10:00 o'clock a. m.

RE: Abatement, 1943 Personal Property Taxes.

Attached hereto is a list of uncollectible personal property taxes for the year 1943, which taxes we are requesting you to abate.

This office, with the assistance of the Sheriff's office, has extended every effort possible to make collection of these taxes. You will notice that we have specified why we were unable to make these collections. In every instance seizure papers were made out, but the Sheriff is unable to proceed when the people are no longer in the county.

Your consideration will be greatly appreciated.

Yours very truly,
A. B. Jungers

EXAMINER'S COMMENTS

The cash balances to the credit of the various accounts as shown by Treasurer's books were verified by direct correspondence with the depository banks at close of business February 28, 1943, while the cash and cash items were verified by count. Receipts and disbursements were checked and verified.

The amount of \$18.52 due the County as shown elsewhere in this report should be paid into the Treasury at once. This amount and the sum of \$14.06 in the office of the County Treasurer must be used to pay the taxes of the taxpayer covered by 1942 Current Tax Receipt No. 3638 for First Half of the taxes, said tax being paid by the taxpayer but not taken into account and accounted for to the Treasury of Missoula County. The payment of the above amount of \$18.52 is absolutely necessary, and if not paid by the former Treasurer, the County Attorney should make immediate demand on the bonding company that bonded the former Treasurer and have payment made to the County Treasurer.

Original Receipt for 1940 Delinquent Real Estate Taxes No. 269 was missing. Duplicate and triplicate copies, dated December 26, 1942, were on file and accounted for. Original receipts should always be accounted for and filed for examiner's verification.

Difference	\$	266.89

Detail:

The difference of \$266.89 was caused by Treasurer's Office in January, 1944 taking the amount of the remittance to the Northwestern National Bank and Trust Company of Minneapolis for bond and interest coupon payments as a disbursement and charging the bond and interest cash accounts instead of charging the said fiscal bank with the amount of the said remittance.

In remitting for coupon interest and for the redemption of bonds, the County Treasurer's Office must charge the fiscal banks with the amount of the remittance and not take same to account in the cash book as a disbursement. The cancelled coupons and bonds when surrendered only must be taken into account as a disbursement for entry in the Treasurer's cash book. Our department cannot approve of a remittance to the fiscal bank as a disbursement; therefore the Treasurer's Office must make proper corrections of the bond cash funds so as to reflect only the amount of bonds and coupons received as disbursements.

The amount of the overage due former Treasurer Mr. W. H. Marion as shown elsewhere in this report amounted to the sum of \$14.06. The balance of \$9.00 is represented by a check held in the Treasurer's office - No. 8585 - drawn on the Western Montana National Bank, dated March 31, 1943, to A. B. Jungers, County Treasurer, for Mr. Marion's account.

EXAMINER'S COMMENTS

The cash balances to the credit of the various accounts as shown by the Treasurer's books were verified by direct correspondence with the depository banks at close of business March 22, 1944, while the cash and cash items were verified by count. Receipts and disbursements were checked and verified.

Due to erroneous accounting of A-101 Receipt No. 9468 for \$11.62 and Journal Voucher No. 123 to correct said erroneous debiting of said A-101 Receipt No. 9468 the Treasurer's cash accounts were not in reconciliation. To correct the Treasurer's cash accounts must be corrected as follows:

	Dr.	Cr.
Poor Fund Cash	\$ 11.62	
Road Fund Cash		\$ 11.62

Suggestions of importance in the handling of some routine matters were taken up and instructions given to the Treasurer's office relative to the following:

Delinquent Personal Tax Receipts should be obtained for the purpose of receipting for all Personal Tax collections for years 1943 and prior. A separate series of receipts for 1944 Delinquent Personal Taxes should be obtained for use beginning December 1, 1944.

Distribution of Personal Tax collections and Motor Vehicle Licenses and Taxes should be made for each month and based on the total amount collected for each school district unit, applying last year's levy prior to annual levy and annual levy after being certified. By making distribution at the end of each month's business direct distribution is accomplished and there will be no necessity of having to place any of collections in suspense. This will simplify accounting procedure and will make funds available if and when needed.

For a number of years the records of the Treasurer's office have shown a balance in the Redemption Fund of \$25.78 with no record of outstanding claim or warrant. This balance may be erroneous, as we have never made an attempt to reconcile the account for the reason that this excess balance had accumulated many years ago. We have previously requested the former Treasurer to reconcile this account but have had no co-operation. This account should be reconciled and the detail of the cash balance should be set up in the Redemption Ledger.

EXAMINER'S COMMENTS

The cash balance of \$263.14 in Personal Tax Fund (Unfinished Business) caused by excess payment over amount of taxes computed should be closed and the amount transferred to the County General Fund.

The following Taxes Receivable accounts appear to be erroneous and not justified in accordance with the detailed accounts. These accounts should be reconciled by the County Clerk and charged off to show only what the detailed delinquencies total. The Treasurer's accounts should also reflect the true amount of these receivables. The accounts referred to are as follows:

(Continued on next page)

Page - 13 -

	County	T. and A.
1941 Auto Taxes Receivable	\$ 286.18	\$ 520.91
1942 Auto Taxes Receivable	2,022.30 Cr.	4,430.74 Cr.
1943 Auto Taxes Receivable	178.94 Cr.	348.51 Cr.

We also noted many of the Taxes Receivable accounts showed credit balances and in some instances debit balances when it appeared that there were no receivables. These accounts should be reconciled and adjusted, and if possible, charged off. If there should be any receivables found for some of the old years, they should be eliminated by having the Board of County Commissioners ordering Tax Deeds taken so that your records can be cleared of many of your accounts.

The examination revealed that Special Improvement District No. 3 warrants had not been taken into account as liabilities. The remainder of the warrants that were issued and not paid should be taken into account so that your general accounts will reflect the status of the said district.

Recommendations were made during the examination to change the amount of fees for County Clerks which must be charged and collected as provided by Section 4717, as amended by Chapter 87 of the Twenty-seventh Legislative Assembly. Immediate compliance with the said statutes was adopted.

EXAMINER'S COMMENTS

The examination revealed fees for supplying certified copies of records of marriage. Under date of February 4, 1943 the Attorney General held that Clerks of District Courts are without authority - under existing statutes - to supply applicants for wartime service men's allotments with certified copies of documents without charging the usual and regular statutory fees provided in such instances.

A-101 Form Receipts No. 8263 for the amount of \$10.00 for fine in a Highway Patrol Case and A-101 Form Receipt No. 8643 for the amount of \$300.00 for fine in a Highway Patrol Case were deposited by the Clerk of the District Court and the amounts were credited by the former County Treasurer's office to the County General School Fund instead of the State Treasurer for the State General Fund. Under date of May 24, 1944 the Attorney General held that fines such as these should be paid to the Treasurer of Montana and by him credited to the General Fund of the State of Montana. A claim for refund was prepared and presented for the Board of County Commissioner's consideration and a warrant for the amount of \$310.00 was delivered payable to the State Treasurer.

EXAMINER'S COMMENTS

Our attention was called to the imposing of a fine by Justice of the Peace Ralph L. Starr in an amount less than the minimum imposed by statute for the offense. We also noted that in Justice of the Peace Arthur M. Woods' court fines had been imposed for amounts less than the minimum imposed by law for the offenses. The provisions of the statutes control the acts of Justices as well as all other persons. The Attorney General in Vol. 15, page 208, held: A Justice of the Peace has no authority to remit a part of a fine when the amount remitted reduces the fine below the minimum imposed by statute."

The examination revealed that Justice of the Peace fees were withheld from fines imposed for violation of Highway Patrol Act, Chapter 199, Laws of 1943, and credited to the County General Fund instead of transmitting them to the State Treasurer. The Attorney General in Vol. 20, Opinion No. 143, held: "No Justice of the Peace fees should be withheld from fine imposed for violation of Highway Patrol Act, Chapter 199, Laws of 1943, where fines are imposed by Justice of the Peace receiving regular salary." Claims for refunds were prepared during the examination and warrants were drawn payable to the State Treasurer for the amount of fees withheld by the two Justice courts amounting to the sum of \$238.50.

GENERAL COMMENTS:

The asset accounts of your Buildings, Furniture, Fixtures, etc. and the Depreciation accounts as shown in the County Clerk's General Ledger do not reflect true assets, nor can the Depreciation accounts be tied into all of your assets individually. The book value of your assets should represent the true cost. Your accounts should have a Depreciation account contra to each asset. Proper adjustments of your Depreciation accounts should be accomplished for each asset by having the Board of County Commissioners obtain appraisals and inventories so as to reflect true costs of all assets and to set up contra depreciation accounts for each asset account.

The examination revealed that \$778.26 has been tied up in your Trust and Agency Protested Tax Cash Account for a number of years. The protests referred to are: Civil Cases Nos. 13801-13802 and 13388, all being Bunch vs. Jocko Irrigation District. These cases are of long standing and it appears that the County Attorney should see that they are settled and cleared from the records.

GENERAL COMMENTS (Continued)

We found that the Board of County Commissioners approved abatement No. 279 on 1943 Personal Taxes amounting to the sum of \$368.83. Upon request of the Examiner and advice of the County Attorney's office, the said abatement order was rescinded by the Board of County Commissioners on April 19, 1944 and it was ordered that all said taxes be restored to the Tax Rolls and Taxes Receivable Accounts.

It appears that abatements Nos. 270 amounting to \$108.41 and 271 amounting to \$75.75, ordered approved by the Board may be considered in the same category as abatement No. 279. The Board should take up the legality of these two said abatements with the County Attorney and act on his legal opinion in the matter whether or not to rescind the said orders of abatements.

The examination revealed that A-101 Receipt No. 9701, dated July 31, 1943, amounting to \$5,440.74, obtained from revenue from Tax Deed Fund transactions that had been set aside in a Tax Deed Suspense Cash Fund was distributed in the County Treasurer and County Clerk accounts by assembling and grouping the amount of the equity to the several cash funds, instead of handling each transaction separately by taking into account each payment on an A-104 Form Receipt, so as to permit each subsidiary and individual account of Tax Deed Assets involved being currently handled and posted to the Treasurer's and Clerk's records, and also to keep properly the General Control Accounts of the County Clerk in reconciliation with the subsidiary Tax Deed Accounts. The Examiner could not find a record from which the distribution was made and could not, therefore, verify whether or not the distributions were based and calculated in the legal equity of each transaction. In order to ascertain the correct equity distribution and also to enable the proper accounting of each payment to the individual subsidiary accounts, the distribution was remade during the examination and taken into account on Form A-104 Receipts and taken into account in the said subsidiary accounts as kept by the County Treasurer.

The distribution of the Tax Deed Funds taken into account on July 31, 1943 did not agree with the distribution made during the examination and in order to correct the accounts involved, the following procedures are required:

We found that our recommendation in our last report to complete the "Treasurer's Register of Land Acquired by Tax Deed" and the "County Clerk's Tax Deed and Land Sale Journal" as prescribed by our department had been partly installed. The work that had been completed was satisfactory, but in its present condition does not fully meet our requirements. These Tax Deed records should be completed as soon as possible and all tax deed assets properly set up, and all necessary accounting posted and kept as required by our department.

The claims were acknowledged and approved by the Board of County Commissioners and entered on the minutes of the Board.

Warrant No. 9538, J. D. Finefrock, is for payment for attending State Convention of County Commissioners and includes besides per diem and transportation, items for meals and room amounting to \$13.40. Section 443, R. C. M. 1935, specifically provides one member of the Board may be allowed actual transportation expenses and per diem for attendance upon any general meeting of County Commissioners or Assessors held within the State not oftener than once a year. You will note that the law does not specifically authorize the collection for meals and room, and a County Commissioner can lawfully collect for services performed in virtue of his office only such fees or other compensation as the law specifically authorizes.

The hereinafter warrants set out for each particular officer included the ten per cent increase in salaries for County officers, as provided by Chapter 169, Laws of 1943. The following statement also enumerates besides the number of the warrants and the name of the officer, the amounts paid, correct amounts, amount of ten per cent increases, refunds and amounts due County General Fund.

These payments present the question concerning the ten per cent increase in salary for County officers, as provided by Chapter 169, Laws of 1943. Our Supreme Court held Chapter 169, Laws of 1943, unconstitutional, and the Attorney General, under date of September 25, 1943, held: "Officers must refund salary increases which were paid under law thereafter declared unconstitutional." A letter of demand for refunds of ten per cent increase paid was written to the officers by the County Attorney, dated December 1, 1943, and refunds were only made as shown above. It appears that the County Attorney's duties now are to take such action as necessary to obtain refunds from the officers who received the increases in salary which have not already been refunded.

Respectfully submitted,

A. M. JOHNSON,
First Assistant State Examiner.
